Povey, 2016-02-09 This book analyses the reform movement in Iran and the Egyptian opposition movement since the early 1990s in their historical contexts It argues that the contemporary movements seen on the streets of the regions today represent the culmination of over twenty years of mobilisation by social movements

The Conscription Society Gregory James Kasza, 1995-01-01 The ability to organize millions of people for political purposes is a potent and relatively recent weapon in the struggle for power Political scientists have studied two types of mass organization the political party and the interest group In this book Gregory Kasza examines a third type which he calls the administered mass organization AMOs are mass civilian bodies created by authoritarian regimes to implement public policy Officials use them to organize youths workers women or members of other social sectors into bodies resembling the mass conscript army A network of AMOs produces a conscription society a major force in twentieth century politics in over 45 countries Using comparative history and organization theory Kasza analyzes the politics of the conscription society in both military and single party regimes He discusses the origins of AMOs in Japan the Soviet Union and Fascist Italy and their subsequent spread to China Egypt Nazi Germany Peru Poland and Yugoslavia He focuses on the use of AMOs to curb political opposition to mobilize for war and to shift control over the means of production Kasza shows how in the hands of despotic rulers AMOs have contributed to the extremes of political barbarism characteristic of the twentieth century **Egypt,**

Nasser N. Ashton, 1996-11-08 The years 1955 59 were a vital transitional period for the Anglo American relationship in the Middle East British and American leaders sought to protect cold war and oil interests in the region against the background of a renaissance of Arab nationalism personified by the Egyptian leader Nasser With the aid of extensive declassified official documentation this study traces the British and American responses to the Turco Iraqi Pact of 1955 the Suez crisis the Syrian crisis of 1957 the outbreak of civil strife in Lebanon and the Iraqi Revolution of 1958 It shows how the differing priorities of

the two powers in the region promoted a patchwork of confrontation and cooperation over Middle Eastern questions For Britain this study reveals that it was the Iraqi Revolution rather than Suez which led to a redefinition of strategy in the region and a concentration on the defence of her oil interests in the Gulf **From Secularism to Jihad** Adnan

Musallam,2005-10-30 The modern political idea of jihad a violent struggle against corrupt or anti Islamic regimes is essentially the brainchild of one man who turned traditional Islamic precepts inside out and created the modern radical political Islamist movement Using the evolution of Sayyid Qutb s life and writings Musallam traces and analyzes Qutb s alienation and subsequent emergence as an independent Islamist within the context of his society and the problems that it faced Radicalized following his stay in the United States in the late 1940s and during his imprisonment from 1954 to 1964 Qutb would pen controversial writings that would have a significant impact on young Islamists in Egypt for decades following his death and on global jihadist Islamists for the past quarter century Since September 11 2001 the West has dubbed Qutb the philosopher of Islamic terror and godfather ideologue of al Qaeda This is the first book to examine his life and thought in the wake of the events that ignited the War on Terrorism A secular man of letters in the 1930s and 1940s Qutb s outlook and focus on Quranic studies underwent drastic changes during World War II The Quran became a refuge for his personal needs and for answers to the ills of his society As a result he forsook literature permanently for the Islamic cause and way of life His stay in the United States from 1948 to 1950 reinforced his deeply held belief that Islam is man s only salvation from the abyss of Godless materialism he believed to be manifest in both capitalism and communism Qutb s active opposition to the secular policies of Egyptian President Nasser led to his imprisonment from 1954 to 1964 during which his writings called for the overthrow of Jahili pagan governments and their replacement with a true and just Islamic society A later arrest and trial resulted in his execution in August 1966 Egypt, Politics and Society, 1945-1981 Derek Hopwood,1982 Sonallah Ibrahim

Egyptology: The Missing Millennium Okasha El Daly,2016-07-01 Egyptology The Missing Millennium brings together for the first time the disciplines of Egyptology and Islamic Studies seeking to overturn the conventional opinion of Western scholars that Moslims Arabs had no interest in pre Islamic cultures This book examines a neglected period of a thousand years in the history of Egyptology from the Moslem annexation of Egypt in the seventh century CE until the Ottoman conquest in the 16th century Concentrating on Moslem writers as it is usually Islam which incurs blame for cutting Egyptians off from their ancient heritage the author shows not only the existence of a large body of Arabic sources on Ancient Egypt but also their usefulness to Egyptology today Using sources as diverse as the accounts of travelers and treasure hunters to books on alchemy the author shows that the interest in ancient Egyptian scripts continued

beyond classical writers and describes attempts by medieval Arab scholars mainly alchemists to decipher the hieroglyph script. He further explores medieval Arab interest in Ancient Egypt discussing the interpretations of the intact temples as well as the Arab concept of Egyptian kingship and state administration including a case study of Queen Cleopatra that shows how the Arabic romance of this queen differs significantly from Western views. This book will be of great interest to academics and students of archaeology, Islamic studies and Egyptology as well as anyone with a general interest in Egyptian history. *The Power of Sovereignty* Sayed Khatab, 2006-02-14. *The Power of Sovereignty* explores the religious, political and philosophical concepts of Sayyid Qutb, one of the most influential political thinkers for contemporary Islamists and who has greatly influenced the likes of Osama Bin Laden. Executed by the Egyptian state in 1966, his books continue to be read and his theory of jahiliyya (ignorance) is still of prime importance for radical Islamic groups. Providing a detailed perspective of Sayyid Qutb's writings, this book examines the relation between the specifics of the concept of hakimiyah and that of jahiliyyah, the force and intent of these two concepts, how Qutb employs their specifics to critically assess the political establishments like nationalism and capitalism, the influence of the two concepts on Egypt's radical Islamic movements where many of al-Qaida's lieutenants, officers, ideologues and conspirators were fomented. Shedding light on Islamic radicalism and its intellectual origins, *The Power of Sovereignty* presents new analysis on the intellectual legacy of one of the most important thinkers of modern Islamic revival. **The Rise of the Egyptian Middle Class** Relli Shechter, 2018-12-20. During the 1970s and early 1980s, Egypt experienced swift economic growth resulting from a regional oil boom. Oddly, this economic growth hardly registered in Egyptian public discourse which continuously claimed that the country was experiencing multiple economic, social and cultural crises. This book sets out to investigate this discrepancy and to offer a revisionist history of the period. It documents the massive socio-economic mobility in Egypt by analysing relevant statistical data and ethnographic evidence indicating the changes in the employment structure and the spread of mass consumption. Relli Shechter further examines a wide array of cultural resources such as Egyptian academic writing, the press, the cinema and the literature in which critics lamented what went wrong in Egypt. By doing so, he offers a local version of a wider Middle Eastern and international story: the global formation of middle class societies whose members strove for respectable lives with only partial success.

Nasser's Egypt, Arab Nationalism, and the United Arab Republic James P. Jankowski, 2002. During the crucial decade of the 1950s in Egypt, both Gamal Abdel Nasser and the idea of Arab nationalism were assuming more and more influence in Egypt and the greater Arab world. Exploring this phenomenon, James Jankowski also offers important insights into the political context in which Nasser maneuvered. Jankowski focuses on the period from the 1952 Revolution in Egypt to the dissolution of the short-lived union of Egypt and Syria in 1961 and on the outlook and actions of Nasser, the dominant figure in Egypt's new revolutionary regime. Concisely and convincingly, he identifies the unique blend of ideological and practical considerations that led Egypt to a progressively deeper involvement in Arab nationalism. He draws on newly available

materials from the U S and British archives and on the memoir literature now available in Arabic to present a detailed reconstruction of this formative period in Egyptian political history Jankowski traces Egypt s and Nasser s movement from a peripheral to a central position in Arab nationalist politics Joint Acquisitions List of Africana ,1993 **Egypt and the Struggle for Power in Sudan** Rami Ginat,2017-08-24 A revised history of Egypt s doctrine of the unity of the Nile Valley tracing its struggle from monarchy to revolution **Egypt: Politics and Society, 1945-90** Derek Hopwood,1991 *The Middle East, Abstracts and Index* ,1983 **The Society of the Muslim Brothers** Richard Paul Mitchell,1993 Originally published in 1969 this monograph has become known as a standard source for the history of the revivalist Egyptian movement the Muslim Brethren up to the time of Nasser The work has been reissued for those scholars and students interested in the Muslim revival Jewish and Greek Communities in Egypt Najat Abdulhaq,2016-02-18 In the years following Nasser s rise to power the demographic landscape and the economy of Egypt underwent a profound change Related to the migration of diverse communities that had a distinguished role in Egyptian economy from Egypt these shifts have mostly been discussed in the light of postcolonial studies and the nationalisation policies in the wider region Najat Abdulhaq focuses instead on the role that these minorities had in the economy of pre Nasser Egypt and by giving special attention to the Jewish and Greek communities residing in Egypt investigates the dynamics of minorities involved in entrepreneurship and business With rigorous analysis of the types of companies that were set up Abdulhaq draws out the changes which were occurring in the political and social sphere at the time This book whilst primarily focused on the economic activities of these two minority communities has implications for an understanding analysis of the political the juridical the intellectual and the cultural trends at the time It thus offers vital analysis for those examining the economic history of Egypt as well as the political and cultural transformations of the twentieth century in the region The International Journal of African Historical Studies ,1992
