Bruce Ferguson, 2013-06-12 Youth Education and Marginality Local and Global Expressions is a close examination of the lives of marginalized young people in schools Essays by scholars and educators provide international insights grounded in educational and community practice and policy They cover the range and intersections of marginalization poverty Aboriginal cultures immigrants and newcomers gay lesbian youth rural urban divides mental health and so forth Presenting challenges faced by marginalized youth alongside initiatives for mitigating their impact the contributors critique existing systems and engage in a dialogue about where to go from here Youth poetry prose and visual art complement the essays The Psychology of Nations G. E. Partridge, 2019-11-26 In The Psychology of Nations G E Partridge delves into the intricate interplay between collective psychological behavior and national identity Combining insights from psychology sociology and political science Partridge examines how the emotional and cognitive frameworks of societies shape their historical trajectories and contemporary interactions The book employs a critical analytical lens weaving in case studies that reflect a diverse spectrum of cultures thereby situating its discourse within both historical and modern contexts Partridge's literary style is both accessible and academically rigorous making complex psychological concepts digestible for both scholars and lay readers alike G E Partridge a distinguished scholar with a profound interest in sociology and the psychological underpinnings of social behavior prompts us to reflect on his own rich academic background His experiences and observations as a global traveler and educator inform his understanding of how national character is formed and transformed over time These insights are not merely theoretical but stem from his firsthand interactions with diverse cultures providing his arguments with both depth and authenticity This thought provoking work is essential reading for anyone interested in the foundations of international relations cultural studies or psychology Partridge's exploration of how the psyche of nations influences political landscapes is timely and relevant making it a critical resource for both academics and policymakers seeking to understand the underlying forces shaping our world **Online Education Policy and Practice** Anthony G. reflections on what is possible and desirable in the classroom and how language teaching has a specific role in education
systems which have long had and often still have the purpose of encouraging young people to identify with the nation state
