Rethinking School Health, 2011 For the goals of Education for All EFA to be achieved children must be healthy enough not only to attend school but also to learn while there Because school health and nutrition programs specifically benefit poor sick and hungry

children they can make a key contribution to achieving EFA's goals. However, children can benefit only if the programs reach them. *Rethinking School Health: A Key Component of Education for All* describes how schools have been used as a platform for delivering familiar, safe, and simple health and nutrition interventions to hard-to-reach children in low-income countries. The book's foreword was written jointly by Elizabeth King of the World Bank, Susan Durston of the United Nations Children's Fund (UNICEF), and Qian Tang of the United Nations Educational, Scientific and Cultural Organization (UNESCO), indicating the interagency support for this approach. The book will be of particular interest to those working in the fields of education, health, and nutrition and early childhood development. **Book Jacket** [The Impact of HIV/AIDS on Education Worldwide](#)

Solomon, Jacquelin Berman, 2007-11-01 A comprehensive guide to creating, implementing, and evaluating culturally competent HIV prevention programs. Recent literature on effective HIV/AIDS prevention programs underscores the importance of cultural sensitivity and cultural competence in the delivery of services and care. Successful prevention interventions must be tailored for their target populations. Yet many HIV/AIDS prevention professionals struggle to meet the specific needs of their communities. *Tools for Building Culturally Competent HIV Prevention Programs* contains a variety of well-informed, evidence-based approaches to HIV prevention programs. It offers all the tools practitioners need to launch an effective prevention program, from identifying program goals and objectives to developing program models, to recruiting and retaining staff, and finally to conducting evaluations and reporting results. All material is filtered through a cultural perspective, and methods are tailored to specific racial, ethnic, and socioeconomic groups. Additional resources are included to assist in the preparation and development of your prevention program, such as Federal standards and guidelines for culturally competent health care and social service provision, true-life case studies that show how other HIV prevention programs succeeded, checklists, worksheets, and templates to create, monitor, and manage your program. The CD includes customizable checklists and worksheets that you can use in your program. A demonstration of the Virtual Program Evaluation Consultant (VPEC) software program, a program evaluation service offered by Sociometrics Corporation. Purchasers of this book will get a three-month license to VPEC free. Use the companion volume *The Complete HIV/AIDS Teaching Kit* with CD-ROM in your prevention program to assist you in providing an overview of the incidence, prevalence, prevention, and treatment of HIV/AIDS to all your students, patients, or clients. The unifying theme of this broad reaching volume is that responsible ethical and effective social work practice rests on the diagnostic skills of the practitioner Social work diagnosis refers to the conscious formulation of an ongoing set of decisions about the client and his or her situation which serve as the basis for intervention decisions for which the practitioner must be prepared to take responsibility Diagnostic skill development is an ongoing process principally enhanced by a continuous commitment to remain at the cutting edge of the profession s body of

knowledge but one of the challenges for today's practitioner is keeping abreast of the rapidly expanding body of knowledge contained in some 200 important social work periodicals in circulation Francis J Turner a preeminent clinical scholar brings together in one volume some of the best work published since 2000 each reflecting new insights into understanding psychosocial situations and innovative methods of applying knowledge and skills in an increasingly effective manner Each of the 78 articles in this volume highlights some of the critical dimensions of contemporary social work practice guiding clinicians to address four key aspects in order to craft an accurate diagnosis The first section presents articles covering the developmental spectrum each of which fully explains various ages and stages of development The second section focuses on a range of specific situations helping practitioners and students enrich their understanding of different types of problems they meet in contemporary practice whether they are based in mental illness psychosocial issues or physical ailments The third section addresses the crucial component of diversity demonstrating the complexity and critical importance of truly understanding clients and their lives The last section of the book discusses innovative approaches to practice selected to offer practitioners easy access to the latest interventions for a host of contemporary challenges facing clients and their therapists Broad in scope and tightly focused on the goal of providing the most up to date information necessary for accuracy in the diagnostic process this volume represents some of the best research available to today's social workers
