*The Dawn of Israel* Lester L. Grabbe, 2022-11-17. In this companion volume to his bestselling *Ancient Israel: What Do We Know and How Do We Know It*, Lester L. Grabbe provides the background history of the main ancient Near Eastern peoples and empires: Babylonia, Assyria, Urartu, Hittites, Amorites, Egyptians. Grabbe's focus is on Palestine, Canaan, and covers the early second millennium, including the Middle Bronze Age and the Second Intermediate Period and Hyksos rule of Egypt. Grabbe also addresses the question of a patriarchal period. The main focus of the book is on the second half of the second millennium: Late Bronze and early Iron Age, the Egyptian New Kingdom, the Amarna letters, the Sea Peoples, the question of the exodus, the early settlements in the hill country of Palestine, and the first mention of Israel in the Merneptah inscription. Archaeology and the contribution of the social sciences both feature heavily, as does inscriptional and iconographic material. As such, this volume provides a fascinating portrayal of ancient Israel, and this definitive work by one of the world's leading biblical historians will be of interest to all students and scholars of biblical history.

**Ancient Egyptian Imperialism** Ellen Morris, 2018-05-29. Offers a broad and unique look at Ancient Egypt during its long age of imperialism. Written for enthusiasts and scholars of pharaonic Egypt as well as for those interested in comparative imperialism, this book provides a look at some of the most intriguing evidence for grand strategy, low-level insurgencies, back-room deals, and complex colonial dynamics that exists for the Bronze Age world. It explores the actions of a variety of Egypt's imperial governments from the dawn of the state until 1069 BCE as they endeavored to control fiercely independent mountain dwellers in Lebanon, urban populations in Canaan and Nubia, highly mobile Nilotic pastoralists, and predatory desert raiders. The book is especially valuable as it foregrounds the reactions of local populations and their active roles in shaping the trajectory of empire. With its emphasis on the experimental nature of imperialism and its attention to cross-cultural comparison and social history, this book offers a fresh perspective on a fascinating subject. Organized around central imperial themes which are explored in depth at particular places and times in Egypt's history, *Ancient Egyptian Imperialism* covers: Trade Before Empire; Empire Before the State c. 3500-2686; Settler Colonialism c. 2400-2160; Military Occupation c. 2055-1775; Creolization, Collaboration, Colonization c. 1775-1295; Motivation, Intimidation, Enticement c. 1550-1295; Organization and Infrastructure c. 1458-1295; Outwitting the State c. 1362-1332; Conversions and Contractions in Egypt's Northern Empire c. 1295-1136; and Conversions and Contractions in Egypt's Southern Empire c. 1550-1069. Offers a wider focus of Egypt's experimentation with empire than is covered by general

Egyptologists Draw analogies to tactics employed by imperial governments and by dominated peoples in a variety of historically documented empires both old world and new Answers questions such as how often and to what degree did imperial blueprints undergo revisions Ancient Egyptian Imperialism is an excellent text for students and scholars of history comparative history and ancient history as well for those interested in political science anthropology and the Biblical World

**The Iconography of Humiliation in New Kingdom Egypt** Mark D. Janzen, 2024-11-26 This volume analyzes the iconography of bound foreigners on New Kingdom monuments and artifacts to better understand Egyptian perspectives on foreigners and their treatment of prisoners of war Depictions of foreign captives in humiliating or torturous poses are ubiquitous in Egyptian iconography and reflect the celebratory nature of royal ideology in this case by degrading enemies Egyptologists have scrutinized these scenes for details regarding various military matters but existing scholarly literature offers few studies focused on enemy captives and the sheer physical brutality of the depictions of their bindings Janzen examines the bound foreigner motif in New Kingdom sources demonstrating that these prisoners of war played vital roles in Egyptian ideology and religion Their depictions in bizarre or torturous poses served to reinforce ideological underpinnings of pharaoh's right to rule perpetually ritualizing their defeat and or punishment through the presence of this iconography on ceremonial objects used primarily by the king and on temple walls and monuments The subjugation of foreigners also constituted an important economic function as incorporating prisoners of war into the Egyptian workforce was crucial for economic prosperity and growth in New Kingdom Egypt The volume also explores cross cultural and anthropological parallels placing Egyptian treatment of foreign prisoners in its ancient context The book provides a fascinating study of the subject suitable for scholars and students of Egyptology and ancient history particularly that of New Kingdom Egypt as well as those working on power warfare and violence in the ancient world more broadly Current Research in Egyptology 2006 Maria Cannata, 2007-07-01 The Seventh annual Current Research in Egyptology Symposium CRE 2006 was held on 6-8 April 2006 at the University of Oxford and brought together graduate and postgraduate students of Egyptology from institutions world wide A total of 44 students presented their new and on going research on a variety of topics including archaeology art and architecture history and society literature and language religion museum studies scientific analysis history of Egyptology and egyptomania spanning the entire period of Egyptian history from Predynastic to Coptic times The papers published here cover the same wide range of research areas and multi disciplinary approaches *Egyptianizing Figurines from Delos* Caitlín Barrett, 2011-09-20 This book investigates Hellenistic popular religion through an interdisciplinary study of terracotta figurines of Egyptian deities mostly from domestic contexts from the trading port of Delos A comparison of the figurines iconography to parallels in Egyptian religious texts temple reliefs and ritual objects suggests that many figurines depict deities or rituals associated with Egyptian festivals An analysis of the objects clay fabrics and manufacturing techniques indicates that most were made on Delos Additionally archival research on unpublished notes from early excavations reveals

new data on many figurines archaeological contexts illuminating their roles in both domestic and temple cults The results offer a new perspective on Hellenistic reinterpretations of Egyptian religion as well as the relationship between popular and official cults
