curriculum design Overcoming Challenges in Software Engineering Education: Delivering Non-Technical Knowledge and Skills Yu, Liguang, 2014-03-31 Computer science graduates often find software engineering knowledge and skills are more in demand after they join the industry. However, given the lecture-based curriculum present in academia, it is not an easy undertaking to deliver industry standard knowledge and skills in a software engineering classroom as such lectures hardly engage or convince students. *Overcoming Challenges in Software Engineering Education: Delivering Non-Technical Knowledge and Skills* combines recent advances and best practices to improve the curriculum of software engineering education. This book is an essential reference source for researchers and educators seeking to bridge the gap between industry expectations and what academia can provide in software engineering education. Handbook of School Psychology in the Global Context Chryse Hatzichristou, Bonnie Kaul Nastasi, Shane R. Jimerson, 2024-11-11 This handbook introduces a transnational approach to school psychology theory and practice. It provides a detailed review and analysis of multicultural and international literature in school psychology. In addition, the volume synthesizes this literature in ways that help promote transnational perspectives in the field of school psychology and recommends transnational processes that can further enhance the preparation and the role of school psychologists across a global context. With contributions from school psychology faculty members, researchers, and practitioners across diverse multicultural and international backgrounds, this book offers readers interested in studying or practicing school psychology in a transnational context an excellent background and introduction to the subject matter. Topical coverage ranges from conceptual foundations, educational and psychosocial foundations, systems, psychological and educational assessment, prevention and intervention, international research projects, school psychological services, and training, special topics, and future directions in the field. The breadth of the chapters makes this handbook a key resource for guiding and directing future research, training, and practice that considers the current transnational challenges and resources of school psychology. This handbook is an essential resource for researchers, scientists, practitioners, clinicians, and graduate students in child and school psychology, social work, public health, educational policy, and politics, and other school-based and child-serving mental health disciplines. *Contemporary Challenges in Clinical Legal Education* Matthew Atkinson, Ben Livings, 2023-08-18 This edited book addresses contemporary challenges in clinical legal education (CLE), considering its role in legal education and in the broader community it serves. Written by experts from various international contexts, the book explores how the changing nature and requirements of legal practice alongside social and technological developments affect the pedagogy of clinical legal education. Chapters chart the development of clinical legal education across various jurisdictions and examine developments in programme design and supervision of and in CLE along with the role of CLE in the community. The authors also reflect on the dynamic and developing role of clinical legal education and offer recommendations for the future. This book will be essential reading for academics, researchers in clinical legal education, and those interested in legal education across the world. It will also be of interest to students of clinical legal

education whose research requires a deeper understanding of the current themes and issues of the subject
