postmodern theorists and those with psychological philosophical and political agendas A History of Western Philosophy of

Education in Antiquity Avi I. Mintz,2021-01-28 This volume traces the history of Western philosophy of education in Antiquity

Between the fifth century BCE and the fifth century CE Plato Isocrates Aristotle Cicero Augustine and others raised questions about the nature of teaching and learning the relationship of education and politics and the elements of a distinctively

philosophical education Their arguments on these topics launched a conversation that occupied philosophers over the millennia and continues today About A History of Western Philosophy of Education An essential resource for researchers

scholars and students of education this five volume set that traces the development of philosophy of education through Western culture and history Focusing on philosophers who have theorized education and its implementation the series

constitutes a fresh dynamic and developing view of educational philosophy It expands our educational possibilities by reinvigorating philosophy s vibrant critical tradition connecting old and new perspectives and identifying the continuity of

critique and reconstruction It also includes a timeline showing major historical events including educational initiatives and the publication of noteworthy philosophical works Handbook of Historical Studies in Education Tanya

Fitzgerald,2020-04-03 This book offers an in depth historiographical and comparative analysis of prominent theoretical and methodological debates in the field Across each of the sections contributors will draw on specific case studies to illustrate the

origins debates and tensions in the field and overview new trends directions and developments Each section includes an introduction that provides an overview of the theme and the overall emphasis within the section In addition each section has

a concluding chapter that offers a critical and comparative analysis of the national case studies presented As a Handbook the emphasis is on deeper consideration of key issues rather than a more superficial and broader sweep The book offers

researchers postgraduate and higher degree students as well as those teaching in this field a definitive text that identifies and debates key historiographical and methodological issues The intent is to encourage comparative historiographical perspectives of the nominated issues that overview the main theoretical and methodological debates and to propose new directions for the field *Information Series - ERIC Clearinghouse on Vocational and Technical Education, the Center for Vocational and Technical Education, the Ohio State University* Ohio State University. Powers of the Mind Donald N. Levine,2008-09-15 It is one thing to lament the financial pressures put on universities quite another to face up to the poverty of resources for thinking about what universities should do when they purport to offer a liberal education In *Powers of the Mind* former University of Chicago dean Donald N Levine enriches those resources by proposing fresh ways to think about liberal learning with ideas more suited to our times He does so by defining basic values of modernity and then considering curricular principles pertinent to them The principles he favors are powers of the mind disciplines understood as fields of study defined not by subject matter but by their embodiment of distinct intellectual capacities To illustrate Levine draws on his own lifetime of teaching and educational leadership while providing a marvelous summary of exemplary educational thinkers at the University of Chicago who continue to inspire Out of this vital tradition *Powers of the Mind* constructs a paradigm for liberal arts today inclusive of all perspectives and applicable to all settings in the modern world
