Arbuckle,2010-09-01 The split between the Gospel and culture is without doubt the drama of our time wrote Paul VI in 1975 Since that time there has been an increasingly urgent awareness that inculturation is an indispensable task of the church But inculturation the dialogue between church and cultures demands first of all that we who would enter into the dialogue understand what culture itself means and what dialogue entails To that end cultural anthropologist Father Gerald Arbuckle gives us this important volume He traces the history of the development of the concept of culture and the too often negative rarely positive effects of encounters between church and culture He explores how Jesus Christ approached the cultures of his time and outlines the current treatment of culture and inculturation in church documents and in Catholic theology He shows that modest progress in understanding has recently staled and there are even forces working to turn that progress into regress He concludes with a description of inculturation as it needs to happen and a sharp critique of those who resist With a sense of prophetic hope Arbuckle seeks to help us bridge the lamentable split between Gospel and culture the drama that continues to unfold in our time **The Psychogeography of Urban Architecture** David Prescott-Steed,2013 This praxis based book explores how an improvisational creative and embodied practice such as the derive works to defamiliarise our experience of the late modern built environment fostering new insight into routinised cultural behaviours In addition to detailing the key contexts of modernity this book includes case studies on the work of Viktor Shklovsky Craig Raine Georges Perec plus rare scholarly attention to the postcards of Jim Henson s Uncle Traveling Matt Tertiary students and early career researchers in the humanities particularly cultural theory

Dr. Soumen Sen, 2010-01-21 Though assorted the essays in this book display an element of unity Written to read in seminars and conferences and publish in journals and volumes during past five-six years mostly these essays traverse a few hitherto uncharted areas of Indian folklorography Tradition has been viewed in the perspective of social dynamics as a transitive series with seals of forms in different phases of history determining the analytical categories we use in the spaces of countering cultures Orality a dominant marker of folklore in its conventional stereotype assessment and concept is seen in the problematic of intertextuality between the oral and the written Likewise folklore treated as rural constructs only in terms of nineteenth century perception has been reviewed and revisited to find that it contains fairly strong urban ingredients Urbanity which was viewed as a threat to the authenticity of folklore till the mid-fifties of the last century is perceived in the new and currently prevailing trends in folklorography as a distinct space for the growth of challenging and equally strong folk discourses Development processes of urbanization even mega urbanization and folklore are not antithetic **Ethics for the Public Service Professional**

A History of Prejudice Gyanendra Pandey, 2013-03-25 This is a book about prejudice and democracy and the prejudice of democracy In comparing the historical struggles of two geographically disparate populations

Indian Dalits once known as Untouchables and African Americans Gyanendra Pandey the leading subaltern historian examines the multiple dimensions of prejudice in two of the world's leading democracies The juxtaposition of two very different locations and histories and within each of them of varying public and private narratives of struggle allows for an uncommon analysis of the limits of citizenship in modern societies and states Pandey with his characteristic delicacy probes the histories of his protagonists to uncover a shadowy world where intolerance and discrimination are part of both public and private lives This unusual and sobering book is revelatory in its exploration of the contradictory history of promise and denial that is common to the official narratives of nations such as India and the United States and the ideologies of many opposition movements

Critiquing the Postcolonial Construct in Chinua Achebe's Novels Ranjana Das Sarkhel, 2018-11-21 Chinua Achebe's novels have always been read as texts from an erstwhile colonised African nation interpreted within the parameters suggested by postcolonial theorists The confines of postcolonial readings have raised questions about when the postcolonial period would end so that writers would no longer need to write back to the empire or rewrite their histories This work explores how Achebe's novels articulate his knowledge of his own people and the manner in which he participates in the politics of representation He critiques the postcolonial methodology and seeks out, recovers and provides an alternative narrative of the postcolonial experience and its aftermath even as he seems to be moving beyond it Achebe's narratives do not conform to the postcolonial constructs of history as telling rather than recalling and of nations in terms of states rather than people Achebe combines the techniques available to historians documentation with those of novelists the imaginative recreation of events for his fictional evocation of the past He emphasises both the African artist's role in helping to create a more egalitarian society and that of the act of storytelling as a shaping force in people's lives As he negotiates between his narrative form and realistic subject matter Achebe puts forward a powerful critique of colonisation and its aftermath Achebe represents a canonical voice in the emerging discourse of writers struggling to break free from the clichéd world of anti-imperialism and decolonisation

Challenges and Perspectives of Iberia and Beyond Mark Gant, Deirdre Kelly, Siân Edwards, Susana Rocha Relvas, 2025-08-05 This volume offers innovative emerging research on Iberian Studies approached from an interdisciplinary multicultural and transnational perspective The chapters encompass an array of disciplinary perspectives from economics society and politics to literature cinema and other artistic forms Core themes revolve around memory and historical revisionism complemented by intra-Iberian perspectives that emphasize dialogues and exchanges between Portugal and Spain Cross border relations within Europe also receive notable attention particularly Anglo-Iberian contacts and influences in political historical and cultural domains The volume includes comparative studies focusing on literature cinema and television series showcasing the interplay between these artistic forms Literary representations of regional cultural identities particularly Basque and Catalan during times of war and dictatorship are analysed through the lens of female writers Transatlantic crossings and influences expand the geographical and cultural scope of Iberian Studies
