throughout the film industry since the mid 1970s Frederick Wasser discusses Hollywood's initial hostility to home video which studio heads feared would lead to piracy and declining revenues and shows how paradoxically video revitalized the film industry with huge infusions of cash that financed blockbuster movies and massive marketing campaigns to promote them He also tracks the fallout from the video revolution in everything from changes in film production values to accommodate the small screen to the rise of media conglomerates and the loss of the diversity once provided by smaller studios and independent distributors

Consuming Modernity Carol Appadurai Breckenridge,1995 *Consuming Modernity* illustrates that what is distinctive of any particular society is not the fact of its modernity but rather its own unique debates about modernity Behind the embattled arena of culture in India for example lie particular social and political interests such as the growing middle class the entrepreneurs and commercial institutions and the state The contributors address the roles of these various intertwined interests in the making of India s public culture each examining different sites of consumption The sites they explore include cinema radio cricket restaurants and tourism *Consuming Modernity* also makes clear the differences among public mass and popular culture Contributors include Arjun Appadurai University of Chicago Frank F Conlon University of Washington Sara Dickey Bowdoin College Paul Greenough University of Iowa David Lelyveld Columbia University Barbara N Ramusack University of Cincinnati Rosie Thomas University of Westminster and Phillip B Zarrilli University of Wisconsin Madison *A Self-renewing Society* Narain Dass Batra,1990 Through the broad perspective of the systems theory the sociobiology of self renewal and the use of historical critical research this book explores the process of continuous dying and re birth occurring daily in American society in every society Conceptualizing the media and communications technology as the collective nervous system of a society can help us in understanding the above mentioned renewing process Of interest to professors and students of mass communications government and public pol information science **Consuming Japan** Andrew C.

McKevitt, 2017-08-31 This insightful book explores the intense and ultimately fleeting moment in 1980s America when the future looked Japanese. Would Japan's remarkable post World War II economic success enable the East Asian nation to overtake the United States? Or could Japan's globe trotting corporations serve as a model for battered U.S. industries, pointing the way to a future of globalized commerce and culture? While popular films and literature recycled old anti-Asian imagery and crafted new ways of imagining the yellow peril, and formal U.S.-Japan relations remained locked in a holding pattern of Cold War complacency, a remarkable shift was happening in countless local places throughout the United States. Japanese goods were remaking American consumer life and injecting contemporary globalization into U.S. commerce and culture. What impact did the flood of billions of Japanese things have on the ways Americans produced, consumed, and thought about their place in the world? From autoworkers to anime fans, *Consuming Japan* introduces new, unorthodox actors into foreign relations history, demonstrating how the flow of all things Japanese contributed to the globalizing of America in the late twentieth century.
