[With a Portrait and Facsimiles.] William Richard LE FANU (Librarian, Royal College of Surgeons.), 1951 *The Life of Edward Jenner M.D., F.R.S.* F. Dawtry Drewitt, 2013-07-04 Eminent scientist Frederick Dawtrey Drewitt 1848 1942 had general readers in mind when he retraced the steps that led to the growing worldwide recognition of the father of immunology Edward Jenner 1749 1823 The first edition was published in 1931 and this enlarged second edition appeared in 1933 *Edward Jenner, F.R.S., 1749-1823* Gordon Roy Cameron, 1949 **Life of Edward Jenner (1749-1823)** George Buckston Browne, 1936 *Angel of Death* G. Maheshwari, Vineeta Mittal, The early schooling years in a child's life are of extreme importance These are the times when he focuses his eyes and mind on everything that is new and appealing His mind is untrained and he has learned only the basics of communication His vocabulary is limited but he is eager to learn Whatever is presented to him he absorbs like a sponge His attention span is short and he requires constant reinforcement What interests him most is things and events around him This is the golden opportunity to inculcate in him a spirit of adventure and inquiry to teach him to ask to reason and to pick up healthy habits With this in mind our publisher decided to bring out a science series for the junior classes **An Introduction to the history of medicine** Fielding Hudson Garrison, 1914 **An Introduction to the history of medicine, with medical chronology, bibliographic data and test questions** Fielding Hudson Garrison, 1913 **From Empire to Humanity** Amanda B. Moniz, 2016-06-01 In the decades before the Revolution Americans and Britons shared an imperial approach to helping those in need during times of disaster and hardship They worked together on charitable ventures designed to strengthen the British empire and ordinary men and women made donations for faraway members of the British community Growing up in this world of connections future activists from the British Isles North America and the West Indies developed expansive outlooks and transatlantic ties The schism created by the Revolution fractured the community that nurtured this generation of philanthropists In *From Empire to Humanity* Amanda Moniz tells the story of a

generation of American and British activists who transformed humanitarianism as they adjusted to being foreigners American independence put an end to their common imperial humanitarianism but not their friendships their far reaching visions or their belief that philanthropy was a tool of statecraft In the postwar years these philanthropists led by doctor activists collaborated on the anti drowning cause spread new medical charities combatted the slave trade reformed penal practices and experimented with relieving needy strangers The nature of their cooperation however had changed No longer members of the same polity they adopted a universal approach to their benevolence working together for the good of humanity rather than empire Making the care of suffering strangers routine these British and American activists laid the groundwork for later generations global undertakings From Empire to Humanity offers new perspectives on the history of philanthropy as well as the Atlantic world and colonial and postcolonial history
