Strayhorn,2013-09-04 *Theoretical Frameworks in College Student Research* was written to offer those who engage in college student research a framework tool or guide for understanding the role that theory plays in research Each of the seven chapters in the volume are organized around five major questions which address the essence of theory central tenants and concepts of prevailing theories examples of how the author and others have used the theory in previous research as well as insights for future research An impressive set of references points to the expansive literature that informs this new volume

**The Story of Sexual Identity** Phillip L. Hammack,Bertram J. Cohler,2009-03-06 This book assembles a diverse group of scholars working within a new pathbreaking paradigm of sexual science fusing perspectives from history sociology and psychology The contributors are united in their commitment to the idea of narrative as central to the study of sexual identity offering an analytic approach to social science inquiry on sexual identity that restores the voices of sexual subjects The result is a rich examination of lives in context with an eye toward multiplicity and meaning across the life course

Central to the chapters in this volume is the significance of history generation and narrative in the provision of a workable and meaningful configuration of identity      The Wiley-Blackwell Handbook of the Psychology of Coaching and Mentoring Jonathan Passmore,David Peterson,Teresa Freire,2016-08-08 A state of the art reference drawing on key contemporary research to provide an in depth international and competencies based approach to the psychology of coaching and mentoring Puts cutting edge evidence at the fingertips of organizational psychology practitioners who need it most but who do not always have the time or resources to keep up with scholarly research Thematic chapters cover theoretical models efficacy ethics training the influence of emerging fields such as neuroscience and mindfulness virtual coaching and mentoring and more Contributors include Anthony Grant David Clutterbuck Susan David Robert Garvey Stephen Palmer Reinhard Stelter Robert Lee David Lane Tatiana Bachkirova and Carol Kauffman With a Foreword by Sir John Whitmore      *The Developing Human Mind* Tom Hagström,2023-04-21 This book proposes a developmental theory of human mind as a basic interaction system of meaning making elements so called dualities progressing in dialectical shifts towards higher self awareness It elaborates on why this system has developed evolutionary how it develops in the life courses of humans in modern societies and what hampers and promotes its progression to meet contemporary and future societal challenges      **Adolescent Health Problems** Jan Lance Wallander,Lawrence J. Siegel,1995-08-11 Adolescence a dynamic period of physical and psychological growth presents young people with a variety of developmental challenges that can have a significant impact on health related behaviors Because adolescents exhibit distinct patterns of morbidity and mortality health practitioners are focusing increased attention on their unique health care needs ADOLESCENT HEALTH PROBLEMS BEHAVIORAL PERSPECTIVES edited by Jan L Wallander and Lawrence J Siegel presents the work of leading researchers who investigate the connections between health and behavior in both healthy and chronically ill adolescents Sponsored by the Society of Pediatric Psychology as part of the series Advances in Pediatric Psychology this ground breaking volume brings the literature of the field up to date providing vital theoretical and clinical findings with broad implications for health promotion in adolescence and beyond      School-age Pregnancy and Parenthood Beatrix A. Hamburg,2017-07-28 This important work examines in detail and depth how as a consequence of changing technologies diet patterns of reproduction and work relations between children and parents have altered The editors and contributors hold that biosocial science is particularly relevant to research on human family systems and parenting behavior The family is the universal social institution in which the care of children is based and the turf where cultural tradition beliefs and values are transmitted to the young as they fulfill their biological potential for growth development and reproduction The biosocial perspective takes into account the biological substratum and the social environment as critical co determinants of behavior and pinpoints areas in which contemporary human parental behavior exhibits continuities with and departures from patterns evident throughout history This work crosses disciplinary lines without ignoring their relevance to the broader themes of the book School age pregnancy

and parenthood is a powerful anchor for the dissection of large scale issues The contributors deal in turn with ethnic and historical experience examine normative and ethical issues and cast new light on methodological concerns What the editors call culturally defined responses to basic needs helps explain both dramatic improvements in this area and how they expand the challenge of teen reproduction Contributors emphasize new demands for training and education to research this growing phenomenon The book contributes to humane concerns as well as the scientific imagination      *Models of Achievement* Agnes N. O'Connell,Nancy Felipe Russo,2014-03-18 Providing role models of excellence for contemporary women and men and contributing to the understanding of the educational and career development of high achieving women these autobiographical essays of seventeen women and their achievements generate a deeper appreciation of the vital role of women in the development of contemporary psychology      *Textbook of Adolescent Psychiatry* Richard Rosner,2003-08-29 Adolescent Psychiatry is the first text reference to provide such in depth comprehensive and practical coverage of this specialist area There are many questions pertinent to adolescence alone and these are highlighted throughout the book Starting with the important aspects of normal development the reader is then taken on to risk behaviour and      **Higher Education: Handbook of Theory and Research 12** J.C. Smart,1997-02-28 Published annually since 1985 the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities      **Transcendence and Mature Thought in Adulthood** Melvin E. Miller,Susanne R. Cook-Greuter,1994 This book is one of the very first to concentrate upon positive growth and development in the more advanced years of life Incorporating both traditional Western paths of development and Eastern meditative approaches and both theoretical and empirical material the contributors explore the many paths to postformal and postconventional development They challenge the field of psychology to reconsider some of its most fundamental premises concerning how people change and develop over the course of their lives including many of its conventional metaphysical and ontological assumptions and they challenge the reader to actively continue his or her own growth process
