Global History Cultural Encounters From Antiquity To The Present:

Global History David W. Del Testa, Florence Lemoine, John Strickland, 2015
Testa, Florence Lemoine, John Strickland, 2004 Written in a lively engaging style and designed to complement social studies curriculum as well as programs in the social sciences and humanities this reference vividly recreates and analyzes pivotal encounters exchanges and conflicts between cultures and civilizations that profoundly influenced the course of human history
Global History: Antiquity, 5000 b.c.e. to 400s c.e David W. Del Testa, Florence Lemoine, John Strickland, 2004 Contains primary source material
Wallerstein 2.0 Frank Jacob, 2023-07-06 Immanuel Wallerstein s world systems theory can help to better understand and describe developments of the 21st century The contributors address the possibilities to reread Wallerstein s theoretical thoughts and ideas that are related to different disciplines in the humanities and social sciences The presented interdisciplinary approach of this anthology thereby intends to highlight the broader value of Wallerstein s ideas even almost five decades after the famous sociologist and economic historian first expressed them

Global History: The contemporary world, 1900s to present David W. Del Testa, Florence Lemoine, John Strickland, 2004 Contains primary source material
Thinking History Globally Diego Olstein, 2014-11-04 The book brings together many recent trends in writing history under a common framework thinking history globally By thinking history globally the book explains applies and exemplifies the four basic strategies of analysis the big C s comparing connecting conceptualizing and contextualizing using twelve different branches of history
Militarized Cultural Encounters in the Long Nineteenth Century Joseph Clarke, John Horne, 2018-08-22 This book explores European soldiers encounters with their continent s exotic frontiers from the French Revolution to the First World War In numerous military expeditions to Italy Spain Russia Greece and the Levant they found wild landscapes and strange societies inhabited by peoples who needed to be civilized Yet often they also discovered founding sites of Europe s own civilization Rome Jerusalem or decaying reminders of ancient grandeur The resulting encounters proved seminal in forging a military version of the civilizing mission that shaped Europe s image of itself as well as its relations with its own periphery during the long nineteenth century
Global History: The spread of religions and empires, 400s to 1400s David W. Del Testa, Florence Lemoine, John Strickland, 2004 Contains primary source material
Locating Religions, 2016-12-12 This collection of articles is an innovative contribution to religious studies because it picks up concepts developed in the wake of the so called spatial turn Religions are always located in a certain cultural and spatial environment but often tend to locate or translocate themselves beyond that original setting Also many religious traditions are not only tied to or associated with the area its respective adherent live in but are in fact bi local or even multi local as they closely relate to various spatial centers or plains at once This spatial diversity inherent to many religions is a corollary to religious diversity or plurality that merits in depth research The articles in this volume present important findings from a series of settings within and between Asia and Europe Contributors are Anna Akasoy

A World History of War Crimes Michael S. Bryant, 2015-12-17 A World History of War Crimes provides a truly global history of war crimes and the involvement of the legal systems faced with these acts Documenting the long historical arc traced by human efforts to limit warfare from codes of war in antiquity designed to maintain a religiously conceived cosmic order to the gradual use in the modern age of the criminal trial as a means of enforcing universal norms this book provides a comprehensive one volume account of war and the laws that have governed conflict since the dawn of world civilizations Throughout his narrative Michael Bryant locates the origin and evolution of the law of war in the interplay between different cultures While showing that no single philosophical idea underlay the law of war in world history this volume also proves that war in global civilization has rarely been an anarchic free for all Rather from its beginnings warfare has been subject to certain constraints defined by the unique needs and cosmological understandings of the cultures that produce them Only in late modernity has law assumed its current international humanitarian form The criminalization of war crimes in international courts today is only the most recent development of the ancient theme of constraining when and how war may be fought

Wynar, 2005 1970 issued in 2 vols v 1 General reference social sciences history economics business v 2 Fine arts humanities science and engineering [Encounters Old and New in World History](#) Alan Karras, Laura J. Mitchell, 2017-06-30 This collection of essays asserts the specific value of world history research and teaching showing how the field contributes to the larger historical profession and offering concrete suggestions to develop more interaction between the academy and the public The twelve contributors each with their own academic areas of interest are experienced scholars and classroom teachers Uniting them together in this volume is their professional relationship with Jerry H Bentley 1949 2012 This shared connection served as a catalyst to showcase Bentley s enduring legacy a commitment to investigating large scale questions with detailed empirical evidence that explains the human condition documenting both patterns of

similarity and difference in ways that account for regional and temporal variations The volume continues Bentley's meticulous attention to world historical methods focus on scale cross cultural encounter comparison periodization critical geography and interdisciplinarity Encounters Old and New in World History responds to provocations that Jerry Bentley tendered in his scholarship and through his professional activities Contributors interrogate the institutional settings disciplinary proclivities methodological choices and diverse source bases of world history research and teaching Several essays address the ways in which present day concerns influence research on local and global scales Other essays pay particular attention to the production and circulation of knowledge across regional temporal and class boundaries as well as between the academy and the wider public Claiming the centrality of globally informed and focused approaches to historical inquiry researchers continue the conversations that Bentley carried on through his own scholarship teaching editing of the Journal of World History participating in public forums and contributing to public discussions about the place of history in understanding today's global integration The stakes involved in asking questions about the shared history of humankind continue to increase in the current era of intensified globalization It is incumbent upon scholars with the skills to work across linguistic geographic temporal and disciplinary boundaries to show the ways that cross cultural encounters happened historically and to point out how such interactions play out in the institutions classrooms and public debates where historical interpretations are created and shared

Globalism in the Middle Ages and the Early Modern Age Albrecht

Classen,2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800 the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates offering a wide range of innovative perspectives on often neglected literary philosophical historical or medical documents Texts images ideas knowledge and objects migrated throughout the world already in the pre modern world even if the quantitative level compared to the modern world might have been different In fact by means of translations and trade for instance global connections were established and maintained over the centuries Archetypal motifs developed in many literatures indicate how much pre modern people actually shared But we also discover hard core facts of global economic exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable
