The Soul of the Camera David duChemin, 2017-06-14 As both an art form and a universal language the photograph has an extraordinary ability to connect and communicate with others But with over one trillion photos taken each year why do so few of them truly connect Why do so few of them grab our emotions or our imaginations It is not because the images lack focus or proper exposure with advances in technology the camera does that so well these days Photographer David duChemin believes the majority of our images fall short because they lack soul And without soul the images have no ability to resonate with others They simply cannot connect with the viewer or even if we're being truthful with ourselves
