Myth of the Non-Russian Erika Haber, 2003-01-01 The Myth of the Non Russian explores the magical realist prose of two non Slavic authors writing in Russian in the Soviet Union in the 1970s 1980s Erika Haber argues that these authors juxtaposed their native myth with Soviet myth thus undermining the Soviet prescription of national conformity in art by suggesting a plurality of worlds and truths **Voices of Russian Literature** Sally Laird, 1999-04-29 Voices of Russian Literature

presents in depth interviews with ten of the most interesting figures writing in Russian today They range from established authors such as Fazil Iskander and Andrei Bitov who began their careers in the post Stalinist Thaw to newcomers like Viktor Pelevin hailed as one of the most original writers of the present era It offers an insiders account of the fate of Russian literature over the past four decades Rather than cataloguing the opinions of dissidents or defenders of the former regime it presents the views of artists who have sought against the odds to express their unique visions of a changing world Each interview acquaints us with the author's distinctive voice and provides important insights into the genesis and interpretation

of individual works Sally Laird has prefaced the interviews with biographical and critical sketches of each writer and her introductory essay sets the whole in historical context *Voices of Russian Literature* will be fascinating reading for anyone interested in Russia's contemporary literary experience *Speak Clearly Into the Chandelier* John C. Q. Roberts, 2018-10-24 This book provides a unique view of British Russian relations during the last fifteen years of the Soviet regime and thereafter into the post communist era As Director of a Foreign Office funded organisation promoting professional intellectual and cultural contacts between Britain and Russia Roberts earned the trust of leading figures in both countries At the same time he had to maintain cross party support in Parliament and the confidence of his Whitehall paymasters These last occasionally proved as obstructive as the Soviet organisations all opposed to unfettered contact with western people and ideas with which he had to maintain a modus operandi Undeterred by Cold War rhetoric the author contrived to break down barriers and to earn the trust and gratitude of writers musicians theatre and film directors scientists and even politicians This is their eye witness history no less than his *The Last Years of Soviet Russian Literature* Deming Brown, 1993 A comprehensive survey of developments in Russian literature over the last fifteen years of the Soviet regime *Unvarnishing Reality* Derek C. Maus, 2012-10-15 *Unvarnishing Reality* draws original insight to the literature politics history and culture of the cold war by closely examining the themes and goals of American and Russian satirical fiction As Derek C Maus illustrates the paranoia of nuclear standoff provided a subversive storytelling mode for authors from both nations including Thomas Pynchon Robert Coover John Barth Walker Percy Don DeLillo Kurt Vonnegut Jr Vasily Aksyonov Yuz Aleshkovsky Alexander Zinoviev Vladimir Voinovich Fazil Iskander and Sasha Sokolov Maus surveys the background of each nation's culture language sociology politics and philosophy to map the foundation on which cold war satire was built By highlighting common themes of utopianism technology and propaganda Maus effectively shows the ultimate motive of satirists on both sides was to question the various forces contributing to the cold war and to expose the absurdity of the continuous tension that pulsed between the United States and the Soviet Union for nearly half a century Although cold war literature has been studied extensively few critics have focused so keenly on comparisons of satirical fictions by Russian and American writers that condemn and subvert the polarizing ideologies inherent in superpower rivalry Such a comparison reveals thematic and structural similarities that transcend specific national and cultural origins In considering these works together Maus locates a thoroughgoing humanistic refutation of the cold war and its operative doctrines as well as a range of proposed alternatives Just as the cold war combatants ultimately reconciled in 1991 with the fall of the Soviet Union Maus seeks to bring these two literary canons together now Their thematic scope transcends cultural differences and as Maus demonstrates these writers saw that there was not only the atomic bomb to fear but also the dangers of complete national militarization and the constant polarizing threat of emergency Thus their cold war critiques still resonate today and invite further comparative studies such as this one *The Cambridge History of Russian Literature* Charles Moser, 1992-04-30 An updated edition of this comprehensive

narrative history first published in 1989 incorporating a new chapter on the latest developments in Russian literature and additional bibliographical information The individual chapters are by well known specialists and provide chronological coverage from the medieval period on giving particular attention to the nineteenth and twentieth centuries and including extensive discussion of works written outside the Soviet Union The book is accessible to students and non specialists as well as to scholars of literature and provides a wealth of information

National Pathways to Low Carbon Emission Economies Kurt Hübner, 2018-09-03 The science is clear climate change is a fact and the probability is extremely high that it has been caused by humans At the same time policy responses are hesitant rather lukewarm and differ substantially between nation states The question is what drives and what blocks radical action This book makes the case that institutional settings path dependence and emerging change coalitions are critical in explaining climate policies across the global political economy Technological and social political innovations are key drivers for dealing with climate change This class of innovation is very much guided or suppressed by a national economy's established institutional settings By anchoring national case studies in a version of the well established varieties of capitalism approach the chapters of this book show why some economies are policy leaders and others become policy followers or even policy interlockers Moreover the case studies demonstrate the extent to which external events and institutional constraints from the international polity influence national innovation strategies Taking a unique analytical approach which combines insights from innovation policies and a variety of capitalism literature the authors provide genuine comprehension of the interplay between institutional settings political actors and climate policies National Pathways to Low Carbon Emission Economies offers a valuable examination of these issues on climate change that will be of interest to academics and postgraduates researching climate policy economic policy and social movements Furthermore it is relevant for policy analysts and policy makers who are interested in learning from climate policies in the context of innovation strategies for a range of countries
