Education in Arab Countries of the Near East Roderic Donald Matthews, Matta Akrawi, 1949 **Education in Arab Countries of the Near East** Roderic D. Matthews, 2007-03

PREFACE THE Author of this very practical treatise on Scotch Loch Fishing desires clearly that it may be of use to all who had it He does not pretend to have written anything new but to have attempted to put what he has to say in as readable a form as possible Everything in the way of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible The writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general This section is interleaved with blank sheets for the readers notes The Author need hardly say that any suggestions addressed to the case of the publishers will meet with consideration in a future edition We do not pretend to write or enlarge upon a new subject Much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written Far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient One great matter is that the loch fisher is dependent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead Providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best A common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat Of all the absurd beliefs as to loch fishing this is one of the most absurd Try it Give the tyro either end of the boat he likes give him a cast of all flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky Of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance Again it is said that the boatman has as much to do with catching trout in a loch as the angler Well we dont deny that In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing *Education in Arab Countries of the Near East, by Roderic D. Hillman, 2020-11-30 This book examines the unsatisfactory situation in the Arab world where there is a pressing need to address poverty unemployment political instability corruption and the existential threat of climate change The authors analyze the relationships between universities and governments in the Arab world and make recommendations that will help develop intellectual capacity and thereby aid the economic and social transitions so desperately needed in all Arab countries Countries aspiring to participate fully in the global knowledge economy require dynamic university sectors operating in concert with governments that actively promote high quality education and research and foster innovation and entrepreneurship Successful university government relationships can be complex and are continually evolving *DHEW Publication No. (OE).*, A Path Out of the Desert Kenneth Pollack, 2008-07-15 A persuasive but painful solution for dealing with the mess in the Middle East Kirkus The greatest danger to America s peace and prosperity notes leading Middle East policy analyst Kenneth M Pollack lies in the political repression

economic stagnation and cultural conflict running rampant in Arab and Muslim nations By inflaming political unrest and empowering terrorists these forces pose a direct threat to America's economy and national security The impulse for America might be to turn its back on the Middle East in frustration over the George W Bush administration's mishandling of the Iraq War and other engagements with Arab and Muslim countries But such a move Pollack asserts will only exacerbate problems He counters with the idea that we must continue to make the Middle East a priority in our policy but in a humbler more humane more realistic and more cohesive way Pollack argues that Washington's greatest sin in its relations with the Middle East has been its persistent unwillingness to make the sustained and patient effort needed to help the people of the Middle East overcome the crippling societal problems facing their governments and societies As a result the United States has never had a workable comprehensive policy in the region just a skein of half measures intended either to avoid entanglement or to contain the influence of the Soviet Union Beyond identifying the stagnation of civic life in Arab and Muslim states and the cumulative effect of our misguided policies Pollack offers a long term strategy to ameliorate the political economic and social problems that underlie the region's many crises Through his suggested policies America can engage directly with the governments of the Middle East and indirectly with its people by means of cultural exchange commerce and other soft approaches He carefully examines each of the region's most contested areas including Iraq Iran Syria and Lebanon as well as the Israeli Palestinian peace process and explains how the United States can address each through mutually reinforcing policies At a time when the nation will be facing critical decisions about our continued presence in Iraq and Afghanistan A Path Out of the Desert is guaranteed to stimulate debate about America's humanitarian diplomatic and military involvement in the Middle East

Education and Science in the Arab World Fahim Issa Qubain, 1966 **Trajectories of Education in the Arab World** Osama Abi-Mershed, 2009-09-10 Trajectories of Education in the Arab World gives a broad yet detailed historical and geographical overview of education in Arab countries Drawing on pre modern and modern educational concepts systems and practices in the Arab world this book examines the impact of Western cultural influence the opportunities for reform and the sustainability of current initiatives The contributors bring together analyses and case studies of educational standards and structures in the Arab world from the classical Islamic period to contemporary local and international efforts to re define the changing needs and purposes of Arab education in the contexts of modernization multiculturalism and globalization Taking a thematic and chronological approach the first section contrasts the traditional notions approaches and standards of education with the changes that were initiated or imposed by European influences in the nineteenth century The chapters then focus on the role of modern state based educational systems in constructing and preserving national identities cultures and citizenries and concentrates on the role of education in state formation and the reproduction of socio political hierarchies The success of educational reforms and policy making is then assessed offering perspectives on future trends and prospects for generating institutional and organizational change This book will be of
