Globalization M. Kornprobst, V. Pouliot, N. Shah, R. Zaiotti, 2007-12-14 By revisiting globalization using an analysis of metaphors such as global village and network society this volume sheds new light on overlooked dimensions of global politics redresses outdated conceptualizations and provides a critical analysis of existing approaches to the study of globalization

Revisiting Metaphors in International Relations Theory Michael P. Marks, 2018-01-08 This book presents an analysis of how metaphors are essential elements in the study of international relations It acknowledges the fact that theory and practice in international relations often rest on common metaphorical concepts which have implications for the ways people around the world pursue their lives Because of the increased attention metaphors have received as integral elements in political discourse there is a need to investigate metaphorical concepts that are not neutral in their implications for understanding international relations Inasmuch as government policy is shaped by metaphorical concepts that originate in the academic realm and given that scholarly works are therefore partially involved in inspiring policy the author subjects a range of metaphors in international relations theory to critical interrogation *Global Business Management* Professor Abel

Adekola, Professor Bruno S Sergi, 2012-10-01 This book interweaves the concepts of the guidance on globalization international management and the intricacies of international business that many books on the market treat independently It clarifies and explains culture cultural misunderstandings and cross cultural interactions Adekola and Sergi s text is unique in that it offers both the management perspective and the cultural perspective It is for managers seeking to thrive in the global economy This book focuses on managing global organizations providing a basis for understanding the influence of culture on international management and the key roles that international managers play It clearly shows how to develop the cross cultural expertise essential to succeed in a world of rapid and profound economic political and cultural changes

Competing Metaphors for International Relations Riikka Kuusisto, 2025-05-08 This book examines how the thinking

towards international relations of political leaders researchers the media and the public is fundamentally metaphorical in nature the abstract and far away constantly made concrete and familiar through the imaginative rationality of metaphors It delves into ten competing structural metaphors international relations as natural selection as family dynamics as balancing operations as building and constructing as games and play as business and trade as journeys and paths as musical performances as health or sickness and as puzzles and riddles Drawing attention to the important role of metaphors in grasping this field and providing explanations for its events and motives for its actors this study will appeal to scholars and students of International Relations and World Politics For experts on metaphor theory or cognitive linguistics this book will offer practical examples and speculate on the concrete consequences of adopting different metaphorical schemes *Where Metaphors Come from* Zoltán Kövecses, 2015 Kövecses recasts CMT as a contextual theory of metaphor expanding and refining it to account for the ways in which many verbal metaphors are tied to context *Carbon Footprints as Cultural-Ecological Metaphors* Anita Girvan, 2017-10-10 Through an examination of carbon footprint metaphors this book demonstrates the ways in which climate change and other ecological issues are culturally and materially constituted through metaphor The carbon footprint metaphor has achieved a ubiquitous presence in Anglo North American public contexts since the turn of the millennium yet this metaphor remains under examined as a crucial mediator of political responses to the urgent crisis of climate change Existing books and articles on the carbon footprint typically treat this metaphor as a quantifying metric with little attention to the shifting mediations and practices of the carbon footprint as a metaphor This gap echoes a wider gap in understanding metaphors as key figures in mediating more than human relations at a time when such relations profoundly matter As a timely intervention this book addresses this gap by using insights from environmental humanities and political ecology to discuss carbon footprint metaphors in popular and public texts This book will be of great interest to researchers and students of environmental humanities political ecology environmental communication and metaphor studies *The Cambridge Handbook of Metaphor and Thought* Raymond W. Gibbs, Jr., 2008-09-22 A comprehensive collection of essays in multidisciplinary metaphor scholarship that has been written in response to the growing interest among scholars and students from a variety of disciplines such as linguistics philosophy anthropology music and psychology These essays explore the significance of metaphor in language thought culture and artistic expression There are five main themes of the book the roots of metaphor metaphor understanding metaphor in language and culture metaphor in reasoning and feeling and metaphor in non verbal expression Contributors come from a variety of academic disciplines including psychology linguistics philosophy cognitive science literature education music and law **Models of Figurative Language** Rachel Giora, 2001-09-01 First published in 2001 Volume 16 Numbers 3 4 This special issue is an attempt to record the state of the art of psycholinguistics research into figurative language There are quite a number of models addressing distinct issues and aiming to solve different problems the mark of a maturing field Indeed not one theory is

tailored to solve all the problems Rather each model while aiming at generality also recognizes its limitation Despite specializing in different topics most of the theories presented here have some things in common For one most of them dispense with the literal nonliteral divide proposing instead models that are capable of handling literal as well as figurative language Some models focus on the role primary meanings play in comprehension others shed light on context effects and some models seem to encompass both in terms of the accumulating effects of constraints whether linguistic or contextual

The Analogical Mind Dedre Gentner, Keith J. Holyoak, Boicho N. Kokinov, 2001-03-02 Analogy has been the focus of extensive research in cognitive science over the past two decades Through analogy novel situations and problems can be understood in terms of familiar ones Indeed a case can be made for analogical processing as the very core of cognition This is the first book to span the full range of disciplines concerned with analogy Its contributors represent cognitive developmental and comparative psychology neuroscience artificial intelligence linguistics and philosophy The book is divided into three parts The first part describes computational models of analogy as well as their relation to computational models of other cognitive processes The second part addresses the role of analogy in a wide range of cognitive tasks such as forming complex cognitive structures conveying emotion making decisions and solving problems The third part looks at the development of analogy in children and the possible use of analogy in nonhuman primates Contributors Miriam Bassok Consuelo B Boronat Brian Bowdle Fintan Costello Kevin Dunbar Gilles Fauconnier Kenneth D Forbus Dedre Gentner Usha Goswami Brett Gray Graeme S Halford Douglas Hofstadter Keith J Holyoak John E Hummel Mark T Keane Boicho N Kokinov Arthur B Markman C Page Moreau David L Oden Alexander A Petrov Steven Phillips David Premack Cameron Shelley Paul Thagard Roger K R Thompson William H Wilson Phillip Wolff *Metaphors of ANGER across Languages: Universality and Variation* Zoltan Kövecses, Réka Benczes, Veronika Széld, 2024-11-04 Anger is one of the basic emotions of human emotional experience

informing and guiding many of our choices and actions Although it has received considerable scholarly attention in a number of disciplines including linguistics a basic question has still remained unresolved why do variations in the folk model of anger exist across languages if it is indeed a basic emotion rooted in largely universal bodily experience By drawing on a wide selection of comparable linguistic data from dozens of languages including a number of less researched languages this volume provides the most comprehensive account of what is universal and what is variable in the folk model of anger and why It also investigates the role that metonymies might play in the emergence of anger related metaphors and in what ways context influences or shapes anger metaphors and thereby the resulting folk model of anger No such volume exists in the cognitive linguistic literature on anger or on emotions for that matter The book is thus an essential contribution to the study of anger and will serve as basic reading for any researcher interested in how the conceptualization of anger is constructed via the interplay of bodily experience language and the larger cultural context **Key Concepts in Geography** Nicholas Clifford, Sarah Holloway, Stephen P Rice, Gill Valentine, 2008-12-12 This book clearly outlines key concepts that all

geographers should readily be able to explain It does so in a highly accessible way It is likely to be a text that my students will return to throughout their degree Dr Karen Parkhill Bangor University The editors have done a fantastic job This second edition is really accessible to the student and provides the key literature in the key geographical terms of scale space time place and landscape Dr Elias Symeonakis Manchester Metropolitan University An excellent introductory text for accessible overviews of key concepts across human and physical geography Professor Patrick Devine Wright Exeter University Including ten new chapters on nature globalization development and risk and a new section on practicing geography this is a completely revised and updated edition of the best selling standard student resource Key Concepts in Geography explains the key terms space time place scale landscape that define the language of geography It is unique in the reference literature as it provides in one volume concepts from both human geography and physical geography Four introductory chapters on different intellectual traditions in geography situate and introduce the entries on the key concepts Each entry then comprises a short definition a summary of the principal arguments a substantive 5 000 word discussion the use of real life examples and annotated notes for further reading Written in an accessible way by established figures in the discipline the definitions provide thorough explanations of all the core concepts that undergraduates of geography must understand to complete their degree

Mary B. Hesse (1924-2016): Metaphors, Models, and the Growth of Scientific Knowledge Pietro Gori, 2025-08-20 This volume explores the work of Mary B Hesse 1924 2016 a pivotal figure in twentieth century philosophy of science At a time when the foundations of an integrated approach to the history and philosophy of science were being established Hesse as a female philosopher offered a distinctive and influential contribution grounded in a post empiricist understanding of the natural sciences Central to her thought was a focus on the metaphorical and analogical value of scientific language in contrast to views assessing its literal significance Hesse also departed from traditional hypothetico deductive accounts of scientific methodology and theory structure advancing instead perspectives rooted in both historical and contemporary scientific practices To mark the centenary of her birth this book brings together an international group of scholars to re examine and engage with Hesse s intellectual legacy The chapters address the central themes of her work and situate them within her broader philosophical context Each contribution adopts a cross disciplinary perspective highlighting the continued relevance of Hesse s ideas to current debates in the philosophy of science This volume will be of particular interest to scholars in the history and philosophy of science as well as those engaged in gender studies and the study of women in philosophy

Researching and Applying Metaphor in the Real World Graham Low, Alice Deignan, Lynne Cameron, Zazie Todd, 2010 It has become increasingly clear that metaphor needs to be explored in terms of the social and discourse context in which it is used especially where the aim is to address real world problems The notion of real world metaphor research has been developed to describe this important area of investigation This book starts by describing the nature and scope of real world metaphor research and then illustrates through 17 detailed mainly empirically based studies

the different areas it can apply to and different methodologies that can be employed Research problems are explored in areas such as artificial intelligence language teaching and learning reconciliation dialogue university lecture discourse poetry and wine description Methods include corpus analysis experimentation discourse analysis cross cultural analysis and genre analysis In each case the empirical studies refer back to Gibbs s opening overview of real world research The result is an invaluable and cross referenced collection of papers addressing real world problems *From Metaphor to Meaning*

Pasquale De Marco,2025-07-11 *From Metaphor to Meaning* offers a comprehensive examination of metaphor exploring its multifaceted nature and profound impact on human language thought and culture This groundbreaking work delves into the cognitive processes that underlie metaphorical thinking revealing how metaphors shape our problem solving abilities decision making and even our perception of reality Moving beyond the realm of linguistics *From Metaphor to Meaning* investigates the role of metaphor in education literature and creative writing It demonstrates how metaphors can enhance learning foster critical thinking and inspire literary masterpieces The book also explores the social and cultural implications of metaphor examining how it shapes our cultural narratives influences political discourse and drives marketing and advertising campaigns Drawing upon a wide range of disciplines including linguistics psychology education literature and philosophy *From Metaphor to Meaning* provides a holistic understanding of metaphor It is an invaluable resource for scholars educators writers and anyone interested in the power of language to shape our world *From Metaphor to Meaning* is a thought provoking and accessible exploration of one of the most fundamental aspects of human communication It offers new insights into the way we think create and interact with the world around us This book is essential reading for anyone who seeks a deeper understanding of language and its profound impact on human experience Key Features Explores the cognitive processes that underlie metaphorical thinking Investigates the role of metaphor in education literature and creative writing Examines the social and cultural implications of metaphor Draws upon a wide range of disciplines to provide a holistic understanding of metaphor Written in a clear and engaging style accessible to scholars and general readers alike If you like this book write a review *EU Foreign Policy through the Lens of Discourse Analysis* Caterina Carta,Jean-Frederic Morin,2016-04-22

Leading scholars in discourse analysis and European foreign policy join forces in this book marking a real breakthrough in the literature Not only do they offer original perspectives on European foreign policy but they bring together various theories on foreign policy discourses that remain too often isolated from each other This theoretical diversity is clearly reflected in the book s four pronged structure Part I Post structuralist Approaches with contributions from Thomas Diez Henrik Larsen and Beste Isleyen Part II Constructivist Approaches with contributions from Knud Erik J rgensen Jan Orbie Ferdi de Ville Esther Barb Anna Herranz Surrall s and Michal Natorksi Part III Critical Discourse Analytical Approaches with contributions from Senem Aydin D zgit Amelie Kutter Ruth Wodak Salomi Boukala and Caterina Carta Part IV Discursive Institutional Approach with contributions from Ben Rosamond Antoine Rayroux and Vivien A Schmidt The

volume is the first full length study on how to apply different discourse analytical approaches and methodologies to European foreign policy The paperback edition makes for a unique selling point as a course text

The Prison as Metaphor Michael P. Marks, 2004 Whether wittingly or unwittingly scholars of international relations have peppered the field with a wide range of metaphors that serve as vehicles for theorizing about world affairs Yet as pervasive as metaphors are in international relations theory theorists efforts to employ metaphorical imagery to suggest new ways of thinking have been haphazard and sporadic In this book Michael P Marks suggests a new metaphor with which to conceptualize international relations the modern prison Many of the same questions that are asked about the so called anarchy of the international system are also frequently asked of life among prison inmates Marks finds that lessons from inmate relations can be applied to the study of international affairs This comparison between the prison and international relations reveals how the construction of human interaction in both realms is infinitely complex

Metaphor, Nation and Discourse Ljiljana Šarić, Mateusz-Milan Stanojević, 2019-05-20 This edited volume examines how metaphors and related phenomena metonymies symbols cultural models stereotypes lead to the discursive construal of a common element that brings the nation together The central idea is that metaphor use must be questioned to lay bare the processes and the discursive power behind them The chapters examine a range of contemporary and historical monomodal and multimodal discourses including politicians discourse presidential speeches newspapers TV series Catholic homilies colonialist discourse and various online sources The approaches taken include political science international relations cultural studies and linguistics All contributions feature discursive constructivist views of metaphor with clear sociocultural grounding and the notion of metaphor as a framing device in constructing various aspects of nations and national identity The volume will appeal to scholars in discourse analysis metaphor studies media studies nationalism studies and political science

Metaphor and Argumentation in Climate Crisis Discourse Anaïs Augé, 2023-06-28 This volume sheds light on the argumentative role of metaphor in climate change discourse unpacking the ways in which stakeholders use specific metaphors to influence perceptions of the climate crisis While existing research has explored the explanatory function of metaphors in communication on climate change this book offers an alternative view one which posits that metaphors can go beyond disseminating scientific observations to promoting biases in the depiction of these observations Aug analyses oft used ideas in climate change communication such as greenwashing drawn from a wide ranging corpus spanning media discourse scientific discourse NGO communications political speech and social media messages in English The book presents an overview of different arguments conveyed through metaphors around five key themes climate change mitigation the evolution of climate change global and local effects the significance of climate change in specific countries and the relationship between climate change and other contemporary social issues The volume highlights how the complexity of climate change often necessitates the use of metaphor and the value of further research on the argumentative function of metaphor in elucidating its ideological dimensions in climate crisis discourse This book will be

of interest to scholars in discourse analysis corpus linguistics cognitive linguistics and environmental communication
