Global Humanitarianism Ngos And The Crafting Of Community:

Global Humanitarianism Daniel Robert DeChaine, 2005-01-01 In *Global Humanitarianism* Daniel Robert DeChaine undertakes an historical cultural analysis of humanitarian NGO rhetoric and politics He focuses his study specifically on MZdecins Sans Fronti_res and the International Campaign to Ban Landmines This book besides being the first of its kind offers to the disciplines of political science cultural studies and sociology a model with which to consider the political and social roles of NGOs in the ever changing global community

Visual Securitization Alice Massari, 2021-05-18 This open access book offers an innovative account of how relief organizations visual depiction of Syrian displacement contributes to reproduce and reinforce a securitized account of refugees Through visual analysis the book demonstrates how the securitization process takes place in three different ways First of all even if marginally it occurs through the reproduction of mainstream media and political accounts that have depicted refugees in terms of threats Secondly and more consistently through a representation of Syrian displaced people that despite the undeniable innovative aesthetic patterns focusing on dignity and empowerment continue to reinforce a visual narrative around refugees in terms of victimhood and passivity The reproduction of a securitized account takes also place through the dialectic between what is made visible in the pictures and what is not At the same time the book identifies visual glimmers and minor displacements in the humanitarian discourse that have the potentiality to produce alternative discourses on refugees and displacement beyond the mainstream securitized ones By showing how relief organizations visual representation contributes to the securitization of the refugee issue this book provides a great resource to students and academics in migration visuality humanitarianism and securitization as well as social scientists and policy makers

Civil-Military Relations in International Interventions Karsten Friis, 2020-02-13 This book examines military and civilian actors in international interventions and offers a new analytical framework to apply on such interventions While it is frequently claimed that success in international interventions hinges largely on military civilian coherence cooperation has proven challenging to achieve in practice This book examines why this is the case by analysing various approaches employed by military and civilian actors and discussing the different relationships between the intervening actors and those upon whom they have intervened The work analyses different military concepts such as peacekeeping and counterinsurgency and the often troubled relationship between the humanitarian and military intervening actors It presents a new analytical framework to examine these relationships based on identification theory which illuminates how the interveners represent those they have been deployed to engage as well as their own identity and role As such the book offers an enhanced understanding of the challenges related to civil military cooperation in international interventions as well as a theoretical contribution to the study of interventions more generally This book will be of much interest to students of international interventions military studies peacekeeping security studies and International Relations

Cosmopolitanism and the Development of the International Criminal Court Jennifer

Biedendorf,2019-08-01 *Cosmopolitanism and the Development of the International Criminal Court* analyzes a set of prominent and competing discourses that emerged in the context of the development and establishment of the International Criminal Court ICC The ICC is the first permanent juridical body designed to prosecute individuals who commit offences including war crimes crimes against humanity and genocide Drawing on scholarship on public memory and human rights the book argues that international law and the international human rights system play a key role for the development of transnational memory discourses and transnational or cosmopolitan subjectivities Despite the International Criminal Court being recognized as a landmark development in global cooperation an examination of key events in the development of the court shows how some state and nonstate actors advance calls for cosmopolitanism while others resist cosmopolitanism to bolster nation state sovereignty Drawing on the establishment of the International Criminal Court as a case study the book examines several events that continue to shape national and international public discourse The book examines debates that occurred during the drafting process of the international treaty at the United Nations and that led to the groundbreaking inclusion of provisions on gender and sexual violence in the Rome Statute of the ICC in 1998 The analysis discusses the tension between feminist advocates rhetoric and the discourse of anti women s rights actors involved in the treaty making process who resisted such inclusions in international criminal law The book analyzes other key events related to the establishment of the ICC that invoke tensions between competing demands of cosmopolitanism and national sovereignty including advocacy campaigns by nongovernmental organizations working to drum up public support of the institution of the International Criminal Court and the debates surrounding the unprecedented act of the United States unsigned an international treaty In sum this examination of the rhetoric of state and nonstate actors attempting to shape the court according to their visions of global community shows how discourses about international criminal law and human rights are employed not only to advance cosmopolitanism but also to strengthen nationalist discourses **Routledge Handbook of**

Humanitarian Communication Lilie Chouliaraki,Anne Vestergaard,2021-09-30 The *Routledge Handbook of Humanitarian Communication* is an authoritative and comprehensive guide to research in the academic sub field of humanitarian communication It is broadly focused on communication that presents human vulnerability as a cause for public concern and encompasses communication with respect to humanitarian aid and development as well as human rights and humanitarian wars Recent years have seen the expansion of critical scholarship on humanitarian communication across a range of academic fields sharing recognition of the centrality of media and communications to our understanding of humanitarianism as an agent of transnational power global governance and cosmopolitan solidarity The Handbook brings into dialogue these diverse fields their theoretical frameworks and methodological approaches as well as the public debates that lie at the heart of the contemporary politics of humanitarianism It consolidates existing knowledge and maps out this emerging field as an important site of interdisciplinary knowledge production on media communication and humanitarianism As such the

Handbook is not simply a collection of texts sharing a similar theme It is a coherent intellectual contribution which systematizes current critical scholarship in terms of Domains Methods and Issues and sets an agenda of emerging and evolving research priorities in the field Consisting of 26 chapters written by international scholars who have contributed to laying the foundation of the field this volume provides an essential guide to the key ideas issues concepts and debates of humanitarian communication

The Rise of Global Health Joshua K. Leon, 2015-02-10 Chronicles the expanding global effort to confront public health challenges Since the year 2000 unprecedented resources have been committed to the complex challenge of developing global public health solutions by national governments multilateral organizations and civil society groups This vast global movement is one of the most remarkable political phenomena of twenty first century international relations but is it working In The Rise of Global Health Joshua K Leon argues against the conventional wisdom which argues that collective action on development issues including controversial increases in foreign aid is too inherently inefficient to succeed Leon shows that public action on a global level can successfully pursue health equality Often at the behest of grassroots activists these disparate groups of actors are cooperating more than ever with the aim of improving our human potential through better health Though operating at cross purposes with unequal trade agreements and other factors within the global economy harming the Global South we learn something surprising about global health governance it is evolving in ways more efficient than we think

The Megarhetorics of Global Development Rebecca Dingo, J. Blake Scott, 2012-01-29 After World War II an unprecedented age of global development began The formation of the World Bank and the International Monetary Fund allowed war torn and poverty stricken nations to become willing debtors in their desire to entice Western investment and trade New capital it was foretold would pave the way to political and economic stability and the benefits would trickle down to even the poorest citizens The hyperbole of this neocolonialism however has left many of these countries with nothing but compounded debt and unfulfilled promises The Megarhetorics of Global Development examines rhetorical strategies used by multinational corporations NGOs governments banks and others to further their own economic political or technological agendas These wide ranging case studies employ rhetorical theory globalization scholarship and analysis of cultural and historical dynamics to offer in depth critiques of development practices and their

material effects By deconstructing megarhetorics at both the local and global level and following their paths of mobilization and diffusion the concepts of progress and growth can be reevaluated with the end goal of encouraging self sustaining and ethical outcomes

Communicating during Humanitarian Medical Crises Marouf Hasian Jr.,2019-03-18 The Promise and Perils of Silence or Temoignage During Humanitarian Crises provides readers with a nuanced study of what happens when historical and 21st century medical humanitarian communities armed with their idealistic rhetorics choose whether to speak out or remain silent during various military or medical crises The author uses a series of case studies from the late nineteenth century to the early twenty first century to illustrate the politicized nature of these decisions Unlike some that focus on the prescriptive need to follow certain universal medical humanitarian principles during crises this book highlights the precarious nature of what some scholars call medical advocacy witnessing or what the French call t moignage The author argues that regardless of whether we are talking about lack of action during colonial crises or the Holocaust it is oftentimes the lack of political will that determines how like neutrality or impartiality are interpreted The book also acquaints readers with some of the challenges that have been recently posed to the new humanitarian Doctors Without Borders personnel who have witnessed the targeting of medical hospitals and clinics What researchers call the weaponization of medical care affects many in need living in places like Afghanistan Iraq Yemen or Syria The author concludes the book by underscoring the point that it is the presence or absence of political will and not the inherent epistemic value of medical humanitarian principles that dictates when this advocacy succeeds or fails

Routledge Handbook of Cosmopolitanism Studies Gerard Delanty,2012-05-23 Over the past two decades there has been great interest in cosmopolitanism across the human and social sciences Where earlier it had largely been a term associated with moral and political philosophy cosmopolitanism has now become a widely used term in the social sciences It is now integral to much of cultural political and social analysis This is the first comprehensive survey in one volume of the interdisciplinary field of cosmopolitan studies With over forty chapters written by leading scholars of cosmopolitanism this book reflects the broad reception of cosmopolitan thought in a wide variety of disciplines and across international borders Both comprehensive and innovative in the topics covered the Handbook of Cosmopolitanism Studies is divided into four sections major theoretical debates where the emphasis is on recent developments cultural topics in the social sciences the politics of cosmopolitanism major world varieties of cosmopolitanism The Handbook answers the need to take modern cosmopolitanism out of its exclusive western context and relate it to the historical experiences of other world cultures This is a major work in defining the emerging field of cosmopolitanism studies Throughout there is a strong emphasis on interdisciplinarity with essays covering philosophy literary theory history international relations anthropology communications studies and sociology The Handbook s clear and comprehensive style will appeal to a wide undergraduate audience across the social sciences and humanities

Historical Dictionary of International Organizations Michael G. Schechter,2009-11-09 One of the most pervasive phenomena that distinguish the early 21st century is the prevalence of international organizations IOs There are IOs in virtually every sector political economic trade social educational scientific defense and so forth Some IOs are restricted to clearly defined activities and closely controlled by their members others just grow and grow moving into new sections and becoming more powerful in some ways than their members The second edition of Historical Dictionary of International Organizations provides a comprehensive overview of the major international organizations both intergovernmental and international intergovernmental of the 20th and 21st centuries While the emphasis is on organizations that continue to operate today important organizations that have ceased to exist are also included This reference includes a chronology an introductory essay and over 700 cross referenced dictionary entries on the organizations significant leaders pioneers founders and members

Human Rights: Moral or Political? Adam Etinson,2018-03-09 Over the past decade or so philosophical speculation about human rights has tended to fall into two streams On the one hand there are Orthodox theorists who think of human rights as natural rights moral rights that we have simply in virtue of being human On the other hand there are Political theorists who think of human rights as rights that play a distinctive role or set of roles in modern international politics setting universal standards of political legitimacy serving as norms of international concern and or imposing limits on the exercise of national sovereignty This edited volume explores this disagreement its underlying sources and related issues

in the philosophy of human rights Using the Orthodox Political debate as a springboard for broader reflection the volume covers a diverse range of questions about the relevance of the history of human rights to their philosophical comprehension how to properly understand the relationship between human rights morality and law how to balance the normative character of human rights their description of an ideal world with the requirement that they be feasible in the here and now the role of human rights in a world shaped by politics and power and how to reconcile the individualistic and communitarian aspects of human rights All chapters are accompanied by useful and probing commentaries which help to create dialogues throughout the entire volume

A House of One's Own Alicia Sliwinski, 2018-03-01 What happens to people after an earthquake destroys their homes What is daily life like under a humanitarian regime Is aid a gift or is it a form of power A House of One's Own explores these enduring questions as they unfold in a Salvadoran town in the aftermath of the 2001 earthquakes In a lively intimate account of the social complexities that arise in post disaster settings Alicia Sliwinski recounts the trajectories of fifty families who received different forms of humanitarian aid from emergency assistance to housing reconstruction Drawing on seminal anthropological theories about gift giving and moral economy the author thoughtfully discusses the complications and challenges of humanitarian action that aims to rebuild communities through participation At the crossroads of disaster studies and the anthropology of humanitarianism the book's insights speak to timely and recurring issues that relocated populations face in regimented and morally charged resettlement initiatives A richly textured analytically nuanced ethnography A House of One's Own is a perceptive firsthand account of what happens on the ground in a post disaster setting
