Eight Men And A Duck An Improbable Voyage By Reed Boat To Easter Island:

Eight Men and a Duck I. J. Thorpe, Nick Thorpe, 2002 On a fateful South American bus trip journalist Nick Thorpe overheard an improbable plan to sail 2500 miles to Easter Island on a boat made of reeds Inspired by this modern day Kon Tiki he blagged his way on board only to find himself with nagging questions Why did the crew include a tree surgeon a jewellery salesman and a duck What had happened to the navigator Did anybody actually know how to sail And most importantly where was the life raft *Eight Men and a Duck* charts this most eccentric of Pacific voyages as it lurched between high drama and high farce the slow motion launch that took five days to complete the bungled phone call that triggered a naval rescue alert and the constant race against the inexorable sinking of the soggy hull **8 Men and a Duck** Nick Thorpe, 2003-06-02 Even with the wind on our side and all eight of us pulling we had never yet managed to change the complex sails Now we had to pull against the full force of the wind in a storm in the middle of the night So begins Nick Thorpe's unlikely journey to sail 2 500 miles from northern Chile to Easter Island on the Viracocha a boat made of reeds Captain Phil Buck's desire to test the waters in this pre Incan boat was twofold to reopen the controversial migration theories of Thor Heyerdahl who sailed his boat the Kon Tiki from Peru to Polynesia in 1947 and to have one heck of a time in the process With a crew that includes a tree surgeon a jewelry salesman and two ducks Thorpe embarks on an unnerving Pacific voyage that is by turns fierce and farce from the bungled phone call that triggered a naval rescue alert to the constant race against the inexorable sinking of the soggy hull A story of high tides and even higher stakes *8 Men and a Duck* is a tale of friendship fate and the unlikely distances people will travel for true adventure *8 Men and a Duck* I. J. Thorpe, Nick Thorpe, 2002 Bill Bryson meets Thor Heyerdahl in this hilarious and perilous adventure as an award winning journalist sails 2 500 miles from South America to Easter Island in a reed boat of photos 2 maps *8 Men and a Duck* Nick Thorpe, 2007-11-01 *8 Men and a Duck* charts the hilarious and unnerving Pacific voyage as it rolls between waves of high drama and high farce from the five day launch off a Chilean beach to the bungled phone call that triggered a naval rescue alert to the sad fate of Pedro the duck to the constant race against the inexorable sinking of the soggy hull On a fateful South American bus trip journalist Nick Thorpe overheard some fellow passengers discussing an improbable plan to sail 2 500 miles from northern Chile to Easter Island on the Viracocha a boat made of reeds The crew's aim in reviving this pre Incan boat building technology was twofold to reopen the controversial migration theories of Thor Heyerdahl who sailed his boat the Kon Tiki from Peru to Polynesia in 1947 and to have one heck of an adventure in the process Thorpe talked his way on board Captain Phil Buck's Viracocha only to find himself plagued by uncertainty Why did the crew include a tree surgeon a jewelry salesman and two ducks What happened to the navigator Did anybody actually know how to sail And most important where was the life raft Despite the best efforts of storms and sharks and fast moving freighters an alarming lack of sailing qualifications and a rival explorer dogging the adventure at every turn the crew members of the Viracocha lived to tell their

extraordinary tale right through to its wickedly unexpected conclusion Nick Thorpe's account is by turns funny touching and thrilling a story of friendship fate and the unlikely distances people will go for real adventure **Forgotten Civilization**

Robert M. Schoch, 2012-08-10 Scientific confirmation of advanced civilization at the end of the last ice age the solar catastrophe that destroyed it and what the evidence means for our future Demonstrates based on the 12 000 year old megalithic complex of G bekli Tepe that advanced civilization extends thousands of years further back than generally acknowledged Examines the catastrophic solar outbursts that ended the last ice age wiping out antediluvian civilization and incinerating much of the evidence of that period Reveals data that show solar outbursts powerful enough to devastate modern society could return in the future Building upon his revolutionary theory that the Sphinx dates back much further than 2500 BCE geologist Robert Schoch reveals scientific evidence of advanced civilization predating ancient Egypt Sumeria and Greece as well as the catastrophe that destroyed it nearly 12 000 years ago and what its legacy can teach us about our own future Combining evidence from multiple scientific disciplines Schoch shows how the last ice age ended abruptly in 9700 BCE due to coronal mass ejections from the Sun These solar outbursts unleashed electrical plasma discharges upon Earth and triggered volcanic activity earthquakes fires and massive floods as glaciers melted and lightning strikes released torrential rains from the oceans He explains how these events eradicated the civilization of the time and set humanity back thousands of years only to reemerge around 3500 BCE with scattered memories and nascent abilities He explores within this framework how many megalithic monuments underground cities and ancient legends fall logically into place as well as the reinterpreted Easter Island rongorongo texts and the intentional burial 10 000 years ago of the G bekli Tepe complex in Turkey Schoch reveals scientific evidence that shows how history could repeat itself with a coronal mass ejection powerful enough to devastate modern society Weaving together a new view of the origins of civilization the truths behind ancient wisdom and the dynamics of the planet we live on Schoch maintains we must heed the megalithic warning of the past and collectively prepare for future events Magill's Literary Annual 2003 Salem Press, 2003-06

Magill's Literary Annual 2003 is the fiftieth publication in a series that began in 1954 The philosophy behind the annual has been to evaluate critically 200 major examples of serious literature published during the previous year Our focus is to provide coverage for works that are likely to be of particular interest to the general reader that reflect the publishing trends of a given year that add to careers of authors being taught and researched in literature programs and that will stand the test of time By filtering the thousands of books published each year down to two hundred notable titles the editors have provided the busy librarian with an excellent reader's advisory tool and patrons with fodder for book discussion groups and a guide for selection The essay reviews in the Annual also provide a more academic reference review of a work than is typically found in newspapers and other periodical sources This year's works are drawn from such categories as anthropology autobiography biography current affairs diaries economics environment essays history language literary criticism medicine memoirs nature philosophy poetry psychology

Jett, 2017-06-06 Paints a compelling picture of impressive pre Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In **Ancient Ocean Crossings** Reconsidering the Case for Contacts with the Pre Columbian Americas Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that earth s two hemispheres were essentially cut off from one another as a result of the post Pleistocene meltwater fed rising oceans that covered that bridge The oceans along with arctic climates and daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development
