**The Académie Royale de Peinture et de Sculpture** Christian Michel, 2018-02-06 The Académie Royale de Peinture et de Sculpture French Academy of Painting and Sculpture perhaps the single most influential art institution in history governed the arts in France for more than 150 years from its founding in 1648 until its abolition in 1793 Christian Michel's sweeping study presents an authoritative in depth analysis of the Académie's history and legacy The Académie Royale assembled nearly all of the important French artists working at the time maintained a virtual monopoly on teaching and exhibitions enjoyed a priority in obtaining royal commissions and deeply influenced the artistic landscape in France Yet the institution remains little understood today all commentary on it during its existence and since its abolition is

based on prejudices both favorable and critical that have shaped the way the institution has been appraised This book takes a different approach Rather than judging the Acad mie Royale Michel unravels existing critical discourse to consider the nuances and complexities of the academy s history reexamining its goals the shifting power dynamics both within the institution and in the larger political landscape and its relationship with other French academies and guilds Creativity and Reproduction Susanne Anderson-Riedel,2010-02-19 The study investigates the engravers rise within the French academic system and demonstrates their success in transforming a reproductive medium into a creative and original art genre In the nineteenth century graphic artists developed an artistic language that was independent and on par with the original model that they reproduced The Acad mie royale de peinture et de sculpture welcomed graphic artists into its ranks in 1655 As talented reproductive artists were able to disseminate works of art produced at the Academy engravers rose to occupy administrative positions at the compagnie in the eighteenth century Their success notwithstanding graphic artists remained unable to overcome the perception of being reproductive artisans rather than creative and original fine artists The proof of their predicament was the continuous refusal of advanced artistic training for graphic artists within the French academic system The Section de Gravure at the Institut de France established in 1803 was the first academic institution that distinguished between imitative and creative artistic execution in the reproductive graphic arts Through patronage the supervision of competitions and the administration of the Prix de Rome program for graphic artists the Engraving Department established specific guidelines for artistic reproduction and encouraged the formulation of an independent artistic language in the reproductive arts Finally it defined the characteristics of fine engraving as a creative art medium The Prix de Rome for engraving was crucial in consolidating the new understanding of engraving as an original art form The engravers participation in the Grand Prix competition transformed their artisanal training practice in the master s workshop into an artistic and academic education of graphic artists in the engraving ateliers Furthermore their sojourn at the French Academy in Rome encouraged the collegial collaboration between painters sculptors and engravers leading engravers to develop a free and graphic interpretation of their model The reproductive engraver was now able to rival painters and sculptors and consequently he emerged as a creative and original artist *Sport in Europe* Annette Hofmann,2019-12-18 This book presents an overview on sport history research in Europe by giving insights into various topics between Europe s south and north Examples are physical activities in the middle ages in Cordoba bullfighting in Spain aspects of football in various countries to winter sports in France Football is mainly looked at in the period of the late 1930s to the 1940s a period of dictatorship in many European countries This is shown at the example of the German press coverage of German Danish sport collaborations and the identity of Spanish football during this time A further focus are the Olympic Games This topic is taken up in two articles One discusses as its main subject the famous painting Sport Allegory The Crowning of the Athletes created by the father of Pierre de Coubertin the other one has a more current content and shows stakeholders and

challenges of the European Youth Olympics in 2015 Besides these broad topics a focus is put on research in sport history by reflecting on historical frameworks and various methodological approaches The chapters in this book were originally published as a special issue in The International Journal of the History of Sport A History of Poetics Sandra Richter,2010-02-23 Since the 1990s following the end of postmodernism literary theory has lost much of its dynamics This book aims at revitalising literary theory exploring two of its historical bases German poetics and aesthetics Beginning in the 1770s and ending in the 1950s the book examines nearly 200 years of this history thereby providing the reader with a first history of poetics as well as with bibliographies of the subject Particular attention is paid to the aesthetics and poetics of popular philosophy of the Hegel school empirical and psychological tendencies in the field since the 1860s the first steps towards a plurality of methods 1890 1930 theoretical confrontations during the Nazi period as well as the rise of formalist and anthropological approaches from the 1930s onwards All approaches are evaluated regarding their relevance for academia as well as for the general history of education If possible international references and contexts of the relevant theories are taken into account In sum the analysis not only shows how differentiated historical accounts in the field were but also reflects how current literary theory could move forward through the rediscovery of sunken ideas *Bibliotheca Lindesiana ...* James Ludovic Lindsay Earl of Crawford,1910 Webs of Allusion Alison Adams,2003 Om protestantiska emblem bcker i 1500 talets Frankrike Art Et Architecture Au Canada Loren Ruth Lerner,Mary F. **"Sculptors and Design Reform in France, 1848 to 1895 "** Claire Jones,2017-07-05 Challenging distinctions between fine and decorative art this book begins with a critique of the Rodin scholarship to establish how the selective study of his oeuvre has limited our understanding of French nineteenth century sculpture The book s central argument is that we need to include the decorative

in the study of sculpture in order to present a more accurate and comprehensive account of the practice and profession of sculpture in this period Drawing on new archival sources sculptors and objects this is the first sustained study of how and why French sculptors collaborated with state and private luxury goods manufacturers between 1848 and 1895 Organised chronologically the book identifies three historically situated frameworks through which sculptors attempted to validate themselves and their work in relation to industry industrial art decorative art and objet d art Detailed readings are offered of sculptors who operated within and outside the Salon including S n Ch t Carrier Belleuse and Rodin and of diverse objects and materials from S es vases to pewter plates by Desbois and furniture by Barbedienne and Carabin By contesting the false separation of art from industry Claire Jones s study restores the importance of the sculptor manufacturer relationship and of the decorative to the history of sculpture
