A. Thomas, 2014-06-01 Africans are among the fastest growing immigrant groups in the United States Although they are racially and ethnically diverse few studies have examined how these differences affect their patterns of incorporation into society This book is the first to highlight the role of race and ethnicity Arab ethnicity in particular in shaping the experiences of African immigrants It demonstrates that American conceptions of race result in significant inequalities in the ways in which African immigrants are socially integrated Thomas argues that suggestions that Black Africans are model minorities who have overcome the barriers of race are misleading showing that Black and Arab ethnicity Africans systematically experience less favorable socioeconomic outcomes than their White African counterparts Overall the book makes three critical arguments First historical and contemporary constructions of race have important implications for understanding the dynamics of African immigration and settlement in the United States Second there are significant racial inequalities in the social and economic incorporation of contemporary African immigrants Finally Arab ethnicity has additional implications for understanding intra racial disparities in incorporation among contemporary African immigrants In general these arguments are foundational for understanding the diversity of African immigrant experiences **The Oxford Handbook of**

Reciprocal Adult Development and Learning Carol Hoare, 2011-09-06 This second edition of The Oxford Handbook of Reciprocal Adult Development and Learning explores how advances in one dimension so often lead to positive changes in the other This is new terrain in psychology and learning Implications for research practice and policy emanate from review of empirical literature and theoretical perspectives **Social Stratification** Roxanne Connelly, Vernon Gayle, 2016-04-01

Research into social stratification and social divisions has always been a central component of sociological study This volume brings together a range of thematically organised case studies comprising empirical and methodological analyses addressing the challenges of studying trends and processes in social stratification This collection has four themes The first concerns the measurement of social stratification since the problem of relating concepts measurements and operationalizations continues to cause difficulties for sociological analysis This book clarifies the appropriate deployment of existing measurement options and presents new empirical strategies of measurement and interpretation The conception of the life course and individual social biography is very popular in modern sociology The second theme of this volume exploits the contemporary expansion of micro level longitudinal data and the analytical approaches available to researchers to exploit such records It comprises chapters which exemplify innovative empirical analysis of life course processes in a longitudinal context thus offering an advance on previous sociological accounts concerned with longitudinal trends and processes The third theme of the book concerns the interrelationship between contemporary demographic institutional and socioeconomic transformations and structures of social inequality Although the role of wider social changes is rarely neglected in sociological reviews such

changes continue to raise analytical challenges for any assessment of empirical differences and trends The fourth theme of the book discusses selected features of policy and political responses to social stratification This volume will be of interest to students academics and policy experts working in the field of social stratification **Handbook of Education Policy**

Smidt, 2015-02-03 American Evangelicals Today assesses the contemporary social religious and political characteristics of evangelical Protestants today and it does so in light of 1 whether these characteristics are similar to or different from the corresponding characteristics of adherents of other major faith traditions in American religious life and 2 the extent which these particular characteristics among evangelicals may have changed over the past four decades In addition it analyzes the extent which evangelicals are divided today and it does so within the framework of four potential factors that might shape such divisions racial ethnic differences generational differences educational differences and religious differences American Evangelicals Today is designed to serve as an accessible but scholarly overview of American evangelicals one that is appealing to all scholars students and laity alike Smidt offers a discussion of the nature of evangelical Protestantism highlights the particular analytical issues at play when one seeks to determine just who are to be classified as evangelicals and reveals some of the contradictory findings that can emerge through the use of these different analytical frameworks for defining evangelicals The volume not only analyzes the current characteristics of evangelicals in light of those exhibited by other religious traditions as well as how evangelicals have changed over time but it looks toward the future addressing generational differences and other possible factors for change among evangelical Protestants
