Davenport Adams, 2015-06-12 Excerpt from Egypt Past and Present Described and Illustrated With a Narrative of Its Occupation by British and of Recent Events in the Soudan If Egypt presents no other attractions the certainty says Sir Gardner Wilkinson that it is the oldest State of which we have any positive and tangible records must awaken feelings of interest to which no contemplative mind can remain indifferent The most remote point in its annals to which its extant monuments refer us opens with a nation possessing all the arts of civilized life already matured but though stretching so far back into the early history of the world we still find the infancy of the Egyptian State is placed far beyond our reach All we know is that it was far advanced in all those arts and sciences which contribute so greatly to the comfort and adornment of social life that it had a profound creed a consummate polity a fixed government and immense material resources at an epoch when Jacob and his sons were pasturing their flocks in the land of Canaan About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Nile Toby Wilkinson, 2014-02-13 From Herodotus's day to the present political upheavals the steady flow of the Nile has been Egypt's heartbeat. It has shaped its geography, controlled its economy and moulded its civilisation. The same stretch of water which conveyed Pharaonic battleships, Ptolemaic grain ships, Roman troop carriers and Victorian steamers today carries modern day tourists past bankside settlements in which rural life, fishing, farming, flooding continues much as it has for millennia. At this most critical juncture in the country's history, foremost Egyptologist Toby Wilkinson takes us on a journey up the Nile north from Lake Victoria, from Cataract to Cataract, past the Aswan Dam to the delta. The country is a palimpsest; every age has left its trace as we pass the Nilometer on the island of Elephantine which, since the days of the Pharaohs, has measured the height of Nile floodwaters to predict the following season's agricultural yield and set the parameters for the entire Egyptian economy: the wonders of Giza which bear the scars of assault by nineteenth-century archaeologists and the modern-day unbridled urban expansion of Cairo; and in Egypt's earliest art, prehistoric images of fish traps carved into cliffs and the Arab Spring fought on the bridges of Cairo, the Nile is our guide to understanding the past and present of this unique, chaotic, vital, conservative yet rapidly changing land. **Christian Egypt, Past, Present, and Future**

Sir Montague Fowler (bart.), 1901 **Photographic views of Egypt, past and present** Joseph Parrish Thompson, 1855

Photographic Views of Egypt, Past and Present Joseph Parrish Thompson, 2015-06-15 Excerpt from *Photographic Views of Egypt Past and Present* In the month of January 1853 I found myself afloat upon the Nile. Six months before I had left New York in the uncertainty of pulmonary disease to try the benefit of a year of travel in more genial climes. The balmy air of Egypt brought healing to my lungs and with this came an almost boyish gush of life so that in the soul as in the outer world it was the Season of Vegetation after the Season of the Waters. For three months the light of each morning without clouds pictured in the mind the scenery of the Nile, the passing scenes of Egyptian life and the lingering monuments of Egyptian history in lines that can never be effaced and in the abundant leisure of boat life these views were transferred from the mind to paper. Each view was taken by the light which itself threw upon the mind, photographed by the outward upon the inward and again transferred from the inward to the outward. These impressions as taken at the time were laid by for future reference. A few have been exhibited to friends in public journals and in lectures and now the whole are bound together in this volume for whoever cares to look at life pictures of a distant land. If the picture is gay or grotesque it is because the reality was gay or grotesque; if the picture is sombre it is because the reality was sombre. Masters: Past, Present, Future Jean Kerisel,2021-12-17 The Pharoahs were masters of the Nile they had a detailed understanding of the ways of the river Modern Egyptians see themselves as heirs to this tradition and as owners of the Nile waters In the 1960 s Egypt decided to protect its increasingly populated Nile valley from the ravages of annual flooding by building a dam A relatively small dam in the valley of Nubia in the region of Tushka would have enabled the excess floodwaters to safely be diverted towards the fossil valley of the pre Nile However it was decided to select a site near Aswan making it necessary to inundate more than 250km of river valley Over the years this strategy has been revealed to have been faulty and numerous irrigation schemes in upriver countries have progressively reduced the amount of water descending into Egypt The dire warning of the 14th century oracle appears to be prophetic the water of the river in my country will be stopped from reaching yours which I shall cause to die of thirst

The Nile Toby Wilkinson,2015-03-03 The Nile like all of Egypt is both timeless and ever changing In these pages renowned Egyptologist Toby Wilkinson takes us on a journey downriver that is both history and travelogue We begin at the First Nile Cataract close to the modern city of Aswan From there Wilkinson guides us through the illustrious nation birthed by this great river We see Thebes with its Valley of the Kings Valley of the Queens and Luxor Temple We visit the fertile Fayum the Great Pyramid of Giza and finally the pulsing city of Cairo where the Arab Spring erupted on the bridges over the water Along the way Wilkinson introduces us to the gods pharaohs and emperors who joined their fate to the Nile and gained immortality and to the adventurers archaeologists and historians who have all fallen under its spell Peerlessly erudite vividly told The Nile brings the course of this enduring river into stunning view
