Grassroots Environmental Action Peoples Participation In Sustainable Development:

Grassroots Environmental Action Dharam P. Ghai, Jessica M. Vivian, 1995 Questions the viability of traditional management systems and uses case studies from Third World countries to highlight how local people are playing an active role in conserving their environment and future

Sustainability through Participation? Birgit Peters, Eva Julia Lohse, 2023-07-03 Can and should participation be a means of achieving sustainability The concepts of sustainability and participation are both in vogue and many international supranational and national legal texts and standards refer to these two concepts However there are still several unanswered questions that invite legal inquiry which sustainability Which kinds of participation Participation by whom How are the two concepts of sustainability and participation effectively interlinked in legal provisions This book approaches the interconnection between sustainability and participation inductively and precisely in areas of law which are commonly associated with sustainability and sustainable development national European and international environmental and economic law

Green Power Timothy Doyle, 2000 Presents a history and analysis of everyday events in the environmental movement down under together with an array of theories held by social movements non institutional and non governmental organizations and informal networks and groups Doyle geographical and environmental studies U of Adelaide also provides a chronology of the movement since the 1960s traces the roots of the early wilderness and anti nuclear networks and travels through the Hawke years when environmental concern was incorporated into politics and business as usual Finally Doyle turns towards the environmental movement under the Howard government where it has been intensely challenged by the wise use movement or what Doyle terms the Gang Bang Theory of Nature Distributed by ISBS Annotation copyrighted by Book News Inc Portland OR

Third World Political Ecology Sinead Bailey, Raymond Bryant, 2005-08-08 An effective response to contemporary environmental problems demands an approach that integrates political economic and ecological issues Third World Political Ecology provides an introduction to an exciting new research field that aims to develop an integrated understanding of the political economy of environmental change in the Third World The authors review the historical development of the field explain what is distinctive about Third World political ecology and suggest areas for future development Clarifying the essentially politicised condition of environmental change today the authors explore the role of various actors states multilateral institutions businesses environmental non governmental organisations poverty stricken farmers shifting cultivators and other grassroots actors in the development of the Third World s politicised environment Third World Political Ecology is the first major attempt to explain the development and characteristics of environmental problems that plague parts of Asia Africa and Latin America Drawing on examples from throughout the Third World the book will be of interest to all those who wish to understand the political and economic bases of the Third World s current predicament

Beyond Fences: A resource book Dianne Buchan, 1997 Argues that for a conservation initiative to be sustainable it must involve the indigenous community address local needs and use an internal

management strategy In depth explanations of terms and concepts used in Volume 1 are provided in Volume 2 in a series of concept files **Anthropologica** ,2002 Communities and Forest Management in Western Europe Sally Jeanrenaud,2001 Fourth in the series this profile explores the diverse and changing nature of Community Involvement in Forest Management CIFM in Western Europe It provides some comparative European level data on important social institutions which shape patterns of community involvement in forestry and it briefly examines different national contexts Through 12 case studies this publication discusses some of the main economic social ecological and policy opportunities and challenges of CIFM in Europe and outlines the principal lessons learned according to three key groups of actors governments NGOs and local communities The profile also proposes some recommendations for policy and action in Europe **Immigration, Environment, and Security on the U.S.-Mexico Border** Lisa Meierotto,2019-12-05 This book examines the convergence of conservation and security efforts along the U S Mexico border in Arizona The author presents a unique analysis of the history of Cabeza Prieta National Wildlife Refuge a federally protected border wilderness area Beginning in the early 1990s changes to U S immigration policy dramatically altered the political and natural landscape in and around Cabeza Prieta In particular the increasing presence of Border Patrol has contributed to environmental degradation in wilderness Complicated human rights concerns are also explored in the book Protecting wildlife in an area with high rates of undocumented border crossing and smuggling results in complex and sometimes controversial conservation policies Ultimately the observations and analysis presented in this book illustrate ways in which the politics of race and nationalism are subtly but significantly interwoven into border environmental and security policies **Social Development and Public Policy** D. Ghai,1999-12-07 The book shows through in depth case studies how some low income countries have made enormous strides in overcoming problems of adult literacy lack of schooling high child mortality rapid population growth mass poverty and gender inequalities With contributions from outstanding scholars the book analyses the experiences with social development and public policy of Chile China Costa Rica Cuba Kerala Sri Lanka and Vietnam Using a holistic approach it draws lessons and evaluates their relevance for other countries interested in emulating their achievements *Crucible For Survival* Timothy Doyle,Melissa Risely,2008-07-22 In this collection Timothy Doyle and Melissa Risely bring together an international group of environmentalists political scientists and international relations scholars to address key issues vital to determining the human and environmental security of the Indian Ocean Region Addressing topics that include agrifood production systems the geopolitics of water resources along the Mekong River basin oil production transportation waste disposal and climate change the contributors highlight the importance of regional collaboration and offer policy and management strategies for cooperative multinational problem solving A New Environmental Ethics Holmes Rolston III,2012-04-23 No one looking ahead at the middle of the last century could have foreseen the extent and the importance of the ensuing environmental crises Now more than a decade into the next century no one can ignore it A New Environmental Ethics the Next Millennium

for Life on Earth offers clear powerful and oftentimes moving thoughts from one of the first and most respected philosophers to write on the environment Rolston an early and leading pioneer in studying the moral relationship between humans and the earth surveys the full spectrum of approaches in the field of environmental ethics This book however is not simply a judicious overview Instead it offers critical assessments of contemporary academic accounts and draws on a lifetime of research and experience to suggest an outlook for the future As a result this focused forward looking analysis will be a necessary complement to any balanced textbook or anthology in environmental ethics and will teach its readers to be responsible global citizens and residents of their landscape helping ensure that the future we have will be the one we wish for

International Aid and China's Environment Katherine Morton, 2006-05-17 Rapid economic growth in the world's most populous nation is leading to widespread soil erosion desertification deforestation and the depletion of vital natural resources The scale and severity of environmental problems in China now threaten the economic and social foundations of its modernization Using case studies Morton analyzes the relationship between international and local responses to environmental problems in China challenging the prevailing wisdom that weak compliance is the only constraint upon local environmental management in China It advances two interrelated discussions first it constructs a conceptual framework for understanding the key dimensions of environmental capacity This is broadly defined to encompass the financial institutional technological and social aspects of environmental management Second the book presents the results of an empirical inquiry into the implementation of donor funded environmental projects in both China's poorer and relatively developed regions By drawing upon extensive fieldwork it seeks to explain how and under what conditions international donors can strengthen China's environmental capacity especially at the local level It will be of interest to those studying Chinese politics environmental studies and international relations

Social Change and Conservation Krishna B. Ghimire, Michael P. Pimbert, 2013-12-02 Protected areas and conservation policies are usually established with only local nature and wildlife in mind Yet they can have far reaching consequences for local populations often undermining their access to resources and their livelihoods This book is the first comprehensive discussion of the social consequences of protected area schemes and conservation policies Drawing on case studies from North America Europe Asia Central America and Africa it critically reviews current trends in protected area management and shows how local people have been affected in terms of their customary rights livelihoods wellbeing and social cohesion The loss of secure livelihoods ultimately threatens conservation as poverty and environmental degradation intensify in and around protected areas The leading authorities who have contributed to this ground breaking volume argue for a thorough overhaul of conservation thinking and practice

South Asia in a Globalising World Bob Bradnock, Glynn Williams, 2014-09-25 A comprehensive introduction to the important economic social and political processes and development issues in this extremely popular region South Asia provides one of the world's most challenging development contexts and The authors take a different approach to most traditional development texts

making the latest research teacher friendly and presenting material in an accessible manner for non specialists **Against Extinction** William (Bill) Adams, 2013-06-17 Conservation in the 21st century needs to be different and this book is a good indicator of why Bulletin of British Ecological Society Against Extinction tells the history of wildlife conservation from its roots in the 19th century through the foundation of the Society for the Preservation of the Wild Fauna of the Empire in London in 1903 to the huge and diverse international movement of the present day It vividly portrays conservation's legacy of big game hunting the battles for the establishment of national parks the global importance of species conservation and debates over the sustainable use of and trade in wildlife Bill Adams addresses the big questions and ideas that have driven conservation for the last 100 years How can the diversity of life be maintained as human demands on the Earth expand seemingly without limit How can preservation be reconciled with human rights and the development needs of the poor Is conservation something that can be imposed by a knowledgeable elite or is it something that should emerge naturally from people's free choices These have never been easy questions and they are as important in the 21st century as at any time in the past The author takes us on a lively historical journey in search of the answers *Feminist Political Ecology* Dianne Rocheleau, Barbara Thomas-Slayter, Esther Wangari, 2013-04-15 Feminist Political Ecology explores the gendered relations of ecologies economies and politics in communities as diverse as the rubber tappers in the rainforests of Brazil to activist groups fighting racism in New York City Women are often at the centre of these struggles struggles which concern local knowledge everyday practice rights to resources sustainable development environmental quality and social justice The book bridges the gap between the academic and rural orientation of political ecology and the largely activist and urban focus of environmental justice movements **Ecology Is Permanent Economy** George Alfred James, 2013-01-01 Explores the nonviolent philosophy and environmental activism of India's Sunderlal Bahuguna *Latin America Transformed* Robert N Gwynne, Kay Cristobal, 2014-04-23 Praise for the first edition Accomplishes its task to provide readers with a broad multi disciplinary view on globalization's many impacts on Latin America the organization of the collection is logical and thoughtful and the structural perspectives offered are convincing and powerful I recommend it to other Latin American social scientists Growth and Change An impressive timely and lively volume which is especially valuable for teaching purposes Journal of Latin American Studies Authoritatively written by leading scholars in their respective fields Area Latin America Transformed 2nd Edition explains the region's economic political social and cultural transformations its association with globalization and the search for modernity and contributes to a greater understanding of how these transformations are affecting the people of Latin America Using a political economy approach to unravel the concepts of globalization and modernity within Latin America emphasis is placed on interpreting the macro level structures that frame the transformations taking place The book also investigates the dynamics of people's livelihoods as they make sense of rework and live out these structural transformations The international team of authors involved with the successful first edition have updated their focus and

substantially rewritten their material to examine the challenges facing Latin America in the twenty first century Three completely new chapters have also been added Latin America Transformed 2nd Edition is now even more useful for undergraduate and postgraduate courses that examine economic political social and cultural change in Latin America

Anthropologica ,2002 *Restorative Redevelopment of Devastated Ecocultural Landscapes* Robert L. France,2016-04-19
A fusion of ecological restoration and sustainable development restorative redevelopment represents an emerging paradigm for remediating landscapes Rather than merely fixing the broken bits and pieces of nature restorative development advocates the reuse of devastated landscapes to improve the value and livability of a location for humans at the
