David J. Laing,Howard Adler,2002 *Promoting Competition in Innovation Through Merger Control in the ICT Sector*

Kalpana Tyagi,2019-06-21 This book addresses the question of how competition authorities assess mergers in the Information Communication Technology ICT sector so as to promote competition in innovation A closer look at the question reveals that it is far more complex and difficult to answer for the ICT telecommunications and multi sided platform MSP economy than for more traditional sectors of the economy This has led many scholars to re think and question whether the current merger control framework is suitable for the ICT sector which is often also referred to as the new economy The book pursues an interdisciplinary approach combining insights from law economics and corporate strategy Further it has a comparative dimension as it discusses the practices of the US the EU and wherever relevant of other competition authorities from around the globe Considering that the research was conducted in the EU the practices of the European Commission remain a key aspect of the content Considering its normative dimension the book concentrates on the substantive aspects of merger control To facilitate a better understanding of the most important points the book also offers a brief overview of the procedural aspects of merger control in the EU the US and the UK and discusses recent amendments to Austrian and German law regarding the notification threshold Given its scope the book offers an invaluable guide for competition law

scholars practitioners in the field and competition authorities worldwide Law Books Published ,2002 **The Palgrave Handbook of Contemporary International Political Economy** Timothy M. Shaw,Laura C. Mahrenbach,Renu Modi,Xu Yi-chong,2018-12-19 Published 35 years after Palgrave Macmillan s landmark International Political Economy IPE series was first founded this Handbook captures the state of the art of contemporary IPE It draws on the series history of focusing on the oft neglected study of the global South Providing interdisciplinary perspectives from scholars hailing from the global North and South the Handbook illustrates the theoretical innovations and empirical richness necessary to explain today s ever changing world This is a world in which the global South and North are not only being transformed by the end of bipolarity and the rise of the BRICS but also by diverse global crises and growing cross border challenges It is a world where human development governance and security are becoming ever more elusive where profoundly altered by the rise of new technologies the structure of relations between nations itself is changing becoming increasingly interconnected both digitally and physically Understanding these issues is of critical importance to better anticipate current and future global transformations This Handbook is the ideal primer for all scholars practitioners and policy makers looking to do so *The International Handbook of Competition* Manfred Neumann,Jürgen Weigand,2013-01-01 This comprehensive Handbook demonstrates that academic thinking new and old has a role to play in shaping modern competition policy Gunnar Niels Oxera This indispensable Handbook examines the interface of competition policy competition law and industrial economics The book aims to further our understanding of how economic reasoning and legal expertise complement each other in defining the fundamental issues and principles in competition policy In specially commissioned chapters the book provides a scholarly review of economic theory empirical evidence and standards of legal evaluation with respect to monopolization of markets exploitation of market power and mergers among other issues The International Handbook of Competition Second Edition will be accessible to a wide audience including students of economics and law public administrators lawyers consultants and business executives *Global Economic Issues and Policies* Joseph P. European Merger Remedies Dorte Hoeg,2014-11-01 As merger transactions become more complex so do the remedies involved This book seeks to identify and examine the most important aspects of merger remedies which have emerged and evolved in the European Commission s policy and practice over the past 20 years The in depth analysis of applicable provisions and guidelines is structured in accordance with a typical remedies lifecycle the negotiation submission assessment adoption implementation and enforcement of remedies Furthermore numerous conditional clearance decisions and judgments as well as studies and legal literature on the subject are described and put into a coherent analytical framework with the aim of providing as much nuance as possible in the evaluation of the Commission s past and present remedies policy and practice While the Commission indisputably has accomplished numerous successes in its remedies enforcement over the years it has also encountered some significant obstacles and shortcomings along the way To this effect the final chapter in the book critically assesses whether the current framework which has remained unchanged since 2008 continues to provide an adequate regulatory response to today s remedies issues and challenges Where adjustments and improvements are deemed desirable or necessary possible measures are considered

European Merger Control Catalin Stefan Rusu,2010-01-01 Twenty years of experience have inevitably brought to light challenges and tensions in the enforcement of the European merger control system Some of these challenges have been faced some have been solved and some remain latent This very valuable study starts from the proposition that the EU has never fully acknowledged those fundamental challenges which relate to the rationale behind merger control in Europe The author shows how the Commission s focus on adapting the rules of merger control to the economic realities of the future business environment although designed with a view to facilitating European integration has compromised attainment of legal certainty transparency and welfare enhancement In its detailed evaluation of the future market structure prediction process embedded in European merger

control policy this book approaches two rock bottom far reaching questions In what ways does merger control promote consumer and societal welfare Is the Commission able to correctly predict the outcome of any given concentration transaction These considerations take the reader through a deep and searching analysis that calls into question the very credibility and transparency of the system leading to alternatives which promise a new clarity of purpose and procedure The author describes how these recommendations can be integrated into the functioning framework of the European project Taken fully into account along the way is a wide spectrum of relevant source material including the following applicable articles and chapters of the founding and subsequent European Treaties secondary European legislation concerning competition and merger activity domestic competition laws guidelines notices and action plans competition law reviews statements of intentions draft legislative attempts speeches on the enactment and purpose of merger control Member States views concerning European merger control as expressed during Council negotiations officially available concentration related statistics and a wide ranging literature review covering both the legal and economic sides of merger control Throughout the author substantiates theoretical assertions with case law examples clearly exposing doctrines arising from such cases as Continental Can Phillip Morris Rothmans and the Airtours Schneider and Tetra Laval trilogy A unique feature of the analysis draws on the author s personal experience while working for a Brussels competition law firm This book is a remarkable compound of academic guide to the roots and rationales of the European Merger Control System practical guide to the day to day intricacies of merger control enforcement and raw guide for decision makers and merger control law enforcers It will be of immense value in all three contexts *International M&A, Joint Ventures and Beyond* David J. BenDaniel, Arthur H. Rosenbloom, James J. Hanks, 2002-04-22 Financial and legal professionals involved in international mergers and acquisitions need to know about the intricate deals of their business This workbook provides a crash course on all aspects and types of international business deals *Promoting Competition in Global Markets* Peter John Lloyd, Kerrin M. Vautier, 1999-01-01 This book sheds new light on a major issue on the international trade policy agenda the promotion and defence of competition in globalizing markets [Antitrust Publications Catalog](#) , *The Global Merger Notification Handbook* Howard L. Adler, 1999-01-01
