ALAN D HECHT AND P H LIOTTA 1 U S Environmental Protection Agency Office of Research and Development 2 Pell Center for International Relations and Public Policy Salve Regina University 1 Nontraditional Threats to Security The events of September 11 2001 have sharpened the debate over the meaning of being secure Before 9 11 there were warnings in all parts of the world that social and environmental changes were occurring While there was prosperity in North America and Western Europe there was also increasing recognition that local and global effects of ecosystem degradation posed a serious threat Trekking from Cairo to Cape Town thirty years after living in Africa as a young teacher for example travel writer Paul Theroux concluded that development in sub Saharan Africa had failed to improve the quality of life for 300 million people Africa is materially more decrepit than it was when I first knew it hungrier poorer less educated more pessimistic more corrupt and you can't tell the politicians from the witch doctors 2002 While scholars and historians will debate the causes of 9 11 for some time one message is clear An often dizzying array of nontraditional threats and complex vulnerabilities define security today We must understand them and deal with them or suffer the consequences Environmental security has always required attention to nontraditional threats linked closely with social and economic well being

Human Security and Sierra Leone's Post-Conflict Development Francis Wiafe-Amoako,2014-07-22 Achieving security and development in the post conflict era is a challenge with which stakeholders have to grapple While stakeholders are quick to claim success when physical hostilities cease between the belligerents ensuring sustainable peace has been a daunting task In some countries in Africa the post conflict era is characterized by organizing elections to ensure greater political participation It is believed that elections will begin a process of openness and trust in the governing system A supplement to electoral democracy has been power sharing arrangements used to resolve post election violence and ensure stability within the state However what underlie most conflicts in Africa is the marginalization and lack of an enabling environment to achieve individual life objectives Policies and strategies to achieve security and enhance development post conflict have at best been an extremely slow process and sometimes elusive In Sierra Leone for instance though the official declaration of the end of war and the

successful general elections held in 2002 2007 and 2012 have led to some domestic stability developmental targets in the post conflict era have proceeded at a snail s pace The country continues to rank at the bottom of most UNDP human development indicators since 2002 Human Security and Sierra Leone s Post Conflict Development analyzes the extent to which human security issues have been addressed and subsequently implemented in the post conflict reconstruction process While Sierra Leone has made tremendous efforts at implementing reforms in the areas of political sensitization promotion of civil rights and civil liberties as well as personal security the lack on the part of the government to effectively address the unemployment problem has negatively affected security and developmental targets Thus the post conflict management strategies in Sierra Leone fail to secure and promote some aspects of human security leading to fragile peace and slow progress in achieving sustainable security and development Human security is an all encompassing phenomenon and must be addressed to achieve overall wellbeing of the people especially in post conflict environments

Africa's Armies Robert Edgerton,2009-03-25 Africa s Armies traces the military history of sub Saharan Africa from the pre colonial era to the present Robert Edgerton begins this sweeping chronicle by describing the role of African armies in pre colonial times when armed forces or militias were essential to the maintenance and prosperity of their societies During the colonial era African soldiers fought with death defying courage earning such respect as warriors that they were often recruited into the colonial armies not simply to enforce colonial rule in Africa but to fight for the European homelands as well After independence swept through Africa African military men seized political power in country after country ruling dictatorially for their own benefit and for that of their kinsmen and cronies The author describes the post colonial civil wars that have devastated much of sub Saharan Africa catastrophes marked by genocide famine disease economic collapse and steadily declining life expectancy He closes by describing the role that Africa s military forces can and must play if the future is to bring better times to the continent s many peoples
