Effects Of World War I

M Planty

Effects Of World War I:

Mahan Goes To War: Effects Of World War I On The US Navy's Force Structure And Operational Planning LCDR Brandon E. Todd USN, 2015-11-06 A T Mahan's 1890 book *The Influence of Sea Power on History* presented a theory of sea power that proclaimed the capital ship centered battle fleet essential to any great maritime nation's long term prosperity Mahan also formulated a beguilingly simple operational concept based on the teachings of Jomini His ideas quickly became dogma in the world's navies including the U S Navy In the decades before World War I the U S Navy's force structure and operational plans reflected Mahan's emphasis on the battleship and fighting as a concentrated fleet The naval conflict between Germany and Great Britain in World War I did not resemble Mahan's vision for what war at sea between two great powers should look like Rather than consisting of decisive battles between fleets of capital ships the War involved distant blockade raids mining and especially commerce raiding by German submarines Mahan's rival theorist Sir Julian Corbett better described the character of World War I Despite the advantage of almost three years of observing the European conflict the U S Navy did little to prepare for this new kind of war It entered the War in April 1917 with a top heavy force of battleships and operational plans completely unsuited to the anti submarine conflict it would undertake This monograph attempts to determine the effects of World War I a decidedly non Mahanian war on the U S Navy's force structure and operational planning These variables manifest the Navy's ends ways and means and thus shed light on the theoretical underpinnings of the Navy's policy

The Impact of World War I on Marriages, Divorces, and Gender Relations in Europe Sandra Brée, Saskia Hin, 2019-12-06 How did WWI affect the love lives of ordinary citizens and their interactions as couples This book focuses on how dramatic changes in living conditions affected key parts of the life course of ordinary citizens marriage and divorce Innovative in bringing together demographic and gender perspectives contributions in this comparative volume draw on newly available micro level data as well as qualitative sources such as war diaries In a first exploration intended to incite further research it asks how patterns of marriage and divorce were affected by the war across Europe and what the role of enduring change or lack thereof in gender relations was in shaping these patterns

Introduction to World War I Gilad James, PhD, World War I also known as the Great War was a global conflict that lasted from 1914 to 1918 It was fought between the Central Powers Germany Austria Hungary the Ottoman Empire and other smaller nations and the Allied Powers Great Britain France Russia and other smaller nations The war began after the assassination of Archduke Franz Ferdinand of Austria Hungary an event that triggered a series of alliances tensions and mobilizations among the major European powers The war was characterized by new technologies and tactics including the use of machine guns planes tanks and chemical weapons It resulted in millions of casualties and enormous social and economic changes across the globe The Treaty of Versailles which ended the war imposed harsh penalties on Germany and other Central Powers setting the stage for another major conflict in the next decades The legacy of World War I has been felt throughout the 20th century and beyond shaping

politics diplomacy and culture in numerous ways **Causes and Consequences of World War I** Stewart Ross,1998
Primary sources 24 full color maps in each title Profiles of military and political leaders **Effects of War on Society**
Giorgio Ausenda,2002 The conference Effects of War on Society was the first in a series aimed at placing in perspective the
sociocultural variables that make outbreaks of war probable and identifying for policy makers steps that can be taken to
control these variables The papers focus on analysis of historical thinking on war anthropological analysis of the effects of
war on societies at different levels of sociocultural integration the expansion and decline of multi ethnic states and the wider
effects of war political economic and moral Copyright Libri GmbH All rights reserved Britain in Transition Alfred F.
Havighurst,1985-08 This new edition extends and brings up to date the story of political economic and social change among
the British An entirely new chapter covers the Thatcher years discussing such events as the Falkland Island crisis and the
General Election of 1983 Other sections have been revised to reflect information only recently available Throughout
Havighurst has incorporated material from official documents monographs biographies articles and the press His fascinating
narrative fully captures the ongoing importance of change itself in shaping the character of Britain **World War II and
Its Consequences** Clive Emsley,1990 Readicide Kelly Gallagher,2023-10-10 Read i cide The systematic killing of the
love of reading often exacerbated by the inane mind numbing practices found in schools Reading is dying in our schools
Educators are familiar with many of the factors that have contributed to the decline poverty second language issues and the
ever expanding choices of electronic entertainment In this provocative book Readicide How Schools are Killing Reading and
What You Can Do About It author and teacher Kelly Gallagher suggests it is time to recognize a new and significant
contributor to the death of reading our schools Readicide Gallagher argues that American schools are actively though
unwittingly furthering the decline of reading Specifically he contends that the standard instructional practices used in most
schools are killing reading by Valuing standardized testing over the development of lifelong readersMandating breadth over
depth in instructionRequiring students to read difficult texts without proper instructional support and insisting students
focus on academic textsIgnoring the importance of developing recreational readingLosing sight of authentic instruction in
the looming shadow of political pressuresReadicide provides teachers literacy coaches and administrators with specific steps
to reverse the downward spiral in reading steps that will help prevent the loss of another generation of readers **How
Much have Global Problems Cost the World?** Bjørn Lomborg,2013-10-10 Bj rn Lomborg invites leading economists to

Warfare--U.S. Policies and International Effects** United States. Congress. House. Committee on Foreign Affairs.
Subcommittee on National Security Policy and Scientific Developments,1970 **Study of Export-Import Bank and World
Bank, Hearings Before ..., 83:2-** United States. Congress. Senate. Committee on Banking and Currency,1954
Annual Report Carnegie Endowment for International Peace,1926 *The Nature of Empire* Andrea Duffy,2025-09-15

The Nature of Empire exposes the central role of modern imperialism in the development of contemporary environmentalism and environmental science. It builds this case through an investigation of five major modern empires: Britain, France, Russia, the Ottoman Empire, and Japan. This book offers readers a global environmental history of modern imperialism that actively engages Western-based and non-Western-based empires. As this study shows, imperialism ultimately transformed human perceptions of nature and the environment in significant, lasting, and conflicting ways. It both inspired modern conservationist practices and fueled opposition to environmental policies in colonial contexts. It also spurred the development of climate science, which helped reveal the environmental toll of imperial exploitation and drive efforts to fight it. The environmental and political legacies of empire remain evident today through unmitigated anthropogenic climate change and the increasing incidence of extreme weather, which tends to disproportionately impact marginalized peoples. This book stands as a useful and accessible resource for students, scholars, and all those seeking to better understand environmental history, imperial legacies, and the roots of contemporary climate challenges. *Stockpile and Accessibility of Strategic and Critical Materials to the United States in Time of War*. United States. Congress. Senate. Committee on Interior and Insular Affairs, 1954.

Stockpile and Accessibility of Strategic and Critical Materials to the United States in Time of War: Industrial representatives of producers and users of strategic and critical materials. 2 v. United States. Congress. Senate. Committee on Interior and Insular Affairs, 1954. The Oxford Encyclopedia of Economic History. Joel Mokyr, 2003. What were the economic roots of modern industrialism? Were labor unions ever effective in raising workers' living standards? Did high levels of taxation in the past normally lead to economic decline? These and similar questions profoundly inform a wide range of intertwined social issues whose complexity, scope, and depth become fully evident in the Encyclopedia. Due to the interdisciplinary nature of the field, the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history, demographic history, business history, and the histories of technology, migration, and transportation. The articles, all written and signed by international contributors, include scholars from Europe, Latin America, Africa, and Asia. Covering economic history in all areas of the world and segments of economies from prehistoric times to the present, *The Oxford Encyclopedia of Economic History* is the ideal resource for students, economists, and general readers, offering a unique glimpse into this integral part of world history. The ^AOxford Companion to United States History. Paul S. Boyer, 2001-07-04. Here is a volume that is as big and as varied as the nation it portrays. With over 1,400 entries written by some 900 historians and other scholars, it illuminates not only America's political, diplomatic, and military history but also social, cultural, and intellectual trends, science, technology, and medicine, the arts, and religion. Here are the familiar political heroes from George Washington and Benjamin Franklin to Abraham Lincoln, Woodrow Wilson, and Franklin D. Roosevelt. But here too are scientists, writers, radicals, sports figures, and religious leaders, with incisive portraits of such varied individuals as Thomas Edison and Eli Whitney, Babe Ruth and Muhammed Ali, Black Elk and Crazy Horse, Margaret Fuller, Emma Goldman,

and Marian Anderson even Al Capone and Jesse James The Companion illuminates events that have shaped the nation the Great Awakening Bunker Hill Wounded Knee the Vietnam War major Supreme Court decisions Marbury v Madison Roe v Wade landmark legislation the Fugitive Slave Law the Pure Food and Drug Act social movements Suffrage Civil Rights influential books The Jungle Uncle Tom's Cabin ideologies conservatism liberalism Social Darwinism even natural disasters and iconic sites the Chicago Fire the Johnstown Flood Niagara Falls the Lincoln Memorial Here too is the nation's social and cultural history from Films Football and the 4 H Club to Immigration Courtship and Dating Marriage and Divorce and Death and Dying Extensive multi-part entries cover such key topics as the Civil War Indian History and Culture Slavery and the Federal Government A new volume for a new century The Oxford Companion to United States History covers everything from Jamestown and the Puritans to the Human Genome Project and the Internet from Columbus to Clinton Written in clear graceful prose for researchers browsers and general readers alike this is the volume that addresses the totality of the American experience its triumphs and heroes as well as its tragedies and darker moments *Stockpile and Accessibility of Strategic and Critical Materials to the United States in Time of War: pt. 12. Titanium* United States. Congress. Senate. Committee on Interior and Insular Affairs, 1953 Science in the Twentieth Century John Krige, Dominique Pestre, 2013-11-19 With over forty chapters written by leading scholars this comprehensive volume represents the best work in America Europe and Asia Geographical diversity of the authors is reflected in the different perspectives devoted to the subject and all major disciplinary developments are covered There are also sections concerning the countries that have made the most significant contributions the relationship between science and industry the importance of instrumentation and the cultural influence of scientific modes of thought Students and professionals will come to appreciate how and why science has developed as with any other human activity it is subject to the dynamics of society and politics **The Encyclopedia of Christianity, Vol. 5** Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world the articles in this volume range from Sufism and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth
