Smith, 2003-12-08 The globalization of business is a relatively new process Although its influence on work employment the labour process and the management process has become increasingly significant little is known about these developments In order to redress this imbalance this book provides evidence of the nature and degree of significance that globalization holds for nation states cultures trade unions employees and business management Underlying the various contributions is a focus upon the varied and complex nature of internationalism in the business world      *Grounding Globalization* Edward Webster, Rob Lambert, Andries Beziudenhout, 2011-08-02 Winner of the 2009 Distinguished Scholarly Monograph Prize awarded by the American Sociological Association Labor and Labor Movements section Claims have been made on the emergence of a new labour internationalism in response to the growing insecurity created by globalization However when persons face conditions of insecurity they often turn inwards The book contains a warning and a sign of hope
