Russian Energy Security and Foreign Policy Adrian Dellecker, Thomas Gomart, 2011-05-03 This book provides an original and thoroughly academic analysis of the link between Russian energy and foreign policies in Eurasia as well as offering an interpretation of Russia's coherence on the international stage seeking to understand Russia and explain its behaviour The authors analyse both energy and foreign policies together in order to better grasp their correlation and gain deeper understanding of broader geopolitical issues in Eurasia at a time when things could go either way towards producers or towards consumers Questioning the concept of energy deterrence which aims to fuel uncertainty in Russia's relations with its partners as well as projecting its overall power on the international scene this provocative volume seeks to stimulate debate on this very important issue Assessing the weight that energy has in Russia's foreign policy and in its pursuit of power on the international stage this book will be of interest to students and scholars of international relations energy politics geopolitics and Russian and Central Asian Studies U.S./India Energy Cooperation United States. Mink, 1977 **British Foreign Policy Under New Labour, 1997-2005** P. Williams, 2005-11-22 This important new study provides a critical analysis of the foreign policies conducted during the first

two terms of Tony Blair's government. It focuses upon the government's key foreign policy commitments: three of its most important international relationships with the US, the European Union, and Africa, and how Blair's government dealt with five fundamental policy issues: political economy, defence, international development, intervention, and Iraq. It argues that throughout this period, Labour's foreign policies attempted to paper over some important contradictions. *Resource Curse Or Blessing?* United States. Congress. Senate. From Jobs to Justice: The Trump Era Examined Shawn Armstrong, 2025-02-10 The book outlines various significant policies and actions taken by the Trump Administration across multiple domains, including trade, energy, foreign policy, defense, and veterans affairs. In trade, the administration achieved notable victories, such as winning a WTO dispute against Indonesia regarding agricultural export restrictions and facilitating American exports of pork and beef to key markets like Argentina and China. Financial support programs for farmers were also implemented to mitigate trade impacts. In the energy sector, the Trump Administration focused on deregulation and expansion, exemplified by the Presidential Memoranda supporting the Keystone XL and Dakota Access pipelines. The administration oversaw a surge in coal exports and a significant increase in U.S. oil production, positioning the country as the largest crude oil producer globally. Key shifts included rescinding the Clean Power Plan in favor of the Affordable Clean Energy Rule and withdrawing from the Paris Climate Agreement. Foreign policy initiatives included relocating the U.S. Embassy in Israel to Jerusalem, withdrawing from the Iran nuclear deal, and imposing sanctions on Iran and Venezuela. The administration engaged in historic diplomatic efforts with North Korea, including a summit between President Trump and Kim Jong Un, which aimed at denuclearization. Additionally, responses to Syria's chemical weapons use involved targeted airstrikes. In defense, the administration increased military funding, implemented a new nuclear posture review, and established America's first comprehensive cyber strategy in 15 years. The administration also focused on NATO spending, pushing member countries to increase their defense budgets. Finally, in

veterans affairs significant reforms were introduced including enhancements in veteran care through the VA Accountability Act and expansion of telehealth services The administration worked on modernizing the VA s infrastructure and improving access to mental health treatment while increasing transparency and accountability within the department Overall these actions reflect a comprehensive approach by the Trump Administration aimed at reshaping American policies across various sectors during its first four years
