Edge Of Violence:

The Edge of Violence Jamie Bartlett, Jonathan Birdwell, Michael King, 2010 The path into terrorism in the name of Islam is often described as a process of radicalisation But to be radical is not necessarily to be violent Violent radicals are clearly enemies of liberal democracies but nonviolent radicals might sometimes be powerful allies This report is a summary of two years research examining the difference between violent and nonviolent radicals in Europe and Canada It represents a step towards a more nuanced understanding of behaviour across radicalised individuals the appeal of the al Qaeda narrative and the role of governments and communities in responding Page 75 **Citizenship on the Edge** Nancy J.

Hirschmann, Deborah A. Thomas, 2022-01-04 What does it mean to claim two decades into the twenty first century that citizenship is on the edge The questions that animate this volume focus attention on the relationships between liberal conceptions of citizenship and democracy on one hand and sex race and gender on the other Who counts as a citizen in today's world and what are the mechanisms through which the rights benefits and protections of liberal citizenship are differentially bestowed upon diverse groups What are the relationships between global economic processes and political and legal empowerment What forms of violence emerge in order to defend and define these rights benefits and protections and how do these forms of violence reflect long histories How might we recognize and account for the various avenues through which people attempt to make themselves as political subjects Citizenship on the Edge approaches these questions from multiple disciplines including Africana Studies anthropology disability studies film studies gender studies history law political science and sociology Contributors explore the ways in which compounding social inequalities redound to the conditions and expressions of citizenship in the U S and throughout the world They give a sense of the breathtaking range of the ways that citizenship is controlled repressed undercut and denied at the same time as they outline people's attempts to claim citizenship in ways that are meaningful to them From university speech policies to labor and immigration policies to a rethinking of the security theatre to women's empowerment in the family and economy and a rethinking of marriage and the family we see slivers of possibility for a more inclusive and less hostile world in which citizenship is no longer so in doubt so on the edge for so many As a whole the volume argues that citizenship cannot be conceptualized as a transcendent good but must instead always be contextualized within specific places and times and in relation to dynamic struggle Contributors Erez Aloni Ange Marie Hancock Alfaro Nancy J Hirschmann Samantha Majic Valentine M Moghadam Michael Rembis Tracy Robinson Ellen Samuels Kimberly Theidon Deborah A Thomas *No Place to Go* Nancy Janovicek, 2011-11-01 The first history of the battered women's shelter movement in Canada No Place to Go traces the development of transition houses and services for abused women and the campaign that made wife battering a political issue Nancy Janovicek focuses on women's groups in small cities and rural communities examining anti violence activism in Thunder Bay Kenora Nelson and Moncton She also pays close attention to Aboriginal women in northwestern Ontario where the connections between family violence

and the devaluation of indigenous culture in Canadian society complicated efforts to end domestic violence This book lays bare the aims and challenges of establishing women's shelters in non urban areas The local histories presented here show how transition houses became hubs in a larger movement to change attitudes about domestic violence and to lobby for legislation to protect women

Cut Dead But Still Alive Dr. Gregory C. Ellison II, 2013-05-01 To cut dead means to refuse to acknowledge another with the intent to punish Gregory Ellison says that this is the plight of African American young men They are stigmatized with limited opportunity for education and disproportionate incarceration At the same time they are often resistant to help from social institutions including the church They are mute and invisible to society but also in their inward being Their voice and physical selves are not acknowledged leaving them ripe for hopelessness and volatility So if the need is so great yet the desire for help wanes where is the remedy Healing can begin by reframing the problem While to cut dead is destructive it also refers to pruning and repotting a disfigured plant giving it new possibilities for life In this provocative book Ellison shows how caregivers can sow seeds of life and nurture with guidance admonition training and support in order to help create a community of reliable others serving as an extended family

A Critical Collection on Alejandro Morales Marc García-Martínez, Francisco A. Lomeli, 2025-04-29 Silver Medalist at the 24th International Latino Book Awards

Alejandro Morales is a pioneer of Chicana and Chicano literature and the author of groundbreaking works including *The Brick People*, *The Rag Doll Plagues*, and *River of Angels*. His work often experimental was one of the first to depict harsh urban realities in the barrios a break from much of the Chicana and Chicano fiction that had been published previously. Morales' relentless work has grown over the decades into a veritable menagerie of cultural testimonies, fantastic counterhistories, magical realism, challenging metanarratives, and flesh and blood aesthetic innovation. The fourteen essays included in this compendium examine Morales' novels and short stories. The editors also include a critical introduction, an interview between Morales, the editors, and fellow author Daniel Olivas, and a new comprehensive bibliography of Morales' writings and works about him: books, articles, book reviews, online resources, and dissertations.

A Critical Collection on Alejandro Morales: Forging an Alternative Chicano Fiction is a must read for understanding and appreciating Morales' work in particular and Chicana and Chicano literature in general.

The Introduction, notes, and index aim at giving the text its proper historical setting and the reader the means of studying St. Thomas within that setting.

Campus Action against Sexual Assault Michele A. Paludi, 2016-05-16 A practical guide to prevention of and response to sexual assault on college campuses. This invaluable resource will help ensure Title IX compliance and can also help reduce the incidence of these all too prevalent events. The frequency of sexual assault on college campuses is startlingly high. Notwithstanding this fact, most campus officials are not trained in the psychology of the victimization process, while most students are not aware of their reporting options. A practical guide to sexual assault at colleges and universities. This book integrates theories and empirical research with information about legislation and techniques to help college administrators deal with and prevent these disturbing offenses. The work brings together a team of experts who discuss various types of assault, including rape, stalking, intimate partner violence, and sexual harassment, and detail the legal, educational, and federal responses to such events on college campuses. They address federal and state laws, including new bills being proposed in Congress, and present research on the physical and psychological dimensions of sexual assault. Perhaps most important, the book shows how human resource techniques and principles can be used to establish preventative measures and to respond appropriately when sexual assault does occur. Students' accounts of prevention training and education enhance the scholarly and legal contributions to this important and timely volume.
