Popular Culture, Globalization and Japan Matthew Allen,Rumi Sakamoto,2007-01-24 Japanese popular culture is constantly evolving in the face of internal and external influence Popular Culture Globalization and Japan examines this evolution from a new and challenging perspective by focusing on the movements of popular culture into and out of Japan Taking a multidisciplinary approach the book argues that a key factor behind the changing nature of Japanese popular culture lies in its engagement with globalization Essays from a team of leading international scholars illustrate this crucial interaction between the flows of Japanese popular culture and the constant development of globalization Drawing on rich empirical content this book looks at Japanese popular culture as it traverses international borders flowing out through such forms as manga consumption in New Zealand and flowing in through such forms as foreigners writing about Japan in Japanese and how American influences affected the formation of Japan s gay identity Presenting current confronting and sometimes controversial insights into the many forms of Japanese popular culture emerging within this global context Popular Culture Globalization and Japan will make essential reading for those working in Japanese studies cultural studies and international relations Healing Powers and Modernity Linda H. Connor,Geoffrey Samuel,2001-02-28

What is the current state of traditional healing practices in contemporary Asian societies How are their practitioners faring in the encounter with Western science and its biomedical approach How are traditional healing practices being transformed by the politics of health within the modern nation state and by the processes of commodification typical of modern economies How do patients in Asian societies see the various healing options now open to them The authors all of whom are anthropologists observe the clashes and complementarities between traditional therapies and biomedicine which in its many manifestations is the dominant form of medicine supported by national governments and is emblematic of the modernity to which they aspire Some of the medical traditions such as the sophisticated herbal humoral systems of Tibetan medicine and Indian Ayurveda are becoming well known in the West both through scholarly study and through their increasing popularity with

Western patients interested in their healing potential This book adds a new dimension to their study being focused unlike most previous writing on practice rather than textual tradition Revolutionary Multiculturalism Peter McLaren, 2018-02-12 This work by one of North America's leading educational theorists and cultural critics culminates a decade of social analyses that focuses on the political economy of schooling Paulo Freire and literacy education hip hop culture and multicultural education Peter McLaren also examines the work of Baudrillard as well as Bourdieu's reflexive sociology Always in McLaren's work is a profound understanding of the relationship among advanced capitalism the politics of knowledge and the formation of identity One of the central themes of this volume is the relationship between the political and the pedagogical for educators activists artists and other cultural workers McLaren argues that the central project ahead in the struggle for social justice is not so much the politics of diversity as the global decentering and dismantling of whiteness This volume also contains an interview with the author **Citizens of the World** Margit Warburg, 2018-08-14 Citizens of the World deals with the Baha'is and their religion While covering the historical development in sufficient detail to serve as a general monograph on Baha'i emphasis is laid on examining contemporary Baha'i with the Danish Baha'i community as a recurrent case The book discusses Baha'i religious texts rituals economy everyday life demographic development mission strategies leadership and international activism in analyses based on primary material such as interview studies among the Baha'is fieldwork data from the Baha'i World Centre in Israel and field trips around the world The approach is a combination of history of religions and sociology of religion within a theoretical framework of religion and globalisation Several general topics in the study of new religions are covered The book contributes to the theoretical study of globalisation by proposing a new model for analysing globalisation and transnational religions Trying to Measure Globalization Marco Caselli, 2012-01-05 The aim of this book is to conduct a critical survey of the main tools devised for the synthetic measurement of globalization processes To this end the first part of the book discusses the meaning of the concept considered highlighting the different and often contradictory interpretations put forward in its regard in the literature Subsequently analysed are the passages and issues that must be addressed when constructing an instrument intended to measure a social phenomenon of such complexity as globalization Stressed in particular is that the researcher's subjectivity is repeatedly involved in these passages so that no instrument can have objective validity Given these premises the book presents the principal tools employed in attempts to measure globalization starting with those whose unit of analysis is the state In this regard particular space is devoted to indexes which take a multidimensional approach to the concept of globalization There follows a comparison among the results obtained using these indexes and criticisms are made of the ways in which the latter have been constructed A limitation or if one wishes a paradox concerning such tools is that they measure in relation to states a process which has as one of its principal features the fact that it extends beyond the confines of states For this reason the final chapter considers whether globalization can be measured with different units of analysis in

particular people and cities The books concludes with discussion of the general limitations of globalization indexes **The Politics and Culture of Globalisation** Hans Löfgren,Prakash Sarangi,2009 The Politics And Culture Of Globalisation India And Australia Brings Together Indian And Australian Experts In The Fields Of Political Science International Relations Philosophy Cultural Theory And Political Economy Its Timeliness And Unifying Theme Derive From Comparisons Between Indian And Australian Perspectives And Analyses By Australian Writers On Developments In India Indian Australian Relations Are Explored In Several Chapters Excess and Masculinity in Asian Cultural Productions Kwai-Cheung Lo,2010-08-04 In Excess and Masculinity in Asian Cultural Productions Kwai Cheung Lo explores the excesses associated with the phenomenal economic growth in East Asia including surplus capital environmental waste and the unbalanced ratio of men to women in the region connecting the production of capitalist excess to the production of new forms of transnational Asian masculinity Lo draws on Lacanian psychoanalysis and Marxist ideas as well as gender theory in his examination of East Asian cultural products such as religious and parenting books transgender literary fantasies travel writing gangster movies female action heroes and online games Through this analysis Lo argues that the excess of Asia s masculine modernization throws into relief the internal inconsistencies of capitalism itself posing new challenges to the order of global capitalism and suggesting new possible configurations of global modernity **Research Handbook on the Sociology of Globalization** Christian Karner,Dirk Hofäcker,2023-07-01 This Research Handbook takes stock of the state of the art in sociological research on globalization and the contributors outline future trajectories for this one of the most pressing and challenging sociological themes of our time **Dictionary of Globalization** Andrew Jones,2006-09-07 Publisher description **Webs of Influence** Nathalie Nahai,2017-02-09 With the majority of commercial transaction now happening online companies of all shapes and sizes face an unprecedented level of competition to win over and retain new business In this second edition of Webs of Influence Nathalie Nahai brings together the latest insights from the world of psychology neuroscience and behavioural economics to explain the underlying dynamics and motivations behind consumer behaviour This book will show you how to apply specific principles to improve your marketing products and websites enabling you to engage with your customers in a more meaningful way Applying the latest in thinking in psychology sociology business design and more this book is essential reading for anyone who works on the web Jamie Bartlett Author of The Dark Net Nathalie Nahai is the most intelligent contemporary writer on technology matters This new edition is even better and will turn every reader into an expert a phenomenal book Dr Thomas Chamorro Premuzic Professor of Business Psychology at University College London and Columbia University CEO of Hogan Assessments *The Media Reader* Hugh Mackay,Tim O'Sullivan,1999-06-22 Featuring key statements regarding the influence of the media in areas that include identity technology economics globalisation and surveillance The Media Reader presents ideas that stress its growing importance as a sector of the economy Rethinking Modernity G.
