Effective Church Planning:

Effective Church Planning Lyle E. Schaller, 1979 Lyle E Schaller offers seven basic factors for translating important new concepts from the behavioral sciences into terms that can be used for effectively solving church problems Is guilt a means of motivation in your church How does the appearance of the meeting place affect the type or quality of worship a church has Specific and relatively common issues such as these which face nearly every church of every denomination at one point or another are discussed as well as budgeting worship evangelism expansion of facilities tenure fellowship and motivation Schaller includes a chapter on Symptoms or Problems and uses four case studies to illustrate how easy it is to focus on symptoms rather than on basic underlying causes Lyle Schaller believes that armed with a realistic diagnosis almost everyone has the potential to be a problem solver and respond creatively and innovatively His method of problem solving encourages us not to dwell on past mistakes or regrets but to plan with the future in mind **Twelve Keys to an Effective Church, The Planning Workbook** Kennon L.  Spiritual management is required for spiritual organization and yet a ministry's master plan should be the Master's plan for
 that ministry Church and Ministry Strategic Planning assists readers in developing a Biblically based blueprint for carrying
 out the many activities in which the church or ministry is involved The authors show clearly how careful planning is inspired
 by the Scriptures Suppose one of you wants to build a tower Will he not first sit down and estimate the cost to see if he has
 enough money to complete it Luke 14:28 and how it improves making decisions today which ultimately affect the ministry's
 effectiveness tomorrow Church and Ministry Strategic Planning covers all areas of this type of planning and can be read and
 reviewed quickly Through the use of a model of the strategic planning process the authors show how to develop mission
 statements define strategic objectives develop strategy options and operating strategies appraise performance and monitor
 strategic planning Readers are led step by step through these key areas of creating a strategic plan Examples and
 worksheets at the end of each chapter enable pastors administrators and lay leaders to develop a strategic plan fitting to
 their specific ministry or church The appendixes provide tools used in planning as well as a complete sample strategic plan
 for a large church Put these concepts to immediate use in decisionmaking and pursue God's purpose and vision for the
 church or ministry If readers take the time and effort to study this book apply its format and prayerfully keep God in every
 step of the plan here is what the authors believe plan administrators can expect 1 A sense of enthusiasm in the church or
 ministry 2 A 5 year plan in writing to which everyone is committed 3 A sense of commitment by the entire church to its
 overall direction 4 Time for the leaders to do what they have been called to do 5 Clear job duties and responsibilities 6 Clear
 and evident improvement in the health and vitality of every member of the church staff 7 Measurable improvement in the
 personal lives of all those in responsible positions with time for vacations family and personal pursuits 8 The ability to

measure very specifically the growth and contribution made by senior pastors or evangelists at the close of their careers 9

Guaranteed leadership of the church or ministry because a plan is in place in writing and is understood Even more importantly a management team and philosophy will be in place to guide the church or ministry into its next era of growth Explore this Biblical perspective on planning and develop a strategic plan that is systematic and continuous and allows the church or ministry to assess its market position establish goals objectives priorities and strategies to be completed within specified time periods achieve greater staff and member commitment and teamwork aimed at meeting challenges and solving problems and muster its resources to meet these changes through anticipation
