Literature and the Scottish Reformation David George Mullan, 2016-12-05 Throughout the twentieth century Scottish literary studies was dominated by a critical consensus that critiqued contemporary anti-Catholicism by advancing a re-reading of the Reformation This consensus understood that Scotland's rich medieval culture had been replaced with an anti-aesthetic tyranny of life and letters As a result Scottish literature has consistently been defined in opposition to the Calvinism to which it frequently returns Yet as the essays in this collection show such a consensus appears increasingly untenable in light both of recent research and a more detailed survey of Scottish literature This collection launches a full-scale reconsideration of the series of relationships between literature and reformation in early modern Scotland Previous scholarship in this area has tended to dismiss the literary value of the writing of the period largely as a reaction to its regular theological interests Instead the essays in this volume reinforce recent work that challenges the received scholarly consensus by taking these interests seriously This volume argues for the importance of this religiously orientated writing through the adoption of a series of interdisciplinary approaches Arranged chronologically the collection concentrates on major authors and texts while engaging with a number of contemporary critical issues and so highlighting for example writing by women in the period It addresses the concerns of historians and theologians who have routinely accepted the established reading of this period of literary history in Scotland and offers a radically new interpretation of the complex relationships between literature and religious reform in early modern Scotland

The Mercat Anthology of Early Scottish Literature 1375-1707 R.D.S. Jack, P.A.T. Rozendaal, 2008-10-30

This large scale anthology of early Scottish Literature now revised has been designed as a teaching text for use by school and university students. Longer works are either presented complete e.g. James I Kingis Quair as long extracts with explanatory linking passages e.g. Urquhart The Jewel or by sections which sum up the main themes and concerns of the text e.g. Barbour's Bruce Book I. There are full critical and linguistic introductions, brief biographical and bibliographical introductions for each author or sub-section. The texts have all been re-edited; every difficult word is glossed and full explanatory notes appear at the foot of each page. A substantial Appendix presents texts in Latin, Scots, English and Gaelic from the seventeenth century demonstrating the vitality and interaction of these voices within the Scottish tradition. A noteworthy feature of the book is Professor Jack's Critical Introduction 'Where Stands Scottish Literature Now'. This challenges many widely held assumptions about Scottish literature. In particular it seeks to explore the reasons behind the strange neglect of the writers of the seventeenth century. Basing its argument on the texts of the Anthology as a whole it seeks to re-define the accepted canon and suggests an alternative way of approaching Scottish literary history.
