referencing and clinical management diagrams *Opportunities and Challenges of Interprofessional Collaboration and Education* Jill Thistlethwaite, Peter Musaeus, Martina Mueller-Schilling, Sophie Schlosser, 2024-04-01 Interprofessional collaboration is essential in meeting today's health challenges which demand high flexibility and innovation. Many health organizations including the World Health Organization (WHO) demand that interprofessional collaboration should be taught and learned globally. Even so, interprofessional education tools have not yet been widely implemented in the curricula of medical professions including physicians, nurses, pharmacists, physiotherapists, etc. This training usually takes place separately. Collaboration is necessary in health professions education as it can allow professionals to increase their skills and help them achieve more than they would at an individual level. Collaboration also allows for more open-minded approaches when facing new ways of thinking. When knowledge is shared, healthcare employees are more encouraged to share their own ideas and concerns. These achievements of interprofessionalism within health profession education not only benefit the student and employee but also optimize patient care and increase patient safety. Productivity can also be increased and therefore reduce costs overall.

Strategies, Techniques, & Approaches to Critical Thinking - E-Book Sandra Luz Martinez de Castillo, 2021-02-10 NEW Updates reflect the Next Generation NCLEX Examination (NGN) and include careful attention to NCLEX Examination formatting such as boldfacing key words and referencing healthcare providers versus physicians. NEW Enhanced emphasis on application level questions includes an increased percentage of alternate format questions. NEW emphasis on outpatient scenarios that demonstrate clinical judgment shows the application of skills to nursing roles outside of the acute care setting. NEW Updated nursing diagnoses reflect the latest NANDA-I taxonomy to ensure familiarity with the most current NANDA approved diagnostic language. NEW Enhanced integration of the Core Competencies for Interprofessional Collaborative Practice supports a focus on interprofessional collaborative care.
