1898-1906** Bethany Kilcrease, 2016-12-08 This book traces the history of the Church Crisis a conflict between the Protestant
and Anglo Catholic Ritualist parties within the Church of England between 1898 and 1906 During this period increasing
numbers of Britons embraced Anglo Catholicism and even converted to Roman Catholicism Consequent fears that
Catholicism was undermining the Protestant heritage of the established church led to a moral panic The Crisis led to a
temporary revival of Erastianism as protestant groups sought to stamp out Catholicism within the established church through
legislation whilst Anglo Catholics who valued ecclesiastical autonomy opposed any such attempts The eventual victory of
forces in favor of greater ecclesiastical autonomy ended parliamentary attempts to control church practice sounding the
death knell of Erastianism Despite increased acknowledgment that religious concerns remained deep seated around the turn
of the century historians have failed to recognize that this period witnessed a high point in Protestant Catholic antagonism
and a shift in the relationship between the established church and Parliament Parliament s increasing unwillingness to
address ecclesiastical concerns in this period was not an example advancing political secularity Rather Parliament s
increased reluctance to engage with the Church of England illustrates the triumph of an anti Erastian conception of church
