Blue Jr., 2017-02-15 Military spouse education is an often overlooked topic With the proliferation of service member programs and benefits and the spotlight on

them it is not uncommon for spouses to neglect looking into their own educational opportunities and benefits. The hectic life of a military family also often complicates the process of attending an institution of higher education for spouses. There are numerous programs and benefits that a spouse may have access to but they are difficult to find and navigate properly.

**Balancing Life and Education While Being a Part of a Military Family: A Guide to Navigating Higher Education for the Military Spouse** attempts to highlight these possibilities and inform and assure this population that attaining an education is possible regardless of location or current circumstances. Numerous programs and benefits are described as well as the best way to go about using them. Detailed instructions are illustrated to make the process of obtaining an education easier and to give spouses more confidence in pursuing their own education. In addition, the specific considerations of military family life are addressed along with these instructions. Education is really important and a lot of times military spouses aren't aware of the opportunities and resources available to them to pursue it. The authors of *From the Navy to College: Transitioning from the Service to Higher Education* and *From the Army to College: Transitioning from the Service to Higher Education* have put together a clear guidebook that will make the process easy, accessible, and understandable. They offer clear advice and information about resources available to spouses of service members, creating a go-to guide for pursuing higher education.

[The Oxford Handbook of Religion and Education](#) Liam Francis Gearon, Arniika Kuusisto, 2025-04-29. The Oxford Handbook of Religion and Education offers a multi-disciplinary work of scholarship and research highlighting the global significance of a critical interface of cultural and social, political, and theological importance. Drawing on historical perspective and contemporary reflection, the collection provides a uniquely transformative analysis of why the interface of religion and education is of such critical significance. With contributions from some of the leading thinkers in the field, this Handbook presents a cumulatively powerful argument to reassess the complexities of the intersection of religion and education. With ambitious and yet accessible intellectual engagements, the Handbook here furthers a central thesis that the interface of religion and education is not merely a matter of arcane disputation about a domain of ancient origin or a rudimentary matter of formal educational process, but a vibrant domain of critical contestation fundamental to knowing, understanding, and living in the modern world.

**Education Transformation in Muslim Societies** Ilham Nasser, 2022-09-06. Hope is a complex concept; one academics use to accept the unknown while also expressing optimism. However, it can also be an action-oriented framework with measurable outcomes. In *Education Transformation in Muslim Societies*, scholars from around the world offer a wealth of perspectives for incorporating hope in the education of students from kindergarten through university to stimulate change, dialogue, and transformation in their communities. For instance, though progress has been made in Muslim societies on early education and girls' enrollment, it is not well documented. By examining effective educational initiatives and analyzing how they work, educators, policymakers, and government officials can create a catalyst for positive educational reform and transformation. Adopting strength-based educational discourse, contributors to *Education Transformation in Muslim Societies*

reveal how critical the whole person approach is for enriching the brain and the spirit and instilling hope back into the teaching and learning spaces of many Muslim societies and communities Education Transformation in Muslim Societies is a copub with the International Institute of Islamic Thought **Education as Enforcement** Kenneth Saltman, David A. Gabbard, 2010-09-13 The first volume to focus on the intersections of militarization corporations and education Education as Enforcement exposed the many ways schooling has become the means through which the expansion of global corporate power are enforced Since publication of the first edition these trends have increased to disturbing levels as a result of the extensive militarization of civil society the implosion of the neoconservative movement and the financial meltdown that radically called into question the basic assumptions undergirding neoliberal ideology An understanding of the enforcement of these corporate economic imperatives remains imperative to a critical discussion of related militarized trends in schools whether through accountability and standards school security or other discipline based reforms Education as Enforcement elaborates upon the central arguments of the first edition and updates readers on how recent events have reinforced their continued original relevance In addition to substantive updates to several original chapters this second edition includes a new foreword by Henry Giroux a new introduction and four new chapters that reveal the most contemporary expressions of the militarization and corporatization of education New topics covered in this collection include zero tolerance foreign and second language instruction in the post 9 11 context the rise of single sex classrooms and the intersection of the militarization and corporatization of schools under the Obama administration [Air Quality in New York City After the September 11, 2001 Attacks](#) United States. Mental Health, Substance Use, and Wellbeing in Higher Education National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Policy and Global Affairs,Board on Health Sciences Policy,Board on Higher Education and Workforce,Committee on Mental Health, Substance Use, and Wellbeing in STEMM Undergraduate and Graduate Education,2021-02-05 Student wellbeing is foundational to academic success One recent survey of postsecondary educators found that nearly 80 percent believed emotional wellbeing is a very or extremely important factor in student success Studies have found the dropout rates for students with a diagnosed mental health problem range from 43 percent to as high as 86 percent While dealing with stress is a normal part of life for some students stress can adversely affect their physical emotional and psychological health

particularly given that adolescence and early adulthood are when most mental illnesses are first manifested In addition to students who may develop mental health challenges during their time in postsecondary education many students arrive on campus with a mental health problem or having experienced significant trauma in their lives which can also negatively affect physical emotional and psychological wellbeing The nation s institutions of higher education are seeing increasing levels of mental illness substance use and other forms of emotional distress among their students Some of the problematic trends have been ongoing for decades Some have been exacerbated by the COVID 19 pandemic and resulting economic consequences Some are the result of long festering systemic racism in almost every sphere of American life that are becoming more widely acknowledged throughout society and must at last be addressed Mental Health Substance Use and Wellbeing in Higher Education lays out a variety of possible strategies and approaches to meet increasing demand for mental health and substance use services based on the available evidence on the nature of the issues and what works in various situations The recommendations of this report will support the delivery of mental health and wellness services by the nation s institutions of higher education

*Islamic Education in the United States and the Evolution of Muslim Nonprofit Institutions*  
Sabith Khan, Shariq Siddiqui, 2017-10-27 This book is a novel and ambitious attempt to map the Muslim American nonprofit sector its origins growth and impact on American society Using theories from the fields of philanthropy public administration and data gathered from surveys and interviews the authors make a compelling case for the Muslim American nonprofit sector s key role in America They argue that in a time when Islamic schools are grossly misunderstood there is a need to examine them closely for the landscape of these schools is far more complex than meets the eye
