Poetic Metaphors Carina Rasse, 2022-06-15 Poetry pushes metaphor to the limit Consider how many different dynamic and interconnected dimensions e.g. text rhyme rhythm sound and many more a poem has and how they all play a role in the ways metaphorical meaning is constructed There is probably no other genre that relies so much on the creator's ability to get his or her message across while at the same time leaving enough room for the interpreters to find out for themselves what a poem means to them what emotions and feelings it evokes and which experiences it conveys This book uses interviews questionnaires and think aloud protocols to investigate the meanings and functions of metaphors from a poet's perspective and to explore how readers interpret and engage with this poetry Besides the theoretical contribution to the field of metaphor studies this monograph presents numerous practical implications for a systematic exploration of metaphors in contemporary poetry and beyond

Shakespeare and the Versification of English Drama, 1561-1642 Marina Tarlinskaja, 2016-12-05 Surveying the development and varieties of blank verse in the English playhouses this book is a natural history of iambic pentameter in English The main aim of the book is to analyze the evolution of Renaissance dramatic poetry Shakespeare is the central figure of the research but his predecessors contemporaries and followers are also important Shakespeare the author argues can be fully understood and appreciated only against the background of the whole period Tarlinskaja surveys English plays by Elizabethan Jacobean and

Caroline playwrights from Norton and Sackville's *Gorboduc* to Shirley's *The Cardinal*. Her analysis takes in such topics as what poets treated as a syllable in the 16th-17th century metrical verse; the particulars of stressing in iambic pentameter texts; word boundary and syntactic segmentation of verse lines; their morphological and syntactic composition; syllabic accentual and syntactic features of line endings; and the way Elizabethan poets learned to use verse form to enhance meaning. She uses statistics to explore the attribution of questionable Elizabethan and Jacobean plays and to examine several still enigmatic texts and collaborations. Among these are the poem *A Lover's Complaint*, the anonymous tragedy *Arden of Faversham*, the challenging Sir Thomas More, the later Jacobean comedy *The Spanish Gypsy*, as well as a number of Shakespeare's co-authored plays. Her analysis of versification offers new ways to think about the dating of plays, attribution of anonymous texts, and how collaborators divided their task in co-authored dramas.

Poems of Francis Thompson

Francis Thompson, 2002-07-04 During the research for her biography of Francis Thompson *Between Heaven and Charing Cross*, it became clear to Brigid Boardman that a new edition of his poetry was essential for a full recognition of the range and variety of his work. He remains best known for his great poem *The Hound of Heaven*, but his work as a whole has never been properly presented. All previous editions include the many alterations and deletions that were made to Thompson's work posthumously by Wilfrid Meynell for the edition of 1913. Meynell's aim was to present the poetry in a strictly orthodox Catholic light in a period when fears about Modernism influenced the Church's understanding of literature. These anxieties have not served the poetry well. Thompson's aim was to be the poet of the return to God, and his work expresses the divine presence that he believed permeated all aspects of life. This edition finally restores an important English poet to the readers that he so deserves.
