Historians have found that valuable knowledge about long ago civilizations can be derived from examining the simple routines of daily life. This fascinating study presents a collection of everyday objects and artifacts from ancient Egypt shedding light on the social life and culture of ancient Egyptians. The work starts with a popular notion of ancient Egyptian beauty and gradually moves on to address various aspects of life including home work communication and transition and afterlife. Organized by topics the work contains the following sections: beauty, adornment and clothing, household items, furniture and games, food and drink, tools and weapons, literacy and writing, death and funerary equipment, and religion, ritual and magic. Each object holds equal importance and dates from the Predynastic era to the Greco-Roman period of ancient Egypt 5000 BCE to 300 CE. A special section provides guidance on evaluating objects and artifacts by asking questions: Who created it? Who used it? What did it do? What was its purpose? When and where was it made? Why was it made to help assess the historical context of the object.
