*Parenting, Family Policy and Children's Well-Being in an Unequal Society* D. Hartas,2014-01-30 Western societies face many challenges The growing inequality and the diminishing role of the welfare state and the rapid accumulation of the resources of a finite planet at the top 1% have made the world an inhospitable place to many families Parents are left alone to deal with the big societal problems and reverse their impact on their children s educational achievement and life chances The average working family is sliding down the social ladder with a significant impact on children s learning and wellbeing We now know that parental involvement with children s learning although important in its own right is not the primary mechanism through which poverty translates to underachievement and reduced social mobility Far more relevant to children s learning and emotional wellbeing is their parents income and educational qualifications The mantra of what parents do matters is hypocritical considering the strong influence that poverty has on parents and children We can no longer argue that we live in a classless society especially as it becomes clear that most governmental reforms are class based and affect poor families disproportionately In this book Dimitra Hartas explores parenting and its influence on children s learning and wellbeing while examining the impact of social class amidst policy initiatives to eradicate child poverty in 21st Century Britain

Glasgow, Paula Jameson Whitney, 2009 It is clear that students learn best when they are supported by a community that values education and includes not only teachers but also parents, families and other mentors. Yet schools often find it difficult to successfully involve parents and families in children's educational lives. Based on solid educational research that reflects culturally diverse communities, this important new book offers teachers and administrators 55 practical strategies for forming effective partnerships with every type of family group. The authors cover a wide range of opportunities for collaborating with families from homework parent conferences and open houses to family literacy and math activities to hot button topics like bullying and discipline. Each strategy offers a synthesis of the related research, a description of how to use the strategy in a classroom or broader school setting, precautions and pitfalls for consideration to help make implementation reasonably error free, research sources for optional follow up.
