Education Growing Up Growing Old:

Growing Up, Growing Old Azubike Uzoka, 2011-07-22 *Growing Up Growing Old* presents a memoir of interesting life events peppered with insights from author Azubike Uzoka's vast clinical experience and extensive travels. He has traveled extensively in Africa, Europe, the Americas, the Caribbean, and several other countries. Dr. Uzoka was born in Nigeria but later studied and worked in the United States. A lover of nature, he muses in appreciation over the contradictions in life and yet he has a romance with living whatever the circumstances may affect his life. He focuses on understanding the significant nuances of his Igbo culture in which issues like reincarnation, sex roles, and other social questions are discussed, considering the nuances of life in a new globalized world. Witty and often downright funny, *Growing Up Growing Old* offers his life story and philosophy presented in an easy-to-read, unassuming style. Whether the narrative focuses on love, marriage, death, prejudice, or some plain human folly, it is laced with lyrical poetry about womanhood, nature, and other themes. **Growing up with Parents who have Learning Difficulties** Tim Booth, Wendy Booth, 2005-08-10 *Growing up with Parents who have Learning Difficulties* uses a life story approach to present new evidence about how children from such families manage the transition to adulthood and about the longer-term outcomes of such an upbringing. It offers a view of parental competence as a social attribute rather than an individual skill, assessing the implications for institutional policies and practices. The authors address the notion of children having to parent their disabled parents and argue for a shift in emphasis from protecting children to supporting families. This innovative book provides a fresh approach to a subject rife with prejudice and challenges us to think again about many taken-for-granted ideas about the process of parenting and the needs of children. It also demonstrates the power of narrative research and its capacity for bringing alive people's experience in a way that enables us to better understand their lives. *GROWING UP AND GROWING OLD in BUFFALO NY* Thomas J. Thought-provoking implications are drawn from the deaf aged for the more general experience of being old in America. Science Books and Films. A book that takes us into a community distinguished by a disability that from an outsider's view is full of liabilities. Instead, we find assets and strengths enabling people who were born deaf or who lost their hearing in early childhood to cope with their advancing age: a sensitive, well-written portrait of the people and the community studied. It is a must for researchers who study the old and for those who work with the disabled. Medical Anthropology Newsletter. Becker reveals how the adaptation to deafness early in life provides the basis for social interaction, coping mechanisms, and strong group and community bonds. Early isolation, special schooling, separation from family, and communication limited to deaf peers create long-lasting adult groups that provide exceptional social support for old age. Becker calls attention to values and circumstances that stress and build an enduring

group life Social interdependence seems to ease the process of aging among the deaf whereas the mainstream stress on personal autonomy and individualism may be less efficacious for the aging process Contemporary Sociology The straightforward text filled with brief histories and quotations from interviews relates how the homogeneity and intimacy of the group develop from childhood in response to their isolation from the hearing world It is this unity Becker stresses that aids the deaf elderly to better accept aging and its accompanying trials Booklist Social science observation is combined with case history material in a most readable format It is fascinating Sociology and Social Research This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1980 This sensitive and well written anthropological study of the aged deaf describes a vital subculture of disabled persons Thought provoking implications are drawn from the deaf aged for the more general experience of being old in America Science Bo

Growing Old Rudolf Steiner, 2019-05-03 And that is one thing we need to relearn that all of life brings its gifts not only the first two or three decades Rudolf Steiner When are we actually old What happens as we age How will we cope with old age Growing old is an art and to grow old in the right way we need spiritual understanding In this enlightening anthology compiled by a director of care homes for the elderly wide ranging cosmological perspectives alternate with detailed observations of the phenomena of ageing Rudolf Steiner sees ageing within the context of the earthly and spiritual evolution that encompasses all forms of existence The book thus begins with the primary meaning that ageing has in developmental terms and ends with a consideration of the human being as co creator in cosmic processes and with our capacity to become increasingly conscious of the tasks this implies These key texts by Rudolf Steiner show how spiritual knowledge can broaden the current debate on the study of old age the process of ageing and the particular problems faced by older people Concerns about our ageing population can be seen in a broader context that recognizes the fruits of old age The productive relationship between childhood and old age a running theme throughout this volume is one example If we grow old consciously viewing ageing not only as a period of physical decline but as a time when we can actively participate in shaping life then we can begin to find greater meaning in it Chapters include The Core Messages of Ageing Fundamental Principles of Gerontology Ageing as a Developmental Process Ageing the Risks and Opportunities The Art of Growing Old Old Age and Death Growing Old A Challenge for Education The Cosmological Dimensions of Ageing
