Global Tyranny Step By Step The United Nations And The Emerging New World Order:

The New Nationalism--How The Next Great American Debate Will Restore Our Country By Recasting Our Politics Harlan M. C. Field, 2012-07-10 In this book Harlan Field boldly asks modern Americans to leave behind their old politics which have placed America's greatness in jeopardy and exhorts us to pursue a new political strategy that will assure America's great tradition for its future generations As we enter a new millennium Harlan observes we stand poised to discard the crowning achievement of the last thousand years the modern Nation State The only known entity that is capable of preserving Freedom and opportunity for the individual justice for the masses a healthy environment a stable society and a vibrant economy is falling victim to the seemingly invincible juggernaut of Globalism The five cardinal prerogatives of a free people are all being surrendered with little debate and even less thought The rights of a sovereign people to formulate their own independent foreign policy to raise and command a national army to admit or exclude aliens to levy tariffs on goods of foreign manufacture and to coin their own money are under attack all over the world through such peculiar pretenders to legitimacy as the North American Free Trade Agreement NAFTA the General Agreement on Tariffs and Trade GATT and the European Union E U We no longer can even remember what makes a group of people into a nation A common culture a common heritage a common language shared goals shared sacrifice shared progress This book is a must read for our politicians on the left and on the right lest because of party politics America is made to give into a secondary role on the world stage of ruthless politics and demagoguery

A New Deal for the World Elizabeth Borgwardt, 2007-09-30 In a work of sweeping scope and luminous detail Elizabeth Borgwardt describes how a cadre of World War II American planners inaugurated the ideas and institutions that underlie our modern international human rights regime Borgwardt finds the key in the 1941 Atlantic Charter and its Anglo American vision of war and peace aims

The United Nations in The Era of Globalization Mazid Reza Momeni, 2021-08-03 The United Nations as a world organization has gone through different epochs of time facing various challenges and changes since its inception While it has done a lot in saving humankind in its diverse fields of activities yet it has failed to function legitimately and effectively according to the principles of its Charter which have brought its existence and relevance under criticism and questioning The UN after the end of the Cold War for a short period of time gave a new hope to the world that it would now work genuinely according to its member states will in an environment of cooperation and understanding between its member states for common goals However right after the collapse of the communist bloc and the end of capitalist communist antagonism the process of globalization already in force gained momentum which brought about a new era in the UN's life affecting international relations and the world politics too The emergence of globalization has created many new challenges not only to the individuals and countries but also to the international institutions and global organizations This study is an attempt to analyze the real purpose of the emergence of globalization as a policy and its effects on the UN in particular and the international political economic relations in a wider

The United Nations Conspiracy to Destroy America Michael Benson, 2010-11-01 Enemies On American Soil The shocking agenda of an organization more dangerous to America than any terrorist group Inspired by FDR funded by the USA and safely sheltered on America's hallowed soil the United Nations was conceived as a neutral global peacekeeping body Yet from almost the day of its genesis the UN betrayed the nation that empowers and protects it allowing anti American thieves and tyrants to corrupt its mandate and its operations In this breathtaking expos Michael Benson connects far flung facets of UN history and policy to illustrate a startling point America is not only harboring its own worst enemy it is also financing it with taxpayer dollars bankrolling its own downfall Among the revelations in this often terrifying book Benson shows How the United Nations is developing its own One World Army in order to enforce their will on a global scale How a State Department study specifically proposed giving the UN taxing power and ultimately control of the world How the United Nations called for a new global reserve currency to end dollar supremacy which has allowed the United States the privilege of building a huge trade deficit How the UN condemns Israel and empowers Hamas and other terrorist groups the UN's gift to the free world How the UN embraces America hating dictators like Venezuela's Hugo Chavez Iran's Mahmoud Ahmadinejad and Libya's Moammar Gadhafi while condemning America's allies Informed by the historical record and the commentary of America's best conservative thinkers this book paints a stark portrait of this treacherous cabal that gives neutrality a bad name *the Secret American Dream* Nicholas Hagger, 2012-01-01 This powerful sequel to *The Secret Founding of America* presents compelling evidence of a secret American Dream nothing less than the establishment of a benign World State which would establish a universal peace under which all the peoples of the Earth would flourish

The Beast on the East River Nathan Tabor, 2006-10-29 A call to arms for Americans to assert and preserve our national sovereignty by stopping the globalist agenda of the United Nations Is the United Nations the benign force for good that so many proclaim Or is there a darker agenda at work behind the scenes Nathan Tabor reveals the sinister plan behind the glossy image of world cooperation painted by the UN and its defenders *The Beast on the East River* includes original research into key policy areas including population control education and the international criminal court And it offers practical steps that concerned American citizens can take before it's too late In his debut book rising conservative voice Nathan Tabor offers a frightening expos of the United Nations global power grab and its ruthless attempt to control US education law gun ownership taxation and reproductive rights We are already very nearly at the point of no return says Tabor and most Americans aren't even aware of the impending danger This book is a call to immediate action read its contents very carefully What you will discover may surprise and anger you His book provides a

Goetz, 2013-12-10 What in the world has gone wrong and how will it be set right America is in a moral and economic crisis Political action by itself will not reverse this moral and economic decline In times past Christian revivals occurred before a crisis in American history such as the Revolutionary and the Civil War What were the characteristics of Christian revivals in past history Can a national revival happen again or are we too close to the end times Prophetic events relate in practicality to revival in the church today because the believers hope lies in the future revelation of the genuine Christ History is repeating itself Neo democracy leading to an imperial form of the continuing Roman Empire is the rising form of government today and it will rule at the end of the age Arguments will be given for the identity of the genuine Christ The order of prophetic events will be delineated leading to the genuine new age along with the events that follow such as the rebellion of Satan and the Great White Throne Judgment **Killing the Planet** Rodney Howard-Browne, Paul L.
