The Crucifixion and Resurrection of Freddie Gray Roberto E. Alejandro,2020-01-29 Beginning with Plato and carried over in the Christian tradition western political thought has been wedded to the proposition that justice and virtue can be achieved in history through the adoption of proper norms Hannah Arendt termed this the tyranny of truth and its effect is to transform politics into a religious exercise through commitments to metaphysical propositions like truth or goodness The tumultuous political aftermath that formed the wake of Freddie Gray s crucifixion in Baltimore MD is an example of politics turned religious exercise In those politics confessional commitments to propositions related to race society and structure came to dominate the interpretation of the killing of Gray s mortal body But as Gray was resurrected in various forms in the weeks after his death one consequence was that a very poor community had one of their sons stripped from them first by police violence and then again through politics whose discursive violence appropriated Gray as proof of its own metaphysics

The Next America Paul Taylor, Pew Research Center, 2016-01-26 The America of the near future will look nothing like the America of the recent past America is in the throes of a demographic overhaul Huge generation gaps have opened up in our political and social values our economic well being our family structure our racial and ethnic identity our gender norms our religious affiliation and our technology use Today's Millennials well educated tech savvy underemployed twenty somethings are at risk of becoming the first generation in American history to have a lower standard of living than their parents Meantime more than 10 000 Baby Boomers are retiring every single day most of them not as well prepared financially as they'd hoped This graying of our population has helped polarize our politics put stresses on our social safety net and presented our elected leaders with a daunting challenge How to keep faith with the old without bankrupting the young and starving the future Every aspect of our demography is being fundamentally transformed By mid century the population of the United States will be majority non white and our median age will edge above 40 both unprecedented milestones But other rapidly aging economic powers like China Germany and Japan will have populations that are much older With our heavy immigration flows the US is poised to remain relatively young If we can get our spending priorities and

generational equities in order we can keep our economy second to none But doing so means we have to rebalance the social compact that binds young and old In tomorrow s world yesterday s math will not add up Drawing on Pew Research Center s extensive archive of public opinion surveys and demographic data The Next America is a rich portrait of where we are as a nation and where we re headed toward a future marked by the most striking social racial and economic shifts the country has seen in a century Worker Productivity, Employment, and Aging Thomas N.
