Black Athena Revisited Mary R. Lefkowitz, Guy MacLean Rogers, 2014-03-24 Was Western civilization founded by ancient Egyptians and Phoenicians Can the ancient Egyptians usefully be called black Did the ancient Greeks borrow religion science and philosophy from the Egyptians and Phoenicians Have scholars ignored the Afroasiatic roots of Western civilization as a result of racism and anti-Semitism In this collection of twenty essays leading scholars in a broad range of disciplines confront the claims made by Martin Bernal in Black Athena The Afroasiatic Roots of Classical Civilization In that work Bernal proposed a radical reinterpretation of the roots of classical civilization contending that ancient Greek culture derived from Egypt and Phoenicia and that European scholars have been biased against the notion of Egyptian and Phoenician influence on Western civilization The contributors to this volume argue that Bernal's claims are exaggerated and in many cases unjustified Topics covered include race and physical anthropology the question of an Egyptian invasion of Greece the origins of Greek language philosophy and science and racism and anti-Semitism in classical scholarship In the conclusion to the volume the editors propose an entirely new scholarly framework for understanding the relationship between the cultures of the ancient Near East and Greece and the origins of Western civilization The contributors are John Baines professor of Egyptology University of Oxford Kathryn A Bard assistant professor of archaeology Boston University C Loring Brace professor of anthropology and

Sticks, Stones, and Shadows Martin Isler, 2001 What do the pyramids of Egypt really represent What could have driven so many to so great and often so dangerous an effort Was the motivation religious or practical Illustrated with more than 300

photographs and drawings this book presents an original approach to the subject of pyramid building It reveals the connection between devices that served both a practical need for survival and a spiritual belief in gods and goddesses It examines Egyptian technologies and techniques from the origins of pyramid development to the step by step details of how the ground was leveled how the site was oriented and how the stone was raised and placed to meet at a distant point in the sky Here the author also asks and answers questions virtually ignored for the last century He discloses for example the ancient use of shadows now denigrated to the ornamental back yard sundial but once an important tool for telling the height of an object geographical directions the seasons of the year and the time of day He also reinterprets the ancient stretching of the cord ceremony which once was thought to have only religious significance but here is shown as the means of establishing the sides of a pyramid *International Dictionary of Historic Places: Middle East and Africa* Trudy Ring,Robert M.

The Private Feast Lists of Ancient Egypt Anthony John Spalinger,1996 This volume covers the numerous small lists of feasts that occur mainly on stelae and in tombs A chronological study is presented wherein the major phases of Pharaonic Egypt Old Kingdom to the Ptolemaic Period are covered Questions of dating these inscriptions as well as reasons concerning alterations in the lists form a major part of the discussion In particular differences in arrangement of these private celebrations both within a specific time period as well as between eras provide causes for the alterations of religious patterns
