Stafford,1982 The grants economy and collective consumption , The Grants Economy and Collective Consumption , *The Grants Economy and Collective Consumption* Robert Charles Oliver Matthews,G. B. Stafford,1982 The Grant System John W. Kalas,1987-01-01 In the past thirty years the giving and receiving of grants has grown from a small loosely organized club involving a few elite institutions and a few million dollars to a massive system accounting for more than 75 billion in annual expenditures and involving literally thousands of public and private organizations This growth has resulted in the formation of a major social and economic system with its own rules and network of institutional relationships This book analyzes the grant system in its entirety its history scope social and economic impact importance and future This broad approach serves as a good introduction to the grant system for those who are not familiar with it and provides a new fresh perspective for those who know some aspects of it well The Economics of Military Expenditures Christian Schmidt,1987-07-07 **Grants** Jean M. Fromm,2007 Grants are available from thousands of sources both private and public To the grantseeker however this wealth of sources appears like an impenetrable jungle Where are the grants I need and what do I need to do to submit my ideas and proposals This book is designed to answer these questions by aiming the grantseeker to both the grant givers and by providing a bibliography of book for further research *Child Poverty and Deprivation in the Industrialized Countries, L945-1995* Giovanni Andrea Cornia,Sheldon Danziger,1997 The authors in this volume utilize a common analytical framework to evaluate how economic family structure and public policy changes affected the well being of children in the industrialized countries in the West and the East from the end of the Second World War to the mid 1990s Throughout the industrialized world the living standards and social well being of children improved remarkably over these five decades But the quarter century golden age that followed the Second World War gave way to a period of stagnation after the early 1970s Many of the negative developments of the past two decades could not have been easily prevented because of the profound structural changes that have affected all industrialised economies and the profound political changes that have affected the former Soviet Bloc Nonetheless adverse or neglectful social policies share some of the blame for the recent unfavourable changes in child well being The evidence presented suggests that given current economic prospects and family structures further weakening of social policies targeted at children could erode much of the progress of the past fifty years **The Economics of Public Debt** Kenneth J.
