Édifices de Rome Moderne Paul Marie Letarouilly,1919 *Edifices de Rome Moderne* Paul Letarouilly,1872

Reviving the Renaissance Rosanna Pavoni,1997-06-13 This book offers an account of neo Renaissance taste and style in Italy during the second half of the nineteenth century By the time Italy had developed its obsession with the neo Renaissance in the 1870s collectors and scholars in the rest of Europe had been excited by Renaissance taste and style for several decades In Italy the Renaissance was promptly reconceptualised in a forced alignment with the accepted historical version of its birth and development and its help enlisted in the search for an Italian national identity But what represented this neo Renaissance in Italy and what aided its diffusion In an attempt to answer these questions this book explores the many areas marked by neo Renaissance taste It traces its diffusion and development from the institutions which instructed its chief exponents to architecture and exhibitions and the publications which disseminated neo Renaissance designs so effectively
