**The Postsecular Sacred** David Tacey, 2019-07-16 In The Postsecular Sacred Jung Soul and Meaning in an Age of Change David Tacey presents a unique psychological study of the postsecular adding a Jungian perspective to a debate shaped by sociology philosophy and religious studies In this interdisciplinary exploration Tacey looks at the unexpected return of the sacred in Western societies and how the sacred is changing our understanding of humanity and culture Beginning with Jung's belief that the psyche has never been secular Tacey examines the new desire for spiritual experience and presents a logic of the unconscious to explain it Tacey argues that what has fuelled the postsecular momentum is the awareness that something is missing and the idea that this could be buried in the unconscious is dawning on sociologists and philosophers While the instinct to connect to something greater is returning Tacey shows that this need not imply that we are regressing to superstitions that science has rejected The book explores indigenous spirituality in the context of the need to reanimate the world not by going back to the past but by being inspired by it There are chapters on ecopsychology and quantum physics and using Australia as a case study the book also examines the resistance of secular societies to becoming postsecular Approaching postsecularism through a Jungian perspective Tacey argues that we should understand God in a manner that accords with the time not go back to archaic rejected images of divinity The sacred is returning in an age of terrorism and this is not without significance in terms of the explosive impact of spirituality in our time Innovative and relevant to the world we live in this will be of great interest to academics and scholars of Jungian studies anthropology indigenous studies philosophy religious studies and sociology due to its transdisciplinary scope It would also be

a useful resource for analytical psychologists Jungian analysts and psychotherapists

**Gender and Power in Contemporary Spirituality** Anna Fedele, Kim Knibbe, 2013-03-05 This book explores the entanglements of gender and power in spiritual practices and analyzes strategies used by spiritual practitioners to attain what to social scientists might seem an impossible goal creating spiritual communities without creating gendered hierarchies What strategies do people within these networks use to attain gender equality and gendered empowerment How do they try to protect and develop individual freedom How do gender and power nevertheless play a role The chapters in this book together and separately demonstrate that in order to understand contemporary spirituality the analytical lenses of gender and power are essential Furthermore they show that it is not possible to make a clear distinction between established religions and contemporary spirituality the two sometimes overlap and at other times spirituality distances itself from religion while reproducing some of its underlying interpretative frameworks This book does not take the discourses of spiritual practitioners for granted yet recognizes the reflexivity of spiritual practitioners and the reciprocal relationship between spirituality and disciplines such as anthropology The ethnographic descriptions of lived spirituality included in this volume span a wide range of countries from Portugal Italy and the Netherlands to Mexico and Israel
