**Museum Encyclopedia of Camps and Ghettos, 1933-1945, Volume IV** Geoffrey P. Megargee, 2022-04-26 The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos 1933-1945 Volume IV aims to provide as much basic information as possible about individual camps and other detention facilities. Why were they established? Who ran them? What kinds of prisoners did they hold? What kinds of work did the prisoners do and for whom? What were the conditions like? The entries detail the sources from which the authors drew their material so future scholars can expand upon the work. Finally and perhaps most important, this is a work of memorialization; it preserves the histories of places where people suffered and died. Volume IV examines an under-researched segment of the larger Nazi incarceration system: camps and other detention facilities under the direct control of the German military, the Wehrmacht. These include prisoner-of-war (POW) camps including camps for enlisted men, camps for officers, camps for naval personnel and airmen, and transit camps; civilian internment and labor camps; work camps for Tunisian Jews; brothels in which women were forced to have sex with soldiers; and prisons and penal camps for Wehrmacht personnel. Most of these sites have not been described in detail in the existing historical literature, and a substantial number of them have never been documented at all. The volume also includes an introduction to the German prisoner-of-war camp system and its evolution, introductions to each of the various types of camps operated by the Wehrmacht, and entries devoted to each individual camp, representing the most comprehensive documentation to date of the Wehrmacht camp system. Within the entries, the volume draws upon German military documents, eyewitness and survivor testimony, and postwar investigations to describe the experiences of prisoners of war and civilian prisoners held captive by the Wehrmacht. Of particular note is the detailed documentation of the Wehrmacht's crimes against Soviet prisoners of war, which have largely been neglected in the English language literature up to this point, despite the fact that more than three million Soviet prisoners died in German captivity. The volume also provides substantial coverage of the diverse range of conditions encountered by other Allied prisoners of war, illustrating both the substantial privations faced by all prisoners of war and the stark contrast between the Germans' treatment of Soviet prisoners and those of other nationalities. The volume also details the significant involvement of the Wehrmacht in crimes against the civilian populations of occupied Europe and North Africa. As a result, this volume not only brings to light many detention sites whose existence has been little known but also advances the decades-old process of dismantling the myth of the clean Wehrmacht, according to which the German military had nothing to do with the Holocaust and the Nazi regime's other crimes. *Frontsoldaten* Stephen G. Fritz, 1997-06-19 Drawn from letters, diaries, and memoirs, this impressive study presents a rounded, detailed picture of the daily life for frontline Nazi soldiers. Publishers Weekly Stephen G. Fritz explores the day-to-day reality of the average German infantryman or Landser during World War II. Through letters, diaries, memoirs, and oral histories, most of which describe life on the Russian front, Fritz presents a richly textured portrait of the Landser that illustrates the complexity and paradox of his daily life. Although clinging to a self-image as a decent fellow, the German soldier nonetheless committed terrible crimes in

*Local - Global Narratives* Renate Rechtien, Karoline Von Oppen, 2007 Over the past decade and a half Germany has experienced a period of political and cultural turbulence which many have attributed to the combined challenges of unification and globalisation In response to growing exposure to global markets politics and migration debates about identity have increasingly been renationalised At the same time there has been a notable reappraisal in Germany and in German Studies of the regional and global as spaces for the construction of

identity This volume sets out to explore these complex and at times contradictory trends focusing in particular on developments in Germany since the 1970s although chapters treating earlier periods are also included The volume brings together British Irish German Canadian and American scholars working in the field and resulted from a conference organised by Women in German Studies at the University of Bath The first section is primarily concerned with the specifically German concept of locality known as Heimat and its changing relationship with the global Included are explorations of the writings of Kafka Bachmann Johnson Sell Wolf Brinkmann and Jelinek amongst others as well as films by Schlöndorff and Steyerl The second section focuses on the impact of the global on institutions and rituals such as commemoration memorialisation and architecture which have traditionally been influential in shaping national self images Overall this volume concludes that the nature of the relationship to the local has fundamentally changed under the impact of globalisation

### **Postwar Soldiers**

Jörg Echternkamp, 2020-03-20 Contemporary historians have transformed our understanding of the German military in World War II debunking the clean Wehrmacht myth that held most soldiers innocent of wartime atrocities Considerably less attention has been paid to those soldiers at the end of hostilities In *Postwar Soldiers* Jörg Echternkamp analyzes three themes in the early history of West Germany interpretations of the war during its conclusion and the occupation period military veteran communities self perceptions and the public rehabilitation of the image of the German soldier As Echternkamp shows public controversies around these topics helped to drive the social processes that legitimized the democratic postwar order

*Homecomings* Frank Biess, 2021-07-13 This book focuses on one of the most visible and important consequences of total defeat in postwar Germany the return to East and West Germany of the two million German soldiers and POWs who spent an extended period in Soviet captivity These former prisoners made up a unique segment of German society They were both soldiers in the war of racial annihilation on the Eastern front and then suffered extensive hardship and deprivation themselves as prisoners of war The book examines the lingering consequences of the soldiers return and explores returnees own responses to a radically changed and divided homeland Historian Frank Biess traces the origins of the postwar period to the last years of the war when ordinary Germans began to face the prospect of impending defeat He then demonstrates parallel East and West German efforts to overcome the German loss by transforming returning POWs into ideal post totalitarian or antifascist citizens By exploring returnees troubled adjustment to the more private spheres of the workplace and the family the book stresses the limitations of these East and West German attempts to move beyond the war Based on a wide array of primary and secondary sources *Homecomings* combines the political history of reconstruction with the social history of returnees and the cultural history of war memories and gender identities It unearths important structural and functional similarities between German postwar societies which remained infused with the aftereffects of unprecedented violence loss and mass death long after the war was over
