and compliant So much of what we do how we dress and what we value is actually a manifestation of government propaganda and advertising And so we embrace sentimental notions about our founding fathers about marriage our political system and time honored rituals While we think of ourselves as free we are deluged with messages from powerful conglomerates who want us to dress and act a certain way and who have clear agendas for what they want us to believe about our nation and way of life This book explores culture and questions the way it is created Is culture a reflection of our values and traditions or is it dictated to us by powerful entities and political institutions
