Grassland Settlers The Swift Current Region During The Era Of The Ranching Frontier:

Grassland Settlers Don C. McGowan,1975 **Frontier Cattle Ranching in the Land and Times of Charlie Russell**

Warren M. Elofson,2004-04-28 In *Frontier Cattle Ranching in the Land and Times of Charlie Russell* Warren Elofson debunks the myth of the American wild west and the Canadian mild west by demonstrating that cattlemen on both sides of the forty ninth parallel shared a common experience Focusing on Montana Southern Alberta Southern Saskatchewan and the well known figure of Charlie Russell an artist and storyteller from that era who spent time on both sides of the border Elofson examines the lives of cowboys and ranch owners looking closely at the prevalence of drunkenness prostitution gunplay rustling and vigilante justice in both Canada and the United States **Ranching under the Arch** D. Larraine

Andrews,2019-05-21 A visually rich historically epic tale of cattle ranching in southern Alberta focusing on multi generational family owned ranches that are still in existence today In the 1880s a group of fledgling cattle ranchers descended on the plains of southern Alberta They were drawn by the promise of the West where the grass seemed endless and they could ranch under the arch of the Chinook the warm Pacific wind that swooped down the eastern slopes of the Rockies to melt the snow and clear the land for year round grazing They came with wild optimism but their ambition was soon tempered by the brutal reality of a frontier land Ranching under the Arch is a tale of survival perseverance and prosperity in the face of struggle loss and loneliness Following over a dozen ranches still in operation that have roots dating to the late nineteenth century historian D Larraine Andrews recounts the culture that developed around this unique vocation These ranches have endured as vibrant enterprises sometimes into the fifth generation of the same family sometimes with new faces and dreams to change the focus of the narrative Drawing from historical archives diaries and personal accounts and illustrated by informative maps fascinating archival imagery and stunning contemporary photography Ranching under the Arch is an epic portrait of the Cattle Kingdom and its place in Alberta history **The Records of the Department of the Interior and Research Concerning Canada's Western Frontier of Settlement** Irene M. Spry,Bennett McCardle,University of Regina.

Canadian Plains Research Center,1993 The Dept of the Interior was in existence from 1873 to 1936 **Methodist Church on the Prairies, 1896-1914** George Neil Emery,2001 At the turn of the twentieth century economic development

transformed Canada s prairie region as the region s population exploded due to migration from central and eastern Canada and immigration from Britain the United States and Europe This boom sev **Agricultural History** Gregory P.

Marchildon,2011 The eighteen essays selected for this volume of the History of the Prairie West Series all focus on the agricultural history of the Canadian Plains They cover a detailed survey of First Nations agricultural practices agriculture during the fur trade era and the history of ranching and the evolution as fenced in farm settlements supplanted the open range from publisher Empire of Dust David C. Jones,2002 This re issue of the 1984 work includes a new preface The saga of the failed town of Alderson Alberta illustrates the greater story of drought and depopulation in the prairie dry belt of

southwestern Alberta and eastern Saskatchewan from the turn of the century through the mid 1900s According to Jones a professor of history from Calgary the doomed farmer exodus from the core of the continent part of a massive North American tragedy was encouraged by boosterism lightning expansion and miscalculation A substantial appendix lists population data and crop prices Annotation copyrighted by Book News Inc Portland OR

The Bar U & Canadian Ranching History S. M. Evans, 2004 For much of its 130 year history the Bar U Ranch can claim to have been one of the most famous ranches in Canada Its reputation is firmly based on the historical role that the ranch has played its size and longevity and its association with some of the remarkable people who have helped develop the cattle business and build the Canadian West The long history of the ranch allows the evolution of the cattle business to be traced and can be seen in three distinct historical periods based on the eras of the individuals who owned and managed the ranch These colourful figures beginning with Fred Stimson then George Lane and finally Pat Burns have left an indelible mark on the Bar U as well as Canadian ranching history The Bar U and Canadian Ranching History is a fascinating story that integrates the history of ranching in Alberta with larger issues of ranch historiography in the American and Canadian West and contributes greatly to the overall understanding of ranching history

How Agriculture Made Canada Peter A. Russell, 2012-10-01 Nineteenth century farm families needed land for the next generation Their quest shaped agricultural settlement across Canada This overview of rural history in Quebec Ontario and the Prairies provides a new perspective on the ways in which agriculture and the family farm were central to the country's expansion and essential to understanding social political and economic changes How Agriculture Made Canada shows how differences between the agricultural development of Quebec and that of Ontario had a decisive influence on the settlement of the Prairies Peter Russell demonstrates that farming families eventually ran out of land against the edges of the St Lawrence lowlands While Quebec based Habitants reached their region's limits earlier Ontario encouraged people to migrate west Russell argues that the thousands of relocated Ontario farmers changed Manitoba's bilingual openness to an exclusively English speaking province that then assimilated East European arrivals Thus if not for the agricultural crises in the Canadas Manitoba might have been at least as francophone as anglophone The first comprehensive synthesis on the history of Canadian farming in decades How Agriculture Made Canada reveals the lasting impact that nineteenth century agricultural changes have had on the nation

Cattle Kingdom Edward Brado, 2004 One of the most colourful chapters in the history of North American settlement began in the 1880s when the rich Alberta grasslands spreading east from the foothills of the Rockies became the magnet for cattle ranching Award winning Cattle Kingdom provides readers with all the colourful tales of raffish characters political intrigues and partnerships fortunes made and lost and the harsh realities of prairie winters The era also gave us the mythic figure of the cowboy still prominent in Alberta today Nowhere is the story of ranching more rich and varied than in Alberta There was an assortment of high rollers big money men from the east English lords and remittance men along with refugees from the American west and ordinary folk seeking a

homestead and a new dream The newly formed North West Mounted Police was on hand as well Famous ranches were created during this period including the Cochrane the Oxley and the North West Cattle Company Bar U The cast of characters included John Ware the brave and foolhardy Major General Thomas Bland Strange who had plans for a ranch for retired British army types and the scrappy Pat Burns who parlayed a small slaughterhouse in Calgary into a giant meat packing and cattle empire By the time of the first Calgary Stampede in 1912 the cattle kingdom was on the wane More and more settlers arrived and began fencing and farming the once limitless grazing lands And then came the discovery of oil But during its brief and brilliant season in the sun early ranching in Alberta put an indelible stamp on the history and culture of the Canadian west

Forest Prairie Edge Merle Massie, 2014-04-26 Saskatchewan is the anchor and epitome of the prairie provinces even though half of the province is covered by boreal forest The Canadian penchant for dividing this vast country into easily understood regions has reduced the Saskatchewan identity to its southern prairie denominator and has distorted cultural and historical interpretations to favor the prairie south Forest Prairie Edge is a deep time investigation of the edge land or ecotone between the open prairies and boreal forest region of Saskatchewan Ecotones are transitions from one landscape to another where social economic and cultural practices of different landscapes

are blended Using place history and edge theory Massie considers the role and importance of the edge ecotone in building a diverse social and economic past that contradicts traditional prairie narratives around settlement economic development and culture She offers a refreshing new perspective that overturns long held assumptions of the prairies and the Canadian west

Harm's Way Anthony W. Rasporich,Maxwell Foran,2004 The stories told in this collection though tragic for many illustrate the steadfast determination and courage of people in the face of misfortune and extreme distress From the lesser known weed outbreaks and tornadoes to the world wide influenza outbreak in 1918 that devastated many Calgary families these stories focus on the human side of these disasters It may be a heroic individual or the collective response of a community but what is truly remarkable in these stories is the human response to the world being turned upside down by famine and disease by flood fire or rock slide by wind and cold by dynamite or gas explosions or even by the seemingly mundane threat of weeds upon crops It is the resolution to continue to fight and the persistence of the human spirit and its adaptability to challenges that is the true story of a century of development in western Canada

Metis and the Medicine Line Michel Hogue,2015-04-06 Born of encounters between Indigenous women and Euro American men in the first decades of the nineteenth century the Plains Metis people occupied contentious geographic and cultural spaces Living in a disputed area of the northern Plains inhabited by various Indigenous nations and claimed by both the United States and Great Britain the Metis emerged as a people with distinctive styles of speech dress and religious practice and occupational identities forged in the intense rivalries of the fur and provisions trade Michel Hogue explores how as fur trade societies waned and as state officials looked to establish clear lines separating the United States from Canada and Indians from non Indians these communities of mixed Indigenous and European ancestry were profoundly affected by the efforts of nation states to divide and absorb the North American West Grounded in extensive research in U S and Canadian archives Hogue s account recenters historical discussions that have typically been confined within national boundaries and illuminates how Plains Indigenous peoples like the Metis were at the center of both the unexpected accommodations and the hidden history of violence that made the world s longest undefended border
