**Romano-British Settlement and Cemeteries at Mucking** Sam Lucy,Christopher Evans,2016-11-30 Excavations at Mucking Essex between 1965 and 1978 revealed extensive evidence for a multiphase rural Romano British settlement perhaps an estate center and five associated cemetery areas 170 burials with different burial areas reserved for different groups within the settlement The settlement demonstrated clear continuity from the preceding Iron Age occupation with unbroken sequences of artefacts and enclosures through the first century AD followed by rapid and extensive remodeling which included the laying out a Central Enclosure and an organized water supply with wells accompanied by the start of large scale pottery production After the mid second century AD the Central Enclosure was largely abandoned and settlement shifted its focus more to the Southern Enclosure system with a gradual decline though the 3rd and 4th centuries although continued burial pottery and artefactual deposition indicate that a form of settlement continued possibly with some low level pottery production Some of the latest Roman pottery was strongly associated with the earliest Anglo Saxon style pottery suggesting the existence of a terminal Roman settlement phase that essentially involved an Anglo Saxon community Given

recent revisions of the chronology for the early Anglo Saxon period this casts an intriguing light on the transition with radical implications for understandings of this period Each of the cemetery areas was in use for a considerable length of time Taken as a whole Mucking was very much a component place complex it was its respective parts that fostered its many cemeteries whose diverse rites reflect the variability and roles of the settlement s evidently varied inhabitants The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources Committee RUSA ALA **The London Gazette** ,1856
