Out of the Sixties Jashanananda, 2014-01-20 Born to the middle class in Middle America in the middle of the twentieth century to middle of the road republicans Jashanananda was a fearful child He was reluctant to make an appearance in this world and then slow to blossom It was not until he found himself studying psychology in the free love sixties that he began exploring new ideas and asking questions like What is this world and Who am I With the help of psychedelic drugs Jashanananda turned away from academia and began an inner quest to find what s real This journey led him to Eastern religions and down the path of yoga which carried him through a twenty year marriage a job in corporate America and raising three children in the mountains of Colorado Then one day in the midst of his middleclass suburban life he had an awakening and everything

changed He was back on his journey in search of his true self the source of love and the true nature of existence This is his story Outdoor Adventures Albert E. Shirling,1928 *Wild Prairie* James,2012-03-23 In this large format book noted photographer James R Page explores one of nature s most beautiful and varied environments Page traveled from his home in Saskatchewan through the Prairie provinces and south through the United States Prairie to Texas to photograph the splendor of the grasslands through the seasons Here are summer s sunlit world of grass stalks and sky autumn s early snow swirls winter s coyotes sleeping in frosty grass and spring s rattling winds and new green growth The images in *Wild Prairie* find the essential in these timeless landscapes Willa Cather's Ecological Imagination Susan J. Rosowski,2003-01-01 The wide ranging essays collected in this volume of Cather Studies examine Willa Cather s unique artistic relationship to the environment Under the theoretical rubric of ecocriticism these essays focus on Cather s close observations of the natural world and how the environment proves for most of these contributors to be more than simply a setting for her characters While it is certain that Cather s novels and short stories are deeply grounded in place literary critics are only now considering how place functions within her narratives and addressing environmental issues through her writing These essays reintroduce us to a Cather who is profoundly identified with the places that shaped her and that she wrote about Glen A Love offers an interdisciplinary reading of *The Professor s House* that is scientifically oriented Joseph Urgo argues that *My Antonia* models a preservationist aesthetic in which landscape and memory are inextricably entangled Thomas J Lyon posits that Cather had a living sense of the biotic community and used nature as the standard of excellence for human endeavors and Jan Goggans considers the ways that *My Antonia* shifts from nativism toward a flexible notion of place based community

Ecclesiastes: Life Beneath the Blazing Sun Preston Taylor,2006-08 Life is pessimistic and has no lasting purpose unless a person looks above the sun Everlasting hope and assurance fills everyone who reframes life with God in the center Biblical Studies *Field Guide to Common Western Grasshoppers* Robert E.
