'The Jew' in Late-Victorian and Edwardian Culture E. Bar-Yosef, N. Valman, 2009-01-15 The turbulent period from the Boer War to the introduction of the Aliens Act was marked by contradictory imaginings of the Jew pauper capitalist separatist imposter ideal colonizer undesirable immigrant familiar alien This new collection considers the wider colonial context in which these ambivalent attitudes to Jews were produced The Ancient World on the Victorian and Edwardian Stage J. Richards, 2009-10-09 The first study of the depictions of the Ancient World on the Victorian and Edwardian stage this book analyzes plays set in and dramatising the histories of Greece Rome Egypt Babylon and the Holy Land In doing so it seeks to locate theatre within the wider culture tracing its links and interaction with other cultural forms **The World of the Edwardian Child** Michael Tracy, 1998 *Childhood in Edwardian Fiction* A. Gavin, A. Humphries, 2008-12-17 The first book length look at childhood in Edwardian fiction this book challenges assumptions that the Edwardian period was simply a continuation of the Victorian or the start of the Modern Exploring both classics and popular fiction the authors provide a compelling picture of the Edwardian fictional cult of childhood *Bertrand Russell and the Edwardian Philosophers* O. Nasim, 2008-10-31 The author demonstrates the significant role that some of the Edwardian philosophers played in the formation of Russell's work on the problem of the external world done at the tail end of a controversy which raged between about 1900 1915 *Realism, Form, and Representation in the Edwardian Novel* Charlotte Jones, 2021-01-07 The real represents to my perception the things that we cannot possibly not know sooner or later in one way or another wrote Henry James in 1907 This description riven with double negatives hesitation and uncertainty encapsulates the epistemological difficulties of realism for underlying its narrative and descriptive apparatus as an aesthetic mode lies a philosophical quandary What grounds the real of the realist novel What kind of perception is required to validate the experience of reality How does the realist novel represent the difficulty of knowing What comes to the fore in James's account as in so many is how the forms of realism are constituted by a relation to unknowing absence and ineffability Realism Form and Representation in the Edwardian Novel recovers a neglected literary history centred on the intricate relationship between fictional representation and philosophical commitment It asks how or if we can conceptualize realist novels when the objects of their representational intentions are realities that might exist beyond what is empirically verifiable by sense data or analytically verifiable by logic and are thus irreducible to conceptual schemes or linguistic practices a formulation Charlotte Jones refers to as synthetic realism In new readings of Edwardian novels including Conrad's *Nostromo* and *The Secret Agent* Wells's *Tono Bungay* and Ford's *The Good Soldier* this volume revises and reconsiders key elements of realist novel theory metaphor and metonymy character interiority the insignificant detail omniscient narration and free indirect discourse causal linearity to uncover the representational strategies by which realist writers grapple with the recalcitrance of reality as a referential anchor and seek to give form to the force opacity and uncertain scope of realities that may lie beyond the material

In restoring a metaphysical dimension to the realist novel's imaginary Realism Form and Representation in the Edwardian Novel offers a new conceptualization of realism both within early twentieth century literary culture and as a transhistorical mode of representation **Edwardian Fall-out** Bernard E. Dold,1972 Edwardian Ladies and Imperial Power Julia Bush,2000-01-01 Bush arts and social sciences Nene University College Northampton analyzes aristocratic and upper middle class women's involvement in imperialist associations and investigates their relationship with male imperialist leaders and the male dominated patriotic leagues during the early 20th century She also looks at their work with female emigration education colonial hospitality and imperial race thinking She concludes that personal motivation organizational methods and patriotic faith were embedded in a social and political context that empowered elite women in selective gender related ways

prose and photography to explore the cultural life of Edwardian Ireland By emphasizing less familiar contexts including the rise of a local celebrity culture the arts and crafts movement and Irish classical music it shows how Irish folk culture intersected with the new networks of mass communication Vita Sackville-West Robert Cross,Ann Ravenscroft-Hulme,1999 *Mediatizing the Nation, Ordering the World* Andrew Dougall,2024-08-19 This book offers a timely and engaging account of how technologies of communication media impact nationalist challenges to global order shedding new light on how they matter how they have changed and how their evolution transforms the conditions of possibility for nationalist order challengers In the 21st century we have become accustomed to close entanglements between resurgent nationalism and digital media In *Mediatizing the Nation Ordering the World* Andrew Dougall shows that the relationship between media and nationalist order contestation is far older Comparing Trump s breakthrough in the 21st century United States with a similar but unsuccessful movement in 19th century Britain the book argues that communication media shaped these episodes by differently patterning the constitution and distribution of meaning on which they relied Underpinning this argument is a novel theorization of media in world politics that draws on insights from media and communications scholarship in addition to international relations Among the book s key contributions are to explain how media affect vertical challenges to the structure of international orders to reframe IR s theoretical engagement with the relationship between media and order and to situate the internet within a longer history of this relationship contributing to a more balanced view of its impact **Gerald Howard-Smith and the 'Lost Generation' of Late Victorian and Edwardian England** John Benson,2016-11-18 Gerald Howard Smith s life is intriguing both in its own right and as a vehicle for exploring the world in which he lived Tall boisterous and sometimes rather irascible he was one of the so called Lost Generation whose lives were cut short by the First World War Brought up in London and educated at Eton and Cambridge he excelled both at cricket and athletics After qualifying as a solicitor he moved to Wolverhampton and threw himself into the local sporting scene making a considerable name for himself in the years before the First World War Volunteering for military service in 1914 he was decorated for bravery before being killed in action two years later Reporting his death the War History of the South Staffordshire Regiment claimed that In his men s eyes he lived as a loose limbed hero and in him they lost a very humorous and a very gallant gentleman As well as telling the fascinating story of Gerald Howard Smith for the first time this important new biography explores such complex and important issues as childhood and adolescence class relations sporting achievement manliness and masculinity metropolitan provincial relationships and forms of commemoration It will therefore be of interest to educationalists sports historians local and regional historians and those interested in class gender and civilian military relations indeed all those seeking to understand the economic social and cultural life of late nineteenth and early twentieth century Britain Edwardian and Georgian Fiction Sterling Professor of Humanities Harold Bloom,2009 This volume examines the great writers of the late 19th and early 20th centuries from Thomas Hardy to Joseph

Conrad Victorian and Edwardian Responses to the Italian Renaissance John E. Law, Lene Østermark-Johansen, 2017-03-02

The historiography of the Italian Renaissance has been much studied but generally in the context of a few key figures. Much less appreciated is the extent of the enthusiasm for the subject in the 19th and early 20th centuries when the subject was discovered by travellers and men and women of letters, historians, artists, architects and photographers and by collectors on both sides of the Atlantic. The essays in *Victorian and Edwardian Responses to the Italian Renaissance* explore the breadth of the responses stimulated by the encounter between the British, the Americans and the Italians of the Renaissance. The volume approaches the subject from an interdisciplinary perspective. While recognising the abiding importance of the familiar great names, it seeks to draw attention to a wider cast of people, many of whom led colourful, energetic lives, knew Italy well and wrote eloquently about the country and its Renaissance. Several essays show that Renaissance studies became a field in which female historians could explore areas of relevance to the New Woman. Other chapters examine the aims and politics of collecting and the place of the collector in literature and in the rediscovery of Renaissance artists. The contribution of teachers and other less formal champions of the Italian Renaissance is explored, as is the role of photographers who re-framed and re-viewed Florence, the Renaissance city, for Victorian and later eyes. *Reinventing Africa* Annie E.

Coombes, 1994-01-01 Between 1890 and 1918 British colonial expansion in Africa led to the removal of many African artifacts that were subsequently brought to Britain and displayed. Annie Coombes argues that this activity had profound repercussions for the construction of a national identity within Britain itself, the effects of which are still with us today. Through a series of detailed case studies, Coombes analyzes the popular and scientific knowledge of Africa which shaped a diverse public's perception of that continent: the looting and display of the Benin bronzes from Nigeria; ethnographic museums; the mass spectacle of large-scale international and missionary exhibitions and colonial exhibitions such as the Stanley and African of 1890; together with the critical reaction to such events in British national newspapers, the radical and humanitarian press and the West African press. Coombes argues that although endlessly reiterated racial stereotypes were disseminated through popular images of all things African, this was no simple reproduction of imperial ideology. There were a number of different and sometimes conflicting representations of Africa and of what it was to be African, representations that varied according to political, institutional and disciplinary pressures. The professionalization of anthropology over this period played a crucial role in the popularization of contradictory ideas about African culture to a mass public. Pioneering in its research, this book offers valuable insights for art and design historians, historians of imperialism and anthropology, anthropologists and museologists.

From Bedales to the Boche: The Ironies of an Edwardian Childhood Robert Best, 2024-07-15 *From Bedales to the Boche* charts the history of two brothers born into late Victorian England who were sent by their idealistic Germanophile father to Britain's most progressive secondary school where the ideas of its pioneering headteacher and founder fostered their ambitions to become music hall entertainers and then to master the challenges of the First World War. **Proceedings**
