generation of 1968 was strongly influenced by neo Marxist ideas that they subsequently carried into the new social movements The volume asks how Marxist historical cultures influenced third world movements anti fascist movements the peace movement and a whole host of other new social movements that signaled a new vibrancy of civil society in Western Everyday Moral Economies Marisa Wilson, 2013-09-23 Offering a rare glimpse of rural Europe from the 1970s onwards life in modern day Cuba this book examines how ordinary Cubans carve out their own spaces for appropriate acts of consumption exchange and production within the contradictory normative and material spaces of everyday economic life Discusses the conflict between the socialist welfare ideal of food as an entitlement and the market value of food as a commodity Bridges the fields of human geography and anthropology Approaches food networks and the scale of food systems in a novel way Provides a comprehensive look at Cuba today with coverage of history politics economics and social and environmental justice Enhanced by vivid photos from the field **Economics** David A.
